L. 113-283), and related National Institute of Standards and Technology guidelines, which provide the requirements that States must follow with regard to use, treatment, and safeguarding of data.

Purpose: The purpose of this matching program is to set forth the terms and conditions governing disclosures of records, information, or

data (collectively referred to herein as "data") made by us to various State agencies and departments (State Agencies), tribal agencies, and U.S. territories that administer federally funded benefit programs, including those under various provisions of the Act, such as section 1137 (42 U.S.C. 1320b-7), as well as the state-funded state supplementary payment programs under Title XVI of the Act. SSA provides electronic data to the States, tribal agencies, and U.S. territories for use in determining entitlement and eligibility for federally funded benefit programs—such as Medicare and Medicaid, subsidized housing, Supplemental Nutrition Assistance Program, and Temporary Assistance to Needy Families—as well as other federally funded, state administered benefit programs. To receive SSA data to administer federally funded, state-administered benefit programs, the State or State agency, tribal agency, or U.S. territory must sign a Computer Matching Agreement and an Information Exchange Agreement. The terms and conditions of this Agreement ensure that we make such disclosures of data, and the States, tribal agencies, and U.S. territories use such disclosed data, in accordance with the requirements of the Privacy Act of 1974, as amended by the CMPPA, 5 U.S.C. 552a.

Under section 1137 of the Act, States are required to use an income and eligibility verification system to administer specified federally funded benefit programs, including the state-funded state supplementary payment programs under Title XVI of the Act. To assist the States, tribal agencies, and U.S. territories in determining entitlement to and eligibility for benefits under those programs, as well as other federally funded benefit programs, we disclose certain data about applicants (and in limited circumstances, members of an applicant's household), for state benefits from our Privacy Act SORs and verify the Social Security numbers (SSN) of the applicants.

Individual agreements with the States, tribal agencies, or U.S. territories describe the information we will disclose and the conditions under which we agree to disclose the information.

Categories of Individuals: Individuals whose information is involved in the matching program are those who apply for federally funded, state-administered benefits, as well as current beneficiaries, recipients, and annuitants under the programs covered by this Agreement.

Categories of Records: The maximum number of records involved in this matching activity is the number of

records maintained in our SORs. Data elements disclosed in computer matching governed by this Agreement are Personally Identifiable Information from our specified SORs, including names, SSNs, addresses, amounts, and other information related to our benefits and earnings information. Specific listings of data elements are available at: <http://www.ssa.gov/dataexchange/>.

Systems of Records (SOR): Our SORs used for purposes of the subject data exchanges include:

- 60-0058—Master Files of SSN Holders and SSN Applications;
- 60-0059—Earnings Recording and Self-Employment Income System;
- 60-0090—Master Beneficiary Record;
- 60-0103—Supplemental Security Income Record (SSR) and Special Veterans Benefits (SVB);
- 60-0269—Prisoner Update Processing System (PUPS); and
- 60-0321—Medicare Part D and Part D Subsidy File.

States will ensure that the tax return data contained in SOR 60-0059 (Earnings Recording and Self-Employment Income System) will only be used in accordance with 26 U.S.C. 6103.
