

is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov> and to all parties in the Central Records Unit, room B-8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>.

Final Determination of No Shipments (Bhansali)

As stated in the *Preliminary Results*, we received a timely claim from Bhansali reporting that it had no shipments of the subject merchandise to the United States during the POR and preliminarily determined that it had no shipments during the POR. For the final results, we continue to find that Bhansali had no shipments of subject merchandise to the United States during the POR.

Final Results of Review (Ambica)

As stated in the *Preliminary Results*, the Department preliminarily found that Ambica had one suspended entry of subject merchandise during this POR for which it had knowledge of its sale to an unaffiliated U.S. customer. For the final results, the Department finds that Ambica had one suspended entry of subject merchandise during the POR. However, as stated in the *Preliminary Results*, the Department inadvertently included the sales associated with this 2015-16 entry of subject merchandise in its analysis for the 2014-15 administrative review. Therefore, we have determined to apply the importer-specific assessment rate calculated for Ambica in the 2014-15 review to this suspended entry in the instant review. For all other entries of subject merchandise attributed to Ambica during the instant POR, Ambica has reasonably explained that it had no knowledge of these entries into the United States or the sales associated with these entries. Accordingly, these entries will be liquidated at the all-others rate. For additional information and analysis, see the Issues and Decision Memorandum; see also the Preliminary Analysis Memorandum.⁴

⁴ Because of the proprietary nature of the entry documents, see the Memorandum from Joseph Shuler, International Trade Analyst to Alex Villanueva, Director, Antidumping and Countervailing Duty Operations Training and Professional Development Unit, "Stainless Steel Bar from India: Preliminary Analysis Memorandum," dated February 22, 2017 (Preliminary Analysis Memorandum).

Assessment of Antidumping Duties

For the single suspended entry attributable to Ambica, we will instruct CBP to liquidate this entry at the importer-specific assessment rate calculated in the 2014-15 administrative review.

In accordance with the Department's practice, for entries of subject merchandise during the POR for which Ambica or Bhansali did not know that the merchandise was destined for the United States, we will instruct CBP to liquidate such entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Tariff Act of 1930: (1) The cash deposit rate for Ambica and Bhansali will remain unchanged from the rate assigned to each company in the completed segment for the most recent period for each company; (2) for other producers and exporters covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the completed segment for the most recent period of this proceeding in which that producer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the producer is, then the cash deposit rate will be the rate established for the completed segment for the most recent period of this proceeding for the producer of subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 12.45 percent, the all-others rate established in the investigation.⁵ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notifications

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption

⁵ See *Notice of Final Determination of Sales at Less Than Fair Value: Stainless Steel Bar from India*, 59 FR 66915, 66921 (December 28, 1994).

that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

These final results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: June 6, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

Appendix I

List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Changes Since the Preliminary Results
- IV. Scope of the Order
- V. Discussion of the Issues
 - Comment: Whether the Department's Liquidation Instructions Address All Applicable Entries
- VI. Recommendation

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XF469

Fisheries of the Gulf of Mexico and Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 54 assessment webinar II for Highly Migratory Species (HMS) Sandbar Shark.

SUMMARY: The SEDAR 54 assessment of the HMS Sandbar will consist of a series of assessment webinars. See **SUPPLEMENTARY INFORMATION.**

DATES: The SEDAR 54 assessment webinar II will be held from 1 p.m. to 3 p.m. on June 22, 2017.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Dr. Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Dr. Julie A. Neer, SEDAR Coordinator; telephone: (843) 571-4366; email: Julie.neer@safmc.net

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Using datasets and initial assessment analysis recommended from the Data Webinar, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 7, 2017.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XF438

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The NMFS Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, has made a preliminary determination that an exempted fishing permit application contains all of the required information and warrants further consideration. This exempted fishing permit would allow

commercial fishing vessels in collaboration with the Massachusetts Division of Marine Fisheries to research the use of raised-footrope trawl gear to target whiting (Northern silver hake) within an area of the Gulf of Maine whiting exempted fishery for two weeks before the start of the current open season.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for a proposed exempted fishing permit.

DATES: Comments must be received on or before June 27, 2017.

ADDRESSES: You may submit written comments by any of the following methods:

- **Email:** NMFS.GAR.EFP@noaa.gov. Include in the subject line "Comments on 2017 MADMF Whiting Exempted Fishery Study EFP."

- **Mail:** John K. Bullard, Regional Administrator, NMFS, Greater Atlantic Regional Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope "2017 MADMF Whiting Exempted Fishery Study EFP."

FOR FURTHER INFORMATION CONTACT: Reid Lichwell, Fishery Management Specialist, (978) 282-9112.

SUPPLEMENTARY INFORMATION: The Massachusetts Division of Marine Fisheries (MADMF) submitted an application for an Exempted Fishing Permit (EFP) to assess the use of small-mesh raised-footrope trawl gear in a Gulf of Maine (GOM) exempted fishing area two weeks before the area opens for whiting fishing. Research would occur within a subarea of Small Mesh Area 1 (SMA1). This EFP would allow up to eight participating commercial fishing vessels exemptions from the minimum mesh size gear requirements found at 50 CFR 648.80(a)(3); and from the possession limits and minimum size requirements specified in 50 CFR part 648, subparts B and D through O.

MADMF asserts that the GOM whiting exempted fishery is underutilized and analysis of observer data have indicated that whiting stocks may be more prevalent and more effectively targeted within the exemption areas before the current July 15 opening for SMA1. This study would provide data on catch rates of whiting and bycatch of regulated Northeast (NE) multispecies to evaluate if an earlier opening of the GOM whiting exempted fishery in SMA1 is warranted. This is the second year of study to test raised-footrope trawl gear targeting whiting before the start of the SMA1 whiting exempted fishery.
