Overview of This Information Collection

(1) *Type of Information Collection:* New collection.

(2) *Title of the Form/Collection:* Generic clearance for cognitive, pilot, and field studies for Office of Juvenile Justice and Delinquency Prevention data collection activities.

(3) *Agency form number, if any, and the applicable component of the Department sponsoring the collection:* Agency form number: Not applicable (new collection).

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: The proposed information collection activity will enable OJJDP to develop, test, and improve its survey and data collection instruments and methodologies. OJJDP will engage in cognitive, pilot, and field test activities to inform its data collection efforts and to minimize respondent burden associated with each new or modified data collection. OJJDP anticipates using a variety of procedures including, but not limited to, tests of various types of survey and data collection operations, focus groups, cognitive laboratory activities, pilot testing, field testing, exploratory interviews, experiments with questionnaire design, and usability testing of electronic data collection instruments. Following standard Office of Management and Budget (OMB) requirements, OJJDP will submit an individual request to OMB for every group of data collection activities undertaken under this generic clearance. OJJDP will provide OMB with a copy of the individual instruments or questionnaires (if one is used), as well as other materials describing the project. Currently, OJJDP anticipates the need to conduct testing and development work that will include the collection of information from law enforcement agencies, child welfare agencies, courts, probation supervision offices, and the state agencies, local governments, non-profit organizations, and for-profit organizations that operate juvenile residential placement facilities.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that approximately 2,500 respondents will be involved in the anticipated cognitive, pilot, and field testing work over the 3-year clearance period. Specific estimates for the average response time are not known for development work covered under a generic clearance. Estimates of overall burden are included in item 6 below.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden for identified and future projects covered under this generic clearance over the 3-year clearance period is approximately 5,000 hours.
