DEPARTMENT OF ENERGY

[FE Docket No. 17-79-LNG]

Eagle LNG Partners Jacksonville II LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on June 15, 2017, by Eagle LNG Partners Jacksonville II LLC (Eagle Maxville), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to 7.7 million cubic feet per day of natural gas, or approximately 0.01 billion cubic feet (Bcf) per day (2.8 Bcf per year). Eagle Maxville seeks authorization to export this LNG from its LNG production and storage facility in Jacksonville, Duval County, Florida (the Maxville Facility), which is anticipated to begin commercial operation in September 2017. Eagle Maxville requests authorization to export this LNG to countries with which trade is not prohibited by U.S. law or policy, including both countries with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). At the Maxville Facility, Eagle Maxville anticipates it will process domestically produced natural gas into LNG, temporarily store the produced LNG, and load the LNG into cryogenic transport trailers or approved ISO IMO7-TVAC-ASME LNG (ISO) containers for transportation by truck to port facilities for transfer into vessels or other ocean-going container ships. Eagle Maxville is requesting this authorization on its own behalf and as agent for other entities who hold title to the natural gas at the time of export. Eagle Maxville requests the authorization for a 20-year term to commence on the earlier date of the first export or five years from the date of a final order granting export authorization. Eagle Maxville filed the

Application under section 3 of the Natural Gas Act (NGA). Additional details can be found in Eagle Maxville's Application, posted on the DOE/FE Web site at <https://www.energy.gov/fe/downloads/eagle-lng-partners-jacksonville-ii-llc-fe-dkt-no-17-79-lng>.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

In the Application, Eagle Maxville requests authorization to export LNG from the Maxville Facility to both FTA countries and non-FTA countries. This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). DOE separately will review the portion of the Application requesting authority to export LNG to FTA countries pursuant to section 3(c) of the NGA, 15 U.S.C. 717b(c).

In reviewing Eagle Maxwell's request for a non-FTA export authorization,

DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the following two studies examining the cumulative impacts of exporting domestically produced LNG:

- *Effect of Increased Levels of Liquefied Natural Gas on U.S. Energy Markets*, conducted by the U.S. Energy Information Administration upon DOE's request (2014 EIA LNG Export Study);¹ and

- *The Macroeconomic Impact of Increasing U.S. LNG Exports*, conducted jointly by the Center for Energy Studies at Rice University's Baker Institute for Public Policy and Oxford Economics, on behalf of DOE (2015 LNG Export Study).²

Additionally, DOE will consider the following environmental document: *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014).³ Parties that may oppose this Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the non-FTA portion of the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. In the Application, Eagle Maxville states that it has received all state and local permits required for construction and operation of the Maxville Facility (with the exception of a routine occupancy permit that Eagle Maxville anticipates will be issued in due course), and that all major construction has been completed.⁴ No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.
