of housing transactions per year at ten (10) transactions per community.

HUD concluded that the publication of policies and procedures is likely to be a one-time event, and in most cases will require no additional burden beyond what is done in the normal course of

business. The estimated total annual burden hours are 5,500 hours.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

Please see table below.

Type of collection activity	Number of respondents	Frequency of response	Total annual responses hours	Burden hour per response	Total annual burden hours	Hourly cost per response	Annual cost
<i>One:</i> Publication of and adherence to policies and procedures that demonstrate the intent to operate as 55-or-older housing	1,000	1	1,000	2	2,000	\$21.30	\$42,600.00
<i>Two:</i> Collect age verification data for at least one occupant per unit to meet the HOPA's minimum "80" requirement	1,000	1	1,000	1	1,000	21.30	21,300.00
<i>Three:</i> Periodic updates of occupancy records	1,000	1	1,000	2.50	2,500	21.30	53,250.00
Total Burden Hours and Costs	3,000	5,500	117,150.00

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: This notice advises the public that the Center of Excellence in Hazardous Material Management (CEHMM; applicant) and the New Mexico State Land Office (NMSLO, applicant) have applied to the Fish and Wildlife Service (Service) for two separate enhancement of survival permits pursuant to the Endangered Species Act of 1973, as amended (Act). The permit application includes draft programmatic candidate conservation agreement with assurances (CCAA) for the Texas hornshell and other covered species (the Rio Grande River cooter, gray redhorse, blue sucker, and Pecos springsnail) in west Texas and southeast New Mexico. A separate permit application includes a draft programmatic candidate conservation agreement with assurances (CCAA) for the Texas hornshell and other covered species (the Rio Grande River cooter, gray redhorse, blue sucker, and Pecos springsnail) that is valid only on New Mexico State trust lands. Additionally, the Service received a draft candidate conservation agreement (CCA) for the Texas hornshell and the other covered species from the Bureau of Land

Management (BLM) that would address threats to these species on Federal land in southeastern New Mexico. The CCAAs, and associated permits, would authorize incidental take resulting from voluntary activities to restore, maintain, enhance, or create habitat for the covered species. The Service also announces the availability of a draft environmental assessment (EA) that has been prepared to evaluate the permit application in accordance with the requirements of the National Environmental Policy Act. We are making the permit application packages, including the draft CCA, draft CCAAs, and draft EA, available for public review and comment.

DATES: We will accept comments received or postmarked on or before August 7, 2017. Any comments we receive after the closing date or not postmarked by the closing date may not be considered in the final decision on this action.
