

Order, Amendment of Parts 2, 15, 80, 90, 97, and 101 of the Commission's Rules Regarding Implementation of the Final Acts of the World Radiocommunication Conference (Geneva, 2012) (WRC-12), Other Allocation Issues, and Related Rule Updates, ET Docket No. 15-99, FCC 17-33, which inter alia, amends the Commission's rules for the Amateur Radio Service to provide for frequency sharing requirements in the 135.7-137.8 kHz (2200 meter) and 472-479 kHz (630 meter) bands. These rules will ensure the compatibility of amateur radio operations and Power Line Carrier (PLC) systems that operate in these bands, and will promote the shared use of these bands. As background, in the larger 9-490 kHz band, electric utilities operate PLC systems on power transmission lines for communications important to the reliability and security of electric service to the public. The Commission found that the identification of transmission lines are not always readily identifiable and that amateur operators may not be able to determine whether PLC systems operate in the relevant bands on the subject transmission lines. For these reasons, the Commission adopted a notification process to ensure that amateur stations seeking to operate in these bands are located outside of a minimum separation distance.

Specifically, the information collection requirements contained in Section 97.303(g)(2) requires prior to commencement of operations in these bands, amateur operators must notify the Utilities Telecom Council (UTC) of their intent by submitting their call signs, intended band or bands of operation, and the coordinates of their antenna's fixed location.

Amateur stations will be permitted to commence operations after a 30-day period unless UTC notifies the applicant that its requested location is located within one kilometer of PLC systems operating in the same or overlapping frequencies.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0161 and 3060-0685]

Information Collections Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before September 11, 2017. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email: PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the PRA, 44 U.S.C. 3501-3520, the FCC

invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

Title: Section 73.61, AM Directional Antenna Field Strength Measurements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities.

Number of Respondents and Responses: 2,268 respondents and 2,268 responses.

Estimated Time per Response: 4-50 hours.

Frequency of Response:

Recordkeeping requirement.

Total Annual Burden: 36,020 hours.

Total Annual Cost: None.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Sections 154(i) and 303 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR 73.61 requires that each AM station using directional antennas to make field strength measurement as often as necessary to ensure proper directional antenna system operation. Stations not having approved sampling systems make field strength measurements every three months. Stations with approved sampling systems must take field strength measurements as often as necessary. Also, all AM stations using directional signals must take partial proofs of performance as often as necessary. The FCC staff used the data in field inspections/investigations. AM licensees with directional antennas use the data to ensure that adequate interference protection is maintained

between stations and to ensure proper operation of antennas.

Title: Updating Maximum Permitted Rates for Regulated Services and Equipment, FCC Form 1210; Annual Updating of Maximum Permitted Rates for Regulated Cable Services, FCC Form 1240.

Form Number: FCC Form 1210 and FCC Form 1240.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; State, Local or Tribal Government.

Number of Respondents and Responses: 3,400 respondents; 5,350 responses.

Estimated Time per Response: 1 hour to 15 hours.

Frequency of Response: Annual reporting requirement; Quarterly reporting requirement; Third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 4(i) and 623 of Communications Act of 1934, as amended.

Total Annual Burden: 44,800 hours.

Total Annual Cost: \$3,196,875.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: Cable operators use FCC Form 1210 to file for adjustments in maximum permitted rates for regulated services to reflect external costs. Regulated cable operators submit this form to local franchising authorities.

FCC Form 1240 is filed by cable operators seeking to adjust maximum permitted rates for regulated cable services to reflect changes in external costs.

Cable operators submit Form 1240 to their respective local franchising authorities (“LFAs”) to justify rates for the basic service tier and related equipment or with the Commission (in situations where the Commission has assumed jurisdiction).
