

have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 247.26 percent; and (5) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213.

Dated: July 12, 2017.

Gary Taverman

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Emulsion Styrene-Butadiene Rubber From Poland: Final Affirmative Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) determines that

emulsion styrene-butadiene rubber (ESB rubber) from Poland is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is July 1, 2015, through June 30, 2016.

DATES: July 19, 2017.

FOR FURTHER INFORMATION CONTACT: Stephen Bailey, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-0193.

SUPPLEMENTARY INFORMATION:

Background

On February 24, 2017, the Department published the *Preliminary Determination* of this antidumping LTFV investigation, as provided by Section 735 of the Tariff Act of 1930, as amended (Act), in which the Department found that ESB rubber from Poland was sold at LTFV.¹ A summary of the events that occurred since the Department published the *Preliminary Determination*, as well as a full discussion of the issues raised by interested parties for this final determination, may be found in the Issues and Decision Memorandum.² The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and it is available to all parties in the Central Records Unit, Room B-8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>.

Scope of the Investigation

The product covered by this investigation is ESB rubber from Poland. For a complete description of the scope of this investigation, see Appendix I.

¹ See *Emulsion Styrene-Butadiene Rubber from Poland: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures*, 82 FR 11531 (February 24, 2017), and accompanying Preliminary Decision Memorandum (collectively, *Preliminary Determination*).

² See Memorandum, "Issues and Decision Memorandum for the Final Affirmative Determination in the Less Than Fair Value Investigation of Emulsion Styrene-Butadiene Rubber from Poland," dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

Scope Comments

No interested party commented on the scope of the investigation as it appeared in the *Initiation Notice*.³ Therefore, the scope of this investigation remains unchanged for this final determination.

Verification

As provided in section 782(i) of the Act, in February, March, and April 2017, the Department conducted verification of the information reported by the mandatory respondent Synthos Dwory (Synthos), for use in the Department's final determination. The Department used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by the respondent.⁴

Analysis of Comments Received

The issues raised in the case brief that was submitted by petitioners⁵ in this investigation are addressed in the Issues and Decision Memorandum. A list of these issues is attached to this notice as Appendix II. Based on our analysis of the comments received and our findings at verification, we made no changes to the margin calculation for Synthos.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that in the final determination the Department shall determine an estimated all-others rate for all exporters and producers not individually examined. This rate shall be an amount equal to the weighted-average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act.

For the final determination, the Department calculated an individual estimated weighted-average dumping margin for Synthos, the only individually examined exporter/producer in this investigation. Because the only individually calculated dumping margin is not zero, *de*

³ See *Emulsion Styrene-Butadiene Rubber from Brazil, the Republic of Korea, Mexico and Poland: Initiation of Less Than Fair Value Investigations*, 81 FR 55438 (August 19, 2016) (*Initiation Notice*).

⁴ For discussion of our verification findings, see the following memoranda: Memorandum, "Verification of the Sales Response of Synthos Dwory in the Antidumping Investigation of Emulsion Styrene Butadiene from Poland," dated April 12, 2017 and Memorandum, "Verification of the Cost Response of Synthos Dwory 7 Spolka z ograniczona odpowiedzialnoscia sp. j. in the Antidumping Duty Investigation of Emulsion Styrene Butadiene Rubber from Poland," dated May 15, 2017.

⁵ Lion Elastomers LLC and East West Copolymers (petitioners).

minimis, or based entirely on facts otherwise available, the estimated weighted-average dumping margin calculated for Synthos is the margin assigned to all-other producers and exporters, pursuant to section 735(c)(5)(A) of the Act.

Final Determination

The final weighted-average dumping margins are as follows:

Exporter/producer	Dumping margin (percent)
Synthos Dwory	25.43
All-Others	25.43

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, the Department will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of ESB rubber from Poland as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after February 24, 2017, the date of publication of the *Preliminary Determination* of this investigation in the **Federal Register**. Further, pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), the Department will instruct CBP to require a cash deposit equal to the estimated weighted-average dumping margin or the estimated all-others rate, as follows: (1) The cash deposit rate for the respondents listed above will be equal to the respondent-specific estimated weighted-average dumping margin determined in this final determination; (2) if the exporter is not a respondent identified above, but the producer is, then the cash deposit rate will be equal to the respondent-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others estimated weighted-average dumping margin.

Disclosure

The Department intends to disclose to interested parties its calculations and analysis performed in this final determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

International Trade Commission Notification

In accordance with section 735(d) of the Act, the Department will notify the International Trade Commission (ITC) of its final determination. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of ESB rubber from Poland no later than 45 days after the Department's final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on appropriate imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of the suspension of liquidation.

Notification Regarding Administrative Protective Orders

This notice serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

This determination and this notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act.

Dated: July 10, 2017.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

For purposes of this investigation, the product covered is cold-polymerized emulsion styrene-butadiene rubber (ESB rubber). The scope of the investigation includes, but is not limited to, ESB rubber in primary forms, bales, granules, crumbs, pellets, powders, plates, sheets, strip, *etc.* ESB rubber consists of non-pigmented rubbers and oil-extended non-pigmented rubbers, both of which contain at least one

percent of organic acids from the emulsion polymerization process.

ESB rubber is produced and sold in accordance with a generally accepted set of product specifications issued by the International Institute of Synthetic Rubber Producers (IISRP). The scope of the investigation covers grades of ESB rubber included in the IISRP 1500 and 1700 series of synthetic rubbers. The 1500 grades are light in color and are often described as "Clear" or "White Rubber." The 1700 grades are oil-extended and thus darker in color, and are often called "Brown Rubber."

Specifically excluded from the scope of this investigation are products which are manufactured by blending ESB rubber with other polymers, high styrene resin master batch, carbon black master batch (*i.e.*, IISRP 1600 series and 1800 series) and latex (an intermediate product).

The products subject to this investigation are currently classifiable under subheadings 4002.19.0015 and 4002.19.0019 of the Harmonized Tariff Schedule of the United States (HTSUS). ESB rubber is described by Chemical Abstract Services (CAS) Registry No. 9003-55-8. This CAS number also refers to other types of styrene butadiene rubber. Although the HTSUS subheadings and CAS registry number are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.
