SUPPLEMENTARY INFORMATION:

I. Background

By letter dated April 28, 2016, as supplemented on July 20, August 19,

August 31, September 27, October 7, November 16, December 16, December 22, 2016, and March 16, 2017, WCS submitted an application for a specific license pursuant to part 72 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater Than Class C Waste." In its letter, WCS requested authorization to store up to 5,000 metric tons of uranium for a period of 40 years in a CISF.

In addition, by letter dated July 21, 2016, WCS requested that the NRC initiate its environmental impact statement (EIS) process for the WCS CISF license application as soon as practicable. By letter dated October 7, 2016, the NRC informed WCS of its decision to start the EIS process in advance of making a decision on docketing the application. On November 14, 2016 (81 FR 79531), the NRC published a notice in the **Federal Register** announcing its intent to prepare an EIS and to open the scoping period for the EIS.

By letter dated January 26, 2017, the NRC informed WCS of its decision to accept the application and proceed with the technical review. Subsequently, on January 30, 2017 (82 FR 8773), the NRC published a notice in the **Federal Register** announcing the acceptance for docketing and opportunity to request a hearing and to petition for leave to intervene of the WCS application.

By letter dated March 16, 2017, WCS submitted Revision 1 to its license application. By letter dated April 18, 2017, WCS requested that the NRC temporarily suspend all safety and environmental review activities as well as public participation activities associated with WCS' license application. On April 19, 2017, WCS and the NRC staff jointly requested that the Commission withdraw the hearing notice, explaining that a new **Federal Register** notice to provide a fresh opportunity for interested persons to request a hearing would be issued if review of the application resumes. On May 10, 2017, the NRC staff granted WCS' request to temporarily suspend all safety and environmental review activities as well as public participation activities associated with its license application. On June 22, 2017, the Commission granted WCS's and the NRC staff's request and further directed that the NRC staff to publish a **Federal Register** notice withdrawing the opportunity to request a hearing on this license application and directed the NRC staff to publish a new notice of opportunity to request a hearing in the **Federal Register** if WCS requests that the NRC staff resume its review of WCS's application.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-81146; File No. SR-NYSEMKT-2017-44]

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Rule 7.38E To Specify the Ranking of an Odd Lot Order That Has a Display Price That Is Better Than Its Working Price

July 14, 2017.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that on June 30, 2017, NYSE MKT LLC (the “Exchange” or “NYSE MKT”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7.38E (Odd and Mixed Lots) to specify the ranking of an odd lot order that has a display price that is better than its working price. The proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at

the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 7.38E (Odd and Mixed Lots) to specify the ranking of an odd lot order that has a display price that is better than its working price.

Rule 7.38E provides that the working price of an odd lot order will be adjusted both on arrival and when resting on the Exchange Book based on the limit price of the order as follows:

- If the limit price of an odd lot order is equal to or worse than the contra-side PBBO, it will have a working price equal to the limit price.
- If the limit price of an odd lot order is better than the contra-side PBBO, it will have a working price equal to the contra-side PBBO.
- If the PBBO is crossed, the odd lot order will have a working price equal to the same-side PBB or PBO.

By moving the working price, an odd lot order to buy (sell) will not trade at a price above (below) the PBO (PBB), or if the PBBO is crossed, above (below) the PBB (PBO). In either case, if the odd lot order is ranked Priority 2—Display Orders,⁴ its display price would not change when its working price is adjusted.

Exchange rules are currently silent regarding how a resting odd lot order that has a display price that is better than its working price would be ranked for trading at that working price.⁵ This scenario would only occur if a resting odd lot order is displayed at a price, and then an Away Market PBBO crosses that display price. In that limited scenario, pursuant to Rule 7.38E(b)(1) described above, the working price of the odd-lot order would be adjusted to a price inferior to the display price, but it would remain displayed at the now crossed price.

The Exchange proposes to specify that in such case, the ranking and priority category applicable to such an order at its display [sic], i.e., the price it is

displayed and Priority 2—Display Orders, would govern its ranking for purposes of a trade at its different, inferior working price.⁶ This ranking would differ from the Exchange's general rule that an order is ranked based on its working price.⁷ However, the Exchange believes that if the display price of an order is better than its working price, such order has already demonstrated a public willingness to trade at a more aggressive price because it continues to be published in a market data feed at the more aggressive display price.⁸ In such case, the order should receive the benefit of the ranking (both price and priority category) associated with its better display price when determining how that order would be traded at its working price. In other words, an odd-lot order with a better display price than its working price would not be ranked based on its working price, including that it would not be assigned Priority 3—Non-Display Orders at its working price.

The Exchange further believes that if an odd-lot order is assigned a new working price that is worse than its display price, such order should not be assigned a new working time. In other words, when trading at its working price, its time ranking would be based on the working time associated with its display price.⁹ Maintaining the original working time of such order would ensure that it maintains its original ranking, even if it trades at a different price.

To effect this change, the Exchange proposes to amend Rule 7.38E(b)(1) to provide that an odd-lot order ranked Priority 2—Display Orders would not be assigned a new working time if its working price is adjusted under Rule 7.38E(b)(1). In addition, if the display price of an odd lot order to buy (sell) is above (below) its working price, it would be ranked based on its display price.¹⁰

⁶ As described in Rule 7.36E(c), an order is ranked based on price, priority category, and time. Such ranking is only applicable once an order is resting on the Exchange Book.

⁷ Rule 7.36E(d) provides that all orders are ranked based on the working price of the order. Rule 7.36E(e)(3) generally provides that non-marketable orders for which the working price is not displayed have third priority behind Market Orders and non-marketable Limit Orders that are displayed at their working price. This proposed rule change would be an exception to these rules.

⁸ See Rule 7.36E(b)(1) (odd-lot sized orders are considered displayed for ranking purposes).

⁹ Rule 7.36E(f)(2) provides that an order is assigned a new working time any time the working price of the order changes. This proposed rule change would be an exception to this general rule.

¹⁰ For example, assume the PBBO is 10.07 × 10.10 and the Exchange receives orders ranked Priority
