The FDIC hereby gives notice of its plan to submit to OMB a request to approve the renewal of these collections, and again invites comment on this renewal.
- Proposal to renew the following currently approved collections of information:*
1. *Title:* Application for Waiver of Prohibition on Acceptance of Brokered Deposits.
OMB Number: 3064–0099.
Form Number: None.
Affected Public: Insured state nonmember banks and state savings associations.
Burden Estimate:

Type of burden	Estimated number of respondents	Estimated time per response (hours)	Frequency of response	Total annual estimated burden (hours)
Reporting	30	6	On Occasion	180

General Description of Collection: Section 29 of the Federal Deposit Insurance Act prohibits undercapitalized insured depository institutions from accepting, renewing, or rolling over any brokered deposits. Adequately capitalized institutions may do so with a waiver from the FDIC, while well-capitalized institutions may accept, renew, or roll over brokered

deposits without restriction. This information collection captures the burden associated with preparing and filing an application for a waiver of the prohibition on the acceptance of brokered deposits.

There is no change in the method or substance of the collection. The overall reduction in burden hours is a result of economic fluctuation. In particular, the

number of respondents has decreased while the hours per response remain the same.

2. *Title:* Management Official Interlocks.
OMB Number: 3064–0118.
Form Number: None.
Affected Public: Insured state nonmember banks and state savings associations.

Burden Estimate:

Type of burden	Estimated number of respondents	Estimated time per response	Frequency of response	Total annual estimated burden (hours)
Reporting	3	7	On Occasion	21

General Description of Collection: The FDIC's Management Official Interlocks regulation, 12 CFR 348, which implements the Depository Institutions Management Interlocks Act (DIMIA), 12 U.S.C. 3201–3208, generally prohibits bank management officials from serving simultaneously with two unaffiliated depository institutions or their holding companies but allows the FDIC to grant exemptions in appropriate circumstances. Consistent with DIMIA, the FDIC's Management Official Interlocks regulation has an application

requirement requiring information specified in the FDIC's procedural regulation. The rule also contains a notification requirement.

There is no change in the method or substance of the collection. The overall reduction in burden hours is a result of economic fluctuation as well as the change in complexity of the reporting institutions. In particular, the number of respondents has decreased while the hours per response have increased due to the complexity of the reporting institutions.

3. *Title:* Interagency Statement on Sound Practices Concerning Complex Structured Finance Transactions.

OMB Number: 3064–0148.

Form Number: Interagency Statement on Sound Practices Concerning Elevated Risk Complex Structured Finance Activities.

Affected Public: Insured state nonmember banks and state savings associations.

Burden Estimate:

Type of burden	Estimated number of respondents	Estimated time per response	Frequency of response	Total annual estimated burden (hours)
Recordkeeping	4	25	On Occasion	100

General Description of Collection: The Interagency Statement on Sound Practices Concerning Complex Structured Finance Transactions describes the types of internal controls and risk management procedures that the Agencies believe are particularly effective in assisting financial institutions to identify, evaluate, assess, document, and control the full range of credit, market, operational, legal and

reputational risks. A financial institution that engages in complex structured finance transactions should maintain a set of formal, written, firm-wide policies and procedures that are designed to allow the institution to identify and assess these risks.

There is no change in the method or substance of the collection. The overall reduction in burden hours is a result of economic fluctuation. In particular, the

number of respondents has decreased while the hours per response remain the same.

4. *Title:* Regulatory Capital Rules.

OMB Number: 3064–0153.

Form Number: None.

Affected Public: State nonmember banks, state savings associations, and certain subsidiaries of those entities.

Burden Estimate:

General Description of Collection:
This collection comprises the disclosure and recordkeeping requirements associated with minimum capital requirements and overall capital adequacy standards for insured state nonmember banks, state savings associations, and certain subsidiaries of

those entities. The data is used by the FDIC to evaluate capital before approving various applications by insured depository institutions, to evaluate capital as an essential component in determining safety and soundness, and to determine whether an

institution is subject to prompt corrective action provisions.

There is no change in the method or substance of the collection. The overall reduction in burden hours is a result of economic fluctuation. In particular, the number of respondents has decreased while the hours per response remain the

same. The overall reduction in burden hours also reflects a decrease in the number of entities that will incur any one-time implementation burden, as a majority of the entities have already fully implemented the one-time requirements associated with the rule.
