**SUPPLEMENTARY INFORMATION:** This ICR seeks to extend PRA authority for the Overhead and Gantry Cranes Standard information collection codified in regulations 29 CFR 1910.179. More specifically, the regulatory provisions include requirements for (1) marking the rated load of a crane; (2) preparing a certification record to verify the inspection of a crane hook, hoist chain, or rope; and (3) preparing a report of the rated load test for a repaired hook or modified crane. OSH Act sections 6 and 8 authorize this information collection. See 29 U.S.C. 655, 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0224.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on July 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 25, 2017 (82 FR 19090).
