**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Department of Labor, as part of its  
continuing effort to reduce paperwork  
and respondent (*i.e.*, employer) burden,  
conducts a preclearance consultation  
program to provide the public with an  
opportunity to comment on proposed  
and continuing information collection  
requirements in accord with the  
Paperwork Reduction Act of 1995 (44  
U.S.C. 3506(c)(2)(A)). This program  
ensures that information is in the  
desired format, reporting burden (time  
and costs) is minimal, collection  
instruments are clearly understood, and  
OSHA's estimate of the information  
collection burden is accurate. The  
Occupational Safety and Health Act of  
1970 (the OSH Act) (29 U.S.C. 651 *et*

*seq.*) authorizes information collection  
by employers as necessary or  
appropriate for enforcement of the OSH  
Act or for developing information  
regarding the causes and prevention of  
occupational injuries, illnesses, and  
accidents (29 U.S.C. 657). The OSH Act  
also requires that OSHA obtain such  
information with minimum burden  
upon employers, especially those  
operating small businesses, and to  
reduce to the maximum extent feasible  
unnecessary duplication of effort in  
obtaining information (29 U.S.C. 657).

The Grain Handling Facilities  
Standard specifies a number of  
paperwork requirements. The following  
sections describe who uses the  
information collected under each  
requirement as well as how they use it.  
The purpose of the requirements is to  
reduce employees' risk of death or  
serious injury while working in grain  
handling facilities.

Paragraph (d) of the Standard requires  
the employer to develop and implement  
an emergency action plan so that  
employees will be aware of the  
appropriate actions to take in the event  
of an emergency.

Paragraph (e)(1) requires that  
employers provide training to  
employees at least annually and when  
changes in job assignment will expose  
them to new hazards. Paragraph (f)(1)  
requires the employer to issue a permit  
for all hot work. Under paragraph (f)(2)  
the permit shall certify that the  
requirements contained in 1910.272(a)  
have been implemented prior to  
beginning the hot work operations and  
shall be kept on file until completion of  
the hot work operation.

Paragraph (g)(1)(i) requires the  
employer to issue a permit for entering  
bins, silos, or tanks unless the employer  
or the employer's representative is  
present during the entire operation. The  
permit shall certify that the precautions  
contained in paragraph (g) have been  
implemented prior to employees  
entering bins, silos or tanks and shall be  
kept on file until completion of the  
entry operations.

Paragraph (g)(1)(ii) requires that the  
employer de-energize, disconnect,  
lockout and tag, block off or otherwise  
prevent operation of all mechanical,  
electrical, hydraulic, and pneumatic  
equipment which presents a danger to  
employees inside grain storage  
structures.

Paragraphs (i)(1) and (i)(2) require the  
employer to inform contractors  
performing work at the grain handling  
facility of known potential fire and  
explosion hazards related to the  
contractor's work and work area, and to
