

intended to be used as one indicator in targeting and designing outreach activities and in assessing compliance with civil rights laws in program delivery. The data may also be used as an indicator in directing compliance reviews to geographic areas where there are indications of low participation in USDA programs by minorities and women, thus serving as an “early warning system” that warrants further investigations. Failure to collect this information will have a negative impact on USDA’s outreach activities and could result in an inability of the agencies to equitably deliver programs and services to applicant and producers.

*Description of Respondents:* Individuals or households.

*Number of Respondents:* 3,200,000.

**SUPPLEMENTARY INFORMATION:**

*Title:* Summer Meals Study.

*Form Number:* Not applicable.

*OMB Number:* 0584-NEW.

*Expiration Date:* Not Yet Determined.

*Type of Request:* New collection.

*Abstract:* The Federally-funded

Summer Food Service Program (SFSP) and the National School Lunch Program’s Seamless Summer Option (SSO) provide healthy meals and snacks to children through 18 years of age, in low-income areas during summer months when school is not in session. Open summer sites provide free meals to children in geographical areas where at least 50 percent of children are eligible for free or reduced price school meals (*i.e.*, at or below 185 percent of the Federal poverty level). Closed enrolled summer sites provide free meals to children enrolled in an activity program where at least half of the children are individually determined eligible for free or reduced price meals. Open and enrolled sites, as well as sites that predominantly serve children of migrant workers, receive reimbursement from the United States Department of Agriculture (USDA) for the meals they serve to all children in attendance. The reimbursement rates vary depending on the type of meal served (*i.e.*, breakfast, lunch, supper, or snack) and whether the site is operating SFSP or SSO. The SFSP and SSO sites operate at State, Local or Tribal locations such as public and private nonprofit schools, local government agencies, business organizations such as youth sports programs, churches, and food pantries. In July 2016, 5,525 sponsors managed

48,618 sites and served 3.85 million summer meals to participating children.<sup>1</sup> However, summer meals reach only a small percent of the children receiving free or reduced price meals during the school year. This study will help identify strategies to increase participation in summer meals as well as assess the nutritional quality of the meals served to children. Legislation requires those programs participating in the SFSP or SSO to cooperate with program research and evaluation (Section 305 of the Healthy Hunger Free Kids Act).

The six study objectives are: (1) Identify reasons children and their caregivers participate in summer meals and their satisfaction levels with the program; (2) Assess how characteristics differ between participants and eligible nonparticipants of SFSP and SSO; (3) Determine the reasons eligible families do not participate in SFSP and SSO; (4) Determine the food service characteristics of SFSP and SSO sites; (5) Describe the characteristics and content of SFSP and SSO meals and snacks; and (6) Assess facilitators and barriers to preparing and serving SFSP and SSO meals and snacks.

A nationally representative study with a mixed-methods research design will be used to address the six study objectives. States will be selected for the study using FNS administrative data on SFSP and SSO program size. In the selected States, State agencies administering SFSP and SSO will provide lists of participating sites and sponsors from which the sample of sites will be drawn. State agencies administering the Supplemental Nutrition Assistance Program (SNAP) in these States will provide SNAP caseload data. These data will be used in conjunction with postal data to identify children in the catchment areas of sampled sites. Quantitative and qualitative data will be collected from SFSP and SSO sponsors and sites, former sponsors, and participants and eligible nonparticipants.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden on the proposed collection of information,

<sup>1</sup> The USDA FNS National Data Bank provides a single official repository to support the analysis and public release of FNS program information through the Food Programs Reporting System (FPRS) OMB Control No. 0584-0594 Expiration 6/2019, data from various FNS programs are extracted and imported into the NDB database. This number includes meals served through both SFSP and SSO.

including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

*Affected Public:* Respondent groups identified include: (1) Individuals/Households (preschool- and school-aged children and teens eligible for participation in summer meals and their caregivers); (2) State/Local Government (SFSP and SSO State agencies, SNAP State agencies, and SFSP and SSO sponsors, former sponsors, and sites); and (3) Businesses-for-not-for-Profit (SFSP sponsors, former sponsors, and sites).

*Estimated Number of Respondents:* 88,222.48. Out of the 88,222 sample size initially contacted, FNS anticipates approximately 44,340.59 will respond and 43,881 will not respond during the initial contact. FNS will continue to re-contact non-respondents to reach the desired participation rates. This includes: 85,575 individuals and

households, 59 State, Local or Tribal agencies; 1,108 sponsors (665 in the State/Local Government category and 443 in the Business category); and 1,480 site supervisors (888 in the State/Local Government category and 592 in the Business category).

*Estimated Number of Responses per Respondent:* 3.67. SFSP and SSO State agencies will be asked to provide lists of participating sites/sponsors twice: Once to draw the initial sample (based on sites and sponsors participating in the Summer of 2017), and then again to finalize the sample to include sites and sponsors participating in the Summer of 2018. SNAP State agencies will be asked to provide caseload data once. Caregivers and their children will be asked to respond to one survey, and a subset of caregivers will be invited to participate in a follow-up key informant interview. Sponsors and site supervisors will respond to one survey, and a subset will be invited to participate in a follow-up telephone interview. Those sponsors and site supervisors responsible for menu planning for the sampled site will also be asked to respond to a menu planning survey, and to provide details on the meals from one week of menus. Some of these sponsors and sites will

receive a follow-up menu report to fill in details missing from their original submission of menu information. Former sponsors will be asked to respond to one telephone interview.

*Estimated Total Annual Responses:* 323,788. There are approximately 169,470.33 total annual responses from participants and approximately 154,307.74 non-responses for those we contacted. Some non-participants were re-contacted more than once.

*Estimated Average Time per Response:* 0.6875. The estimated time of response varies from 1 minute to 60 minutes depending on the respondent group, as shown in the table below; the average estimated response is 0.13 hours.

*Estimated Total Annual Burden on Respondents:* 22,262. The total public reporting burden for this collection of information is estimated at 22,261.68 rounded up to 22,262 burden hours and 323,778 total annual responses. Out of the 22,262 burden hours 18,924 are for respondents and 3337.67 burden hours are for non-respondents. See the table below for estimated total annual burden for each type of respondent.

*Title:* SNAP-Ed Connection Recipe Submission and Review Forms.

*OMB Number:* 0584-0624.

*Form Number:* N/A.

*Expiration Date:* 10.31.17.

*Type of Request:* Revision of a currently approved information collect request.

*Abstract:* We are requesting an update in the name of this form. The name change from Food Stamp to SNAP was based on the Farm Bill, The Food, Conservation, and Energy Act of 2008 (Pub. L. 110-234, H.R. 2419, 122 Stat. 923, Section 4001 enacted May 22, 2008, also known as the 2008 U.S. Farm Bill).

*The What's Cooking? USDA Mixing Bowl* (formerly the Food Stamp Nutrition Connection Recipe Finder, and then SNAP-Ed Connection Recipe Finder) <https://whatscooking.fns.usda.gov> is an on-line recipe database. This database is a central location for recipe users to submit and search for healthy recipes that support the Dietary Guidelines for Americans 2015 (DGA). The recipe

database is now a combination of recipes from other USDA Food and Nutrition Service (FNS) programs such as the Food Distribution Programs (FDP) (Food Distribution on Indian Reservations, Commodity Supplemental Food Program, and The Emergency Food Assistance Program), Child Nutrition Programs (CNP), and the Center for Nutrition Policy and Promotion (CNPP). The recipes benefit (individuals/households) consumers, State Agency staff, SNAP-Ed instructors, school nutrition experts, and (business-for-not-for-profit) the private sector.

*The Recipe Finder Submission Form* allows SNAP-Ed instructors, individuals/household consumers from the general public, USDA Foods program operators, other Federal entities and State Agency nutrition programs, school nutrition experts, and (business-for-not-for-profit) the private sector to submit recipes on-line, making the submission process efficient. The criteria for recipe inclusion vary by program area. Staff from SNAP-Ed Connection, CNPP, FDP, and CNP reviews the data collected from the voluntary Recipe Finder Submission Form. Only Staff will review the form to determine whether a recipe is eligible for inclusion in the database.

Data collected (such as names, addresses, emails and affiliations) from *The Recipe Review Form* allows recipe users to provide feedback about the recipe that may help future users & allows the Federal entity to reach out to request any changes in the recipe to meet the DGA. Any Web site user is able to leave comments. Estimated burden for each form and affected public is defined in the table below.

#### Form 1: The Recipe Finder Submission Form

*Affected Public:* State Agencies (15); Business-for-not-for-profit (5) and Individuals or Households (5).

*Estimated Total Number of Respondents:* 25 (There are 15 State Agencies—who SNAP-Ed instructors, school nutrition experts, state agency nutrition programs), 5 business from the private sector, 5 individuals and household consumers from the general public, the USDA Foods program operators, and Federal. We are not counting burden for the Federal Government entities since these agencies specializes in food nutrition which falls within the scope of their mission.

*Estimated Frequency of Responses:* 1.

*Estimated Total Number of Annual Responses:* 25.

*Estimated Burden per Response:* 0.1837 (The Recipe Submission Form
