

control Salmonella in their operations. SIP does this by granting waivers of certain regulatory requirements with the condition that establishments test for Salmonella, Campylobacter (if applicable), and generic Escherichia coli or other indicator organisms and share all sample results with FSIS. SIP benefits public health because it encourages establishments to test for microbial pathogens, which is a key feature of effective process control.

In return for meeting the conditions of SIP, the Agency grants establishments appropriate waivers of certain regulatory requirements, based upon establishment proposals and documentation, under FSIS regulations at 9 CFR 303.1(h) and 381.3(b). These regulations specifically provide for the Administrator to waive for limited periods any provisions of the regulations to permit experimentation so that new procedures, equipment, or processing techniques may be tested to facilitate definite improvements. Establishments participating in SIP agree to the conditions of SIP regarding pathogen testing and sharing of test result data with FSIS.

FSIS is requesting a revision of the approved information collection related to SIP. The approval for this information collection will expire on January 31, 2018. Based on a decrease in the number of SIP approvals that occurred as a result of the implementation of the New Poultry Inspection System, FSIS has decreased its total annual burden estimate by 45,511 hours.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of .69 hours per response.

Respondents: Official slaughter establishments that are under a waiver.

Estimated Number of Respondents: 37.

Estimated Number of Annual Responses per Respondent: 325.

Estimated Total Annual Burden on Respondents: 8,265 hours.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence SW., 6065, South Building, Washington, DC 20250; (202)720-5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance

of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS Web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

USDA Non-Discrimination Statement

DEPARTMENT OF AGRICULTURE

Food Safety and Inspection Service

[Docket No. FSIS-2017-0030]

Notice of Request for Revision of an Approved Information Collection (Public Health Information System)

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, the Food Safety and Inspection Service (FSIS) is announcing its intention to request a renewal of the approved information collection regarding its Web-based Public Health Information System (PHIS). There are no changes to the existing information collection except a revision to remove the FSIS Form 9080-4, Product List, because FSIS no longer uses it. This will result in a reduction in burden of 41,667 hours. The approval for this information collection will expire on January 31, 2018.

DATES: Submit comments on or before October 30, 2017.

ADDRESSES: FSIS invites interested persons to submit comments on this information collection. Comments may be submitted by one of the following methods:

- *Federal eRulemaking Portal:* This Web site provides the ability to type short comments directly into the comment field on this Web page or attach a file for lengthier comments. Go to <http://www.regulations.gov>. Follow the on-line instructions at that site for submitting comments.

- *Mail, including CD-ROMs, etc.:* Send to Docket Clerk, U.S. Department of Agriculture, Food Safety and Inspection Service, Docket Clerk, Patriots Plaza 3, 1400 Independence Avenue SW., Mailstop 3782, Room 8–163A, Washington, DC 20250–3700.

- *Hand- or courier-delivered submittals:* Deliver to Patriots Plaza 3, 355 E Street SW., Room 8–163A, Washington, DC 20250–3700.

Instructions: All items submitted by mail or electronic mail must include the Agency name and docket number FSIS–2017–0030. Comments received in response to this docket will be made available for public inspection and posted without change, including any personal information, to <http://www.regulations.gov>.

Docket: For access to background documents or comments received, go to the FSIS Docket Room at Patriots Plaza 3, 355 E Street SW., Room 8–164, Washington, DC 20250–3700 between 8:00 a.m. and 4:30 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW., Room 6065, South Building, Washington, DC 20250; (202) 720–5627.

SUPPLEMENTARY INFORMATION:

Title: Public Health Information System (PHIS).

OMB Number: 0583–0153.

Expiration Date of Approval: 01/31/2018.

Type of Request: Revision of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). FSIS protects the public by verifying that meat, poultry, and egg products are safe, wholesome,

not adulterated, and correctly labeled and packaged.

FSIS is requesting a revision of the approved information collection regarding the Public Health Information System (PHIS). There are no changes to the existing information collection except a revision to remove the FSIS Form 9080–4, Product List, because FSIS no longer uses it. This will result in a reduction in burden of 41,667 hours. The approval for this information collection will expire on January 31, 2018.

FSIS uses a PHIS, a Web-based system that improves FSIS inspection operations and facilitates industry members' applications for inspection, export, and import of meat, poultry, and egg products. With PHIS, industry members are able to submit forms through a series of screens. Paper forms are also available to firms that do not wish to use PHIS.

To submit information through PHIS, firms' employees register for a USDA eAuthentication account with Level-2 access. An eAuthentication account enables individuals inside and outside of USDA to obtain user-identification accounts to access a wide range of USDA applications through the Internet. The Level-2 access provides users the ability to conduct official electronic business transactions. To register for a Level-2 eAuthentication account, the user needs to have access to the Internet and a valid email address. To learn more about eAuthentication and how to register for an account, visit <http://www.eauth.egov.usda.gov/>.

Consistent with its current procedures, FSIS continues to collect information within PHIS from firms regarding the application for inspection and the export and import of meat, poultry, and egg products. Firms may complete new forms (screen sets) in PHIS when exporting meat, poultry, and egg products (9 CFR 322.2, 381.107, and 590.200). FSIS is requesting the continued use of the following forms and collection of information for them through screen sets within PHIS.

A Transfer Certificate is submitted by exporters to FSIS when product is transferred from one establishment or plant to another facility before export.

A "Split/Consolidations" Certificate is submitted by exporters to indicate that an export shipment approved by FSIS for export is being split and sent to two separate destinations or that two or more FSIS-approved export shipments to the same country are being combined.

FSIS Form 9080–3, Establishment Application for Export, is completed by exporters to specify countries where

they wish to export product (9 CFR 322.2 and 381.105). FSIS uses this information to track the export of product.

FSIS Form 9060–6, The Application for Export Certificate, provides FSIS with data necessary to facilitate the export of product (9 CFR 322.2 and 381.105).

FSIS Form 9010–1, Application for the Return of Exported Products to the United States, is used by the exporter of product that is exported and then returned to this country, to notify FSIS and to arrange for the product's entry (9 CFR 327.17, 381.209, and 590.965).

The following three forms are available in PHIS but not as a series of screens. FSIS is requesting the continued use of these forms.

FSIS Form 5200–2, Application for Federal Inspection, is submitted by all official establishments in order to receive a grant of inspection (9 CFR 304.1 and 381.17).

FSIS Form 5200–6, Application for Approval of Voluntary Inspection, is submitted by all establishments that want voluntary inspection, (9 CFR 350.5, 351.4, 352.3, and 362.3).

FSIS Form 5200–15, Hours of Operation, is submitted when an establishment wants to notify the Agency of a change in its hours of operation (9 CFR 307.4, 381.37, 590.124, and 592.96).

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take the average number of respondents an average of 1 hour per year.

Respondents: Official establishments, official plants, importers, and exporters.

Estimated Average Number of Respondents: 1,147.

Estimated Average Number of Annual Responses per Respondent: 88.

Estimated Total Annual Burden on Respondents: 103,814 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence SW., 6065, South Building, Washington, DC 20250; (202)720–5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance

the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology.

Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Title: Accounting Requirements for Electric and Telecommunications Borrowers.

OMB Control Number: 0572-0003.

Type of Request: Extension of a currently approved information collection.

Abstract: The Rural Utilities Service is a credit agency of the USDA which makes direct and guaranteed loans to finance electric and telecommunications facilities in rural areas. Accounting requirements that are unique to RUS borrowers are contained in 7 CFR parts 1767 and 1770, and establish basic accounting requirements for the recording of financial information that must be available to the management, investors, and lenders of any business enterprise. This collection is primarily a recordkeeping requirement, although the Agency is requiring borrowers to establish an index of records. The hours of burden to maintain this index are directly related to the portions of the accounting system that are unique to the Agency. There are many important financial considerations for retention and preservation of accounting records. One of the most important considerations to RUS is that documentation be available so that the borrower's records may be audited for proper disbursements of funds.
