Air Plan Approval; Indiana; Redesignation of the Indiana Portion of the Cincinnati-Hamilton, OH-IN-KY Area to Attainment of the 1997 Annual Standard for Fine Particulate Matter

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is redesignating the Indiana portion of the Cincinnati-Hamilton, OH-IN-KY, nonattainment area (hereafter, “the Cincinnati-Hamilton area”) to attainment for the 1997 fine particulate matter (PM_{2.5}) annual national ambient air quality standard (NAAQS or standard). The Indiana portion of the Cincinnati-Hamilton area includes Lawrenceburg Township within Dearborn County. Because EPA has determined that the Cincinnati-Hamilton area is attaining this annual PM_{2.5} standard, EPA is redesignating the area to attainment and also approving several additional related actions. First, EPA is approving an update to the Indiana State implementation plan (SIP) by updating the state’s approved plan for

maintaining the 1997 annual PM_{2.5} NAAQS through 2027. In addition, EPA previously approved the base year emissions inventory for the Cincinnati-Hamilton area, and is approving Indiana’s updated emissions inventory which includes emissions inventories for volatile organic compounds (VOCs) and ammonia. Indiana’s approved maintenance plan submission also includes a budget for the mobile source contribution of PM_{2.5} and nitrogen oxides (NO_x) to the Cincinnati-Hamilton area for transportation conformity purposes, which EPA is approving. EPA is taking these actions in accordance with the Clean Air Act (CAA) and EPA’s implementation rule regarding the 1997 PM_{2.5} NAAQS.

DATES: This final rule is effective September 1, 2017.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-R05-OAR-2016-0513. All documents in the docket are listed on the www.regulations.gov Web site. SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. Background
- II. What action is EPA taking?
- III. Statutory and Executive Order Reviews

I. Background

On August 19, 2016, Indiana submitted a request to EPA to

redesignate the Cincinnati-Hamilton area to attainment for the 1997 PM_{2.5} annual standard, and to approve updates to the maintenance plan for the area. In an action published on June 22, 2017 (82 FR 28435), EPA proposed to redesignate the area and approve several actions related to the redesignation (82 FR 28435). Additional background and details regarding this final action can be found in the June 22, 2017, proposed rule. The comment period for this proposed rulemaking closed on July 24, 2017. No comments were received for this proposed rule.

II. What action is EPA taking?

EPA is taking several actions related to redesignation of the Cincinnati-Hamilton area to attainment for the 1997 annual PM_{2.5} NAAQS.

EPA has previously approved Indiana’s PM_{2.5} maintenance plan and motor vehicle emissions budgets for the Cincinnati-Hamilton area. EPA has determined that this plan and budgets are still applicable.

EPA has previously approved the 2005 primary PM_{2.5}, NO_x, and sulfur dioxide (SO₂) base year emissions inventory. EPA is approving Indiana’s updated emissions inventory which includes emissions inventories for VOCs and ammonia from 2007. EPA has determined that Indiana meets the emissions inventory requirement under section 107(d)(3)(E)(iii).

In *The Fine Particulate Matter National Ambient Air Quality Standards: State Implementation Plan Requirements* final rule (final PM_{2.5} SIP requirements rule), EPA revoked the 1997 primary annual PM_{2.5} NAAQS in areas that had always been attainment for that NAAQS, and in areas that had been designated as nonattainment but that were redesignated to attainment before October 24, 2016, the rule’s effective date. See 81 FR 58010, August 24, 2016. EPA also finalized a provision that revokes the 1997 primary annual PM_{2.5} NAAQS in areas that are redesignated to attainment for that NAAQS after October 24, 2016, effective on the effective date of the redesignation of the area to attainment for that NAAQS. See 40 CFR 50.13(d).

EPA is redesignating the Indiana portion of the Cincinnati-Hamilton area to attainment for the 1997 annual PM_{2.5} NAAQS and approving the CAA section 175A maintenance plan for the 1997 primary annual PM_{2.5} NAAQS for the reasons described elsewhere in the January 4, 2017, proposed action.¹ The

¹ CAA section 175A(a) establishes the requirements that must be fulfilled by
