Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by the Secretary. See 19 CFR 351.302. In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) Case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning U.S. Customs and Border Protection data; and (5) quantity and value questionnaires. Under certain circumstances, the Department may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, the Department will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This modification also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which the Department will grant untimely-filed requests for the extension of time limits. These modifications are effective for all segments initiated on or after October 21, 2013. Please review the final rule, available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: September 8, 2017.

James Maeder,

Senior Director performing the duties of Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Erin Markin or Amy Hapeman, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Inwater Research Group, Inc., proposes to continue long-term monitoring on habitat preference, species abundance, size frequencies, and disease prevalence in sea turtles in the Key West National Wildlife Refuge, Big Bend region, and coastal and offshore waters of Monroe, Citrus, and Dixie Counties, Florida. Annually, up to 2,432 green, 749 hawksbill, 560 Kemp's ridley, and 500 loggerhead sea turtles would be pursued by vessel for the purpose of species identification and capture using hand capture or dip nets. Of the animals pursued by vessel,

annually, up to 350 green, 105 hawksbill, 230 Kemp's ridley, and 225 loggerhead sea turtles would be captured for collection of morphometric data, biological samples, and tagging (flipper and passive integrated transponder). Of the animals pursued by vessel, up to 50 green, 25 hawksbill, 25 Kemp's ridley, and 50 loggerhead sea turtles would be captured for morphometric data, biological samples and instrument attachment (acoustic and/or satellite transmitters), annually. In addition, up to 50 green, 25 hawksbill, 50 Kemp's ridley, and 25 loggerhead neonate sea turtles would be captured, annually, for collection of morphometric data, biological samples, and tagging (flipper and passive integrated transponder). The permit would be valid for up to ten years from the date of issuance.

Dated: September 8, 2017.
