

candidates were identified as potentially cost-beneficial based on this additional analysis. Therefore, there are no changes to the conclusions of the NRC staff's STP SAMA analysis provided at Appendix F of the STP FSEIS.

Annual Updates to the STP License Renewal Application

As required by 10 CFR 54.21(b), each year following submittal of a license renewal application, an amendment to the application must be submitted by the license renewal applicant that identifies any change to the current licensing basis that materially affects the contents of the application, including the Updated Final Safety Analysis Report (UFSAR) supplement. The NRC staff's review of STPNOC's submittals for 2014, 2015, and 2016, (ADAMS Accession Nos. ML14308A073, ML15313A175, and ML16190A135) found no new and significant information within the context of 10 CFR 51.92(a)(2) that would change STPNOC's environmental report or that would otherwise change the NRC staff's environmental impact determinations as presented in the STP FSEIS.

In addition, on April 25, 2017, STPNOC submitted an update to the environmental report portion of its license renewal application comprising a revised summary of environmental authorizations for current STP operations (ADAMS Accession No. ML17116A324). Based on its review, the NRC staff finds that STPNOC continues to maintain valid permits and related environmental authorizations governing its operations and that the submittal does not constitute new and significant information regarding STP's affected environment or operations.

MITIGATION MEASURES

The NRC has taken all practicable measures within its jurisdiction to avoid or minimize environmental harm from the proposed action (license renewal). The FSEIS concludes that the continued operation of STP would have SMALL environmental impacts in all resources areas, except for electric shock, which is SMALL to MODERATE. Pursuant to 10 CFR 51.45(c), STPNOC has separately considered mitigation measures to reduce or avoid adverse impacts of electric shock from its transmission lines at STP with a combination of options, as described in Section 4.8.4 of the STP FSEIS.

The NRC is not imposing any license conditions in connection with mitigation measures for the continued operation of STP. However, STP is subject to requirements imposed by

other Federal, State, and local agencies. For example, the TCEQ-issued Texas Pollutant Discharge Elimination System (TPDES) permits issued to STPNOC imposes effluent limitations and monitoring requirements as well as best management practices to ensure that impacts to water quality and aquatic life are minimized. The NRC is not requiring any new environmental monitoring programs outside what is required for the TPDES permits or otherwise required of the licensee under NRC's regulations, as described in the STP FSEIS.

DETERMINATION:

Based on the NRC staff's independent review, analysis, and evaluation contained in the license renewal FSEIS; careful consideration of all of the identified social, economic, and environmental factors, and input received from other agencies, organizations, and the public; and consideration of mitigation measure outlined above, the NRC has determined that the requirements of Section 102 of NEPA and 10 CFR 54.29(b) have been satisfied.

Dated at Rockville, Maryland, this 19th day of September, 2017,

For the Nuclear Regulatory Commission.

Joseph E. Donoghue, Deputy Director,
Division of License Renewal.

Office of Nuclear Reactor Regulation.

BILLING CODE 7710–12–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–81654; File No. SR–BatsBYX–2017–21]

Self-Regulatory Organizations; Bats BYX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Related to Fees for Use on Bats BYX Exchange, Inc.

September 19, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on September 11, 2017, Bats BYX Exchange, Inc. (the “Exchange” or “BYX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act³ and Rule 19b–4(f)(2) thereunder,⁴ which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend the fee schedule applicable to Members⁵ and non-Members of the Exchange pursuant to BYX Rules 15.1(a) and (c).

The text of the proposed rule change is available at the Exchange’s Web site at www.bats.com, at the principal office

of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

As further described below, the Exchange proposes to amend its fee schedule to: (i) Modify its standard rebates to remove liquidity yielding fee codes BB, N and W; (ii) adopt a new tier under footnote 1, Add/Remove Volume Tiers; and (iii) modify the pricing applicable to orders that yield fee codes ZP and ZR, applicable to the Exchange’s Retail Price Improvement (“RPI”) program, including a change to the description of fee code ZR.

Standard Rebates To Remove Liquidity

The Exchange currently provides a standard rebate of \$0.0010 per share for orders that remove liquidity from the Exchange in securities priced at or above \$1.00. The Exchange appends fee codes W, BB and N for orders removing liquidity in Tape A, Tape B, and Tape C securities, respectively. The Exchange proposes to reduce the standard rebate provided for orders yielding these fee codes to a rebate of \$0.0008 per share. In connection with this change, the Exchange proposes to modify the Standard Rates chart contained on the fee schedule to reflect the new standard rebate of \$0.0008 per share to remove liquidity.

New Remove Volume Tier

The Exchange currently offers six tiers under footnote 1 that offer reduced fees for displayed orders that add liquidity

yielding fee codes B,⁶ V⁷ and Y,⁸ and an enhanced rebate for orders that remove liquidity yielding fee codes BB, N and W, as described above. The Exchange proposes to add a new tier under footnote 1, to be known as Tier 7, under which a Member would receive an enhanced rebate of \$0.0016 per share on orders that yield fee codes BB, N and W, where a Member has: (i) A Step-Up Remove TCV (proposed to be defined as described below) from July 2017 equal to or greater than 0.05%; and (ii) a remove ADV⁹ equal to or greater than 0.20% of the TCV.¹⁰

In conjunction with this change, the Exchange proposes to adopt a definition for Step-Up Remove TCV so that this term is defined as “remove ADV as a percentage of TCV in the relevant baseline month subtracted from current remove ADV as a percentage of TCV.” This term is consistent with the existing definition of Step-Up Remove ADAV.

RPI Pricing

The Exchange maintains specific pricing applicable to its RPI program for executions of orders in securities priced at or above \$1.00. Specifically, the Exchange currently applies fee code ZR and provides a \$0.0025 rebate per share for a Retail Order¹¹ that removes liquidity from the Exchange, except for a Retail Order that removes displayed liquidity or Mid-Point Peg liquidity.¹² The Exchange currently applies fee code

⁶ Fee code B is appended to displayed orders that add liquidity to BYX (Tape B) and is assessed a fee of \$0.0018 per share. See the Exchange’s fee schedule available at http://www.bats.com/us/equities/membership/fee_schedule/byx/.

⁷ Fee code V is appended to displayed orders that add liquidity to BYX (Tape A) and is assessed a fee of \$0.0018 per share. *Id.*

⁸ Fee code Y is appended to displayed orders that add liquidity to BYX (Tape C) and is assessed a fee of \$0.0018 per share. *Id.*

⁹ “ADV” means average daily volume calculated as the number of shares added or removed, combined, per day on a monthly basis. See the Exchange’s fee schedule available at http://www.bats.com/us/equities/membership/fee_schedule/byx/. The Exchange notes that in this context, because the tier is based on “remove ADV,” the Exchange will only consider volume that removes liquidity in its calculation.

¹⁰ “TCV” means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply. *Id.*

¹¹ As defined in BYX Rule 11.24(a)(2), a “Retail Order” is an agency order or riskless principal that meets the criteria of FINRA Rule 5320.03 that originates from a natural person and is submitted to the Exchange by a Retail Member organization, provided that no change is made to the terms of the order with respect to price or side of market and the order does not originate from a trading algorithm or any other computerized methodology.

¹² Pursuant to footnote 5, the standard rebate/fee for accessing liquidity applies to any Retail Order that removes displayed liquidity or Mid-Point Peg liquidity.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

³ 15 U.S.C. 78s(b)(3)(A)(ii).

⁴ 17 CFR 240.19b–4(f)(2).

⁵ The term “Member” is defined as “any registered broker or dealer that has been admitted to membership in the Exchange.” See Exchange Rule 1.5(n).
