Vessel Stow Plan (Import): For all vessels transporting goods to the United States, except for any vessel exclusively carrying bulk cargo, the incoming carrier is required to electronically submit a vessel stow plan no later than 48 hours after the vessel departs from the last foreign port that includes information about the vessel and cargo. the status of events if the carrier creates or collects a container status message (CSM) in its equipment tracking system reporting an event. These messages transmit information regarding events such as the status of a container (full or empty); booking a container destined to arrive in the United States; loading or unloading a container from a vessel; and a container arriving or departing the United States. CSMs are provided for by 19 CFR 4.7d.
