

The Children's Bureau proposes to continue collecting the NCANDS data through the two files of the Detailed Case Data Component, the Child File (the case-level component of NCANDS) and the Agency File (additional aggregate data, which cannot be collected at the case level). Technical assistance will be provided so that all states may provide the Child File and Agency File data to NCANDS.

The reauthorization of CAPTA, subsection (b)(2)(B)(xxiv), specifies for "requiring identification and assessment of all reports involving children known or suspected to be victims of sex trafficking (as defined in section 103(10) of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7102 (10)); and S. 178–38." To comply with the new reporting requirements for item 17, NCANDS will use a new field in the Child File.

The Children's Bureau proposes to modify the Child File by modifying the maltreatment fields.

- Add a new maltreatment type code, 7=sex trafficked, to the existing Fields

26, 28, 30, 32 (Maltreatment-1 Type, Maltreatment-2 Type, Maltreatment-3 Type, Maltreatment-4 Type).

The reauthorization of CAPTA, subsection (b)(2)(B)(ii), specifies collecting the number of (A) screened-in and screened-out referrals from healthcare providers involved in the delivery or care of infants and who referred such infants born with and identified as being affected by substance abuse or withdrawal symptoms resulting from prenatal drug exposure, or a Fetal Alcohol Spectrum Disorder; (B) of those screened-in, for whom a plan of safe care was developed, under subsection (b)(2)(B)(iii); and (C) of those screened-in, for whom a referral was made for appropriate services, including services for the affected family or caregiver, under subsection (b)(2)(B)(iii). To comply with the new reporting requirements for item 18, NCANDS will use a combination of existing fields in the Child File and a new field in the Agency File.

The Children's Bureau proposes to modify the Agency File by adding 1 new

field, under Section 2, Referrals and Reports.

- 2.5. Number of screened-out referrals from healthcare providers involved in the delivery or care of infants and who referred such infants born with and identified as being affected by substance abuse or withdrawal symptoms resulting from prenatal drug exposure, or a Fetal Alcohol Spectrum Disorder.

The Children's Bureau proposes to modify the Child File by adding two new fields.

- Field 151, Has A Safe Care Plan: The Safe Care Plan field will establish a flag as to whether a child has a safe care plan.
- Field 152, Referral to CARA-Related Services: The Referral to CARA-related Services field will establish a flag as to whether a referral was made for appropriate services, including services for the affected family or caregiver.

Respondents: State governments, the District of Columbia, and the Commonwealth of Puerto Rico.
