

for clinical laboratory test results in investigational study data provided in regulatory submissions submitted to the Center for Drug Evaluation and Research and to the Center for Biologics Evaluation and Research. FDA has determined, in response to industry comments and internal review, that it is appropriate to extend the date required to submit LOINC codes in new drug applications (NDAs), abbreviated new drug applications (ANDAs), and biologics license applications (BLAs), and for certain investigational new drugs (INDs). LOINC codes will be required in NDAs, ANDAs, and BLAs for studies that start after March 15, 2020 (March 15, 2021, for certain INDs).

You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states "THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION." The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on <https://www.regulations.gov>. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as "confidential." Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 7268, Silver Spring, MD 20993-0002, 240-402-7911, [stephen.ripley@fda.hhs.gov](mailto:stephen.ripley@fda.hhs.gov).

**SUPPLEMENTARY INFORMATION:** On May 14, 2015, FDA announced in the **Federal Register** (80 FR 27690) its adoption of LOINC for lab test results. FDA supports LOINC-coded laboratory test results because: (1) LOINC is widely used among clinical laboratories; (2) LOINC-coded lab data make the information easier to understand and analyze; and (3) the currently supported exchange standard for laboratory test results in clinical trials, the Study Data Tabulation Model (available at <http://www.cdisc.org/sdtm>), already supports the exchange of LOINC codes (available at <https://loinc.org/>). FDA's decision to adopt LOINC for lab test results is part of a larger FDA effort to align the use of data standards for clinical research with ongoing nationwide health information technology initiatives. The FDA Data Standards Catalog was updated to indicate FDA support for LOINC and a requirement date of March 15, 2018, for NDAs, ANDAs, and BLAs, and March 15, 2019, for certain INDs (see <https://www.fda.gov/forindustry/datastandards/studydatastandards/default.htm>). FDA has determined, in response to industry comments and internal review, that it is appropriate to extend the date required to submit LOINC codes. LOINC codes will be required in NDAs, ANDAs, and BLAs for studies that start after March 15, 2020 (March 15, 2021, for certain INDs). Although use of LOINC codes are not required at this time, FDA continues to support and encourages the use of LOINC codes for clinical laboratory test results used in investigational study data.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

We are announcing the availability of a draft guidance for industry entitled “Application of the “Solely Engaged” Exemptions in Parts 117 and 507.” We are issuing the draft guidance consistent with our good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of the FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternate approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

This guidance concerns two regulations that we have established in Title 21 of the Code of Federal Regulations as part of our implementation of the FDA Food Safety Modernization Act (FSMA; Pub. L. 111-353). These two regulations are part 117 (published in the **Federal Register** on September 17, 2015, 80 FR 55908 and part 507 (published in the **Federal Register** on September 17, 2015, 80 FR 56170). This guidance is intended to help establishments and facilities subject to part 117 or part 507 determine whether they are “solely engaged” in certain activities. Establishments and facilities “solely engaged” in certain activities are exempt from some or all requirements in parts 117 or 507.

Parts 117 and 507 contain exemptions specific to establishments and facilities “solely engaged” in certain activities. The relevant exemptions can be categorized as follows: (1) Exemption from human food current good manufacturing practice (CGMP) requirements, (2) exemption from human food preventive controls

requirements, (3) exemption from animal food CGMP requirements, and (4) exemption from animal food preventive controls requirements.

This draft guidance, when finalized, will clarify that if all of the activities performed by an establishment are exempt under one or more CGMP exemptions, then the establishment is not subject to the part 117 and/or part 507 CGMPs, as applicable. If all the activities performed by a facility are exempt under one or more preventive controls exemptions, then the facility is not subject to the part 117 and/or part 507 preventive controls requirements, as applicable. If all the activities performed by a facility are exempt under one or more CGMP exemptions and one or more preventive controls exemptions, then the facility is not subject to the CGMP or preventive controls requirements in part 117 and/or part 507, as applicable.

## II. Electronic Access

Persons with access to the internet may obtain the draft guidance at either <https://www.fda.gov/FoodGuidances> or <https://www.fda.gov/ForIndustry/ColorAdditives/GuidanceComplianceRegulatoryInformation/ucm153033.htm> (whichever is applicable) or <https://www.regulations.gov>.
