POLICY JUSTIFICATION

Kuwait—M1A1 Abrams Tanks

The Government of Kuwait has requested a possible sale of two hundred eighteen (218) M1A1 Abrams tank hulls with 120mm cannons and two hundred eighteen (218) AGT-1500 (M1 Tank Series) engines in support of its M1A2 tank recapitalization. Also included are transportation and other logistics support. The estimated cost is \$29 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. Kuwait plays a large role in U.S. efforts to advance stability in the Middle East, providing basing, access, and transit for U.S. forces in the region.

This potential sale is associated with Congressional Notification 16-66 which was notified to Congress on December

12, 2016, regarding recapitalization of 218 Kuwait M1A2 tanks. Subsequent to the notification, Kuwait requested 218 M1A1 tank hulls from U.S. inventory be provided and upgraded vice using Kuwait's current fleet of tanks due to its interest in maintaining operational readiness. Kuwait will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The M1A1 tank hulls will come from U.S. inventory. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 17-16

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. 120mm Gun. The gun is composed of a 120mm smoothbore gun (cannon) manufactured at Watervliet Arsenal; "long rod" Armor-piercing fin-stabilized discarding-sabot (APFSDS) warheads; and combustible cartridge case ammunition. There may be a need to procure/produce new gun cannon tubes from Watervliet Arsenal. New cannons inducted at Anniston Army Depot would be inspected according to established criteria and shipped to Lima Army Tank Plant for the tank upgrade process. The highest level of information that could be disclosed through the sale of this end-item is UNCLASSIFIED.

2. AGT-1500 Gas Turbine Propulsion System. The use of a gas turbine propulsion system in the M1A2 is a unique application of armored vehicle power pack technology. The hardware is composed of the AGT-1500 engine and transmission and is not classified. Manufacturing processes associated with the production of turbine blades, recuperator, bearings and shafts, and hydrostatic pump and motor are proprietary and therefore commercially competition sensitive. The highest level of information that could be disclosed through the sale of this end-item is UNCLASSIFIED.

3. All defense articles and services listed on this transmittal are authorized

for release and export to the Government of Kuwait.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DOD-2017-OS-0041]

Submission for OMB Review; Comment Request

AGENCY: Washington Headquarters Service (WHS), Facilities Services Directorate (FSD), Enterprise Performance and IT Management Directorate (EPITMD), DoD.

ACTION: 30-Day information collection notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by November 27, 2017.

ADDRESSES: Comments and recommendations on the proposed information collection should be emailed to Ms. Jasmeet Sehra, DoD Desk Officer, at Oira_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer and the Docket ID number and title of the information collection.

FOR FURTHER INFORMATION CONTACT: Fred Licari, 571-372-0493, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title, Associated Form and OMB Number: Fast Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery—the Interactive Customer Evaluation (ICE) System; 0704-0420.

Current Actions: Processing Revision as Generic.

Type of Request: Revision.

Number of Respondents: 152,622.

Average Expected Annual Number of Activities: 16,970.

Below we provide projected average estimates for the next three years:

Average Number of Respondents per Activity: 9.

Responses per Respondent: 1.

Annual Responses: 152,622.

Average Burden per Response: 3 minutes.

Annual Burden Hours: 7,631.

Needs and Uses: The proposed information collection activity provides a means to garner qualitative customer

and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket ID number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Mr. Frederick Licari.

Written requests for copies of the information collection proposal should be sent to Mr. Licari at WHS/ESD Directives Division, 4800 Mark Center Drive, East Tower, Suite 03F09, Alexandria, VA 22350-3100.

Dated: October 24, 2017.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
