

671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

Permit Application: 2018-026

1. *Applicant* Kasey Stewart, 1241 Johnson Ave. #246, San Luis Obispo, CA 93401.

Activity for Which Permit Is Requested

Waste Management. The applicant proposes to operate a small, battery-operated remotely piloted aircraft system (RPAS) consisting, in part, of a quadcopter equipped with a camera to collect footage for commercial purposes. The quadcopter would not be flown over concentrations of birds or mammals, or over Antarctic Specially Protected Areas or Historic Sites and Monuments. The RPAS would only be operated by a pilot with adequate experience. Several measures would be taken to prevent against loss of the quadcopter including painting the them a highly visible color; only flying when the wind is calm; flying for only 15 minutes at a time to maintain adequate battery charge; having a flotation device for operations over water, and an "auto go home" feature in case of loss of control link or low battery; having an observer on the lookout for wildlife, people, and other hazards; and ensuring that the separation between the operator and quadcopter does not exceed a maximum distance of 300 meters.

Location: Antarctic Peninsula region.

Dates: December 15–22, 2017.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–82050; File No. SR–BatsBZX–2017–75]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Modify Its Fees for Physical Ports

November 9, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b–4 thereunder,² notice is hereby given that on November 2, 2017, Cboe BZX Exchange, Inc. ("BZX" or the "Exchange") (formerly known as Bats BZX Exchange, Inc.) filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act³ and Rule 19b–4(f)(2) thereunder,⁴ which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend the fee schedule applicable to Members⁵ and non-Members of the Exchange pursuant to BZX Rules 15.1(a) and (c).

The text of the proposed rule change is available at the Exchange's Web site at www.markets.cboe.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the

proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

A physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange's servers are located. The Exchange currently maintains a presence in two third-party data centers: (i) The primary data center where the Exchange's business is primarily conducted on a daily basis, and (ii) a secondary data center, which is predominantly maintained for business continuity purposes. The Exchange currently assesses the following physical connectivity fees for Members and non-Members on a monthly basis: \$2,000 per physical port that connects to the System⁶ via 1 gigabyte circuit; and \$6,000 per physical port that connects to the System via 10 gigabyte circuit. The Exchange proposes to increase the fee per physical port that connects to the System via a 10 gigabyte circuit from \$6,000 per month to \$7,000 per month in order to cover its increased infrastructure costs associated with establishing physical ports to connect to the Exchange's Systems and enable it to continue to maintain and improve its market technology and services.⁷ The Exchange does not propose to amend the fee for a 1 gigabyte circuit, which will remain \$2,000 per month. The Exchange proposes to implement this amendment to its fee schedule on January 2, 2018.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,⁸ in general, and furthers the objectives of Section 6(b)(4),⁹ in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and

other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange.

The Exchange believes that the proposed rate is equitable and non-discriminatory in that it applies uniformly to all Members. Members and non-Members will continue to choose whether they want more than one physical port and choose the method of connectivity based on their specific needs. All Members that voluntarily select various service options will be charged the same amount for the same services. As is true of all physical connectivity, all Members and non-Members have the option to select any connectivity option, and there is no differentiation with regard to the fees charged for the service.

The Exchange believes that the proposal represents an equitable allocation of reasonable dues, fees, and other charges as its fees for physical connectivity are reasonably constrained by competitive alternatives. If a particular exchange charges excessive fees for connectivity, affected Members and non-Members may opt to terminate their connectivity arrangements with that exchange, and adopt a possible range of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, if the Exchange charges excessive fees, it would stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity.

Furthermore, the proposed rule change is also an equitable allocation of reasonable dues, fees, and other charges as the Exchange believes that the increased fees obtained will enable it to cover its increased infrastructure costs associated with establishing physical ports to connect to the Exchange's Systems. The additional revenue from the increased fee will also enable the Exchange to continue to maintain and improve its market technology and services.

Lastly, the Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members. For instance, the proposed fees for a 10 gigabyte circuit of \$7,000 per month is less than analogous fees charged by the Nasdaq Stock Market LLC ("Nasdaq") and NYSE Arca, Inc. ("Arca"), which range from \$10,000–\$15,000 per month for 10 gigabyte circuits.¹⁰

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. As discussed above, the Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. The Exchange does not believe that the proposed changes represent a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Further, excessive fees for connectivity would serve to impair an exchange's ability to compete for order flow rather than burdening competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹¹ and paragraph (f) of Rule 19b-4 thereunder.¹² At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of

⁶ The term "System" is defined as "the electronic communications and trading facility designated by the Board through which securities orders of Users are consolidated for ranking, execution and, when applicable, routing away." See Exchange Rule 1.5(aa).

⁷ The Exchange also proposes two minor technical amendments to this section of its fee schedule. First is to change the word "Connection" to "Connectivity" in the section's title. The second is to change references to "G" for gigabyte to "Gb".

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its fee schedule to amend Tier 7 under footnote 1, Add/Remove Volume Tiers. The Exchange currently offers eight tiers under footnote 1 that offer reduced fees for displayed orders that yield fee codes B,⁶ V⁷ and Y,⁸ and an enhanced rebate for orders that remove liquidity yielding fee codes BB,⁹ N¹⁰ and W.¹¹ The Exchange proposes to amend Tier 7 under footnote 1, under which a Member currently receives an enhanced rebate of \$0.0015 per share on orders that yield fee codes BB, N or W, where that Member has an ADV¹² equal to or greater than 0.05% of the TCV.¹³ The Exchange proposes to increase the tier's criteria by also requiring that the Member have an ADAV¹⁴ equal to or

⁶ Fee code B is appended to displayed orders that add liquidity to BYX (Tape B) and is assessed a fee of \$0.0018 per share. See the Exchange's fee schedule available at http://www.bats.com/us/equities/membership/fee_schedule/byx/.

⁷ Fee code V is appended to displayed orders that add liquidity to BYX (Tape A) and is assessed a fee of \$0.0018 per share. *Id.*

⁸ Fee code Y is appended to displayed orders that add liquidity to BYX (Tape C) and is assessed a fee of \$0.0018 per share. *Id.*

⁹ Fee code BB is appended to orders that remove liquidity from BYX (Tape B) and is assessed a rebate of \$0.0010 [sic] per share. *Id.*

¹⁰ Fee code N is appended to orders that remove liquidity from BYX (Tape C) and is assessed a rebate of \$0.0010 [sic] per share. *Id.*

¹¹ Fee code W is appended to orders that remove liquidity from BYX (Tape A) and is assessed a rebate of \$0.0010 [sic] per share. See the Exchange's fee schedule available at http://www.bats.com/us/equities/membership/fee_schedule/byx/.

¹² ADV is defined as average daily volume calculated as the number of shares added or removed, combined, per day. *Id.*

¹³ TCV is defined as the total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply. *Id.*

¹⁴ ADAV is defined as the average daily volume calculated as the number of shares added per day.
