

Trade Agreements Act of 1979 (19 U.S.C. 2581) and the President's authority in section 203(a)(3)(F) of the Trade Act of 1974 (19 U.S.C. 2253(a)(3)(F)), she also recommends that the President administer these quantitative restrictions by selling import licenses at public auction at a minimum price of one cent per watt. She recommends that the President, to the extent permitted by law, authorize the use of funds equal to the amount generated by import license auctions to provide development assistance to domestic CSPV product manufacturers for the duration of the remedy period, such as through authorized programs at the United States Department of Energy (DOE). Commissioner Broadbent also recommends that the President implement other appropriate adjustment measures, including the provision of trade adjustment assistance by the United States Department of Labor and the United States Department of Commerce to workers and firms affected by import competition. Having made an affirmative finding with respect to imports from Mexico under section 311(a) of the NAFTA Implementation Act, she recommends that the President allocate no less than 720 megawatts to Mexico during the first year within the global quantitative restriction, which would expand by 115 megawatts each year. Having made a negative finding with respect to imports from Canada under section 311(a) of the NAFTA Implementation Act, Commissioner Broadbent recommends that such imports be excluded from the quantitative restriction. Furthermore, she recommends that this quantitative restriction not apply to imports from Australia, the CAFTA-DR countries, Colombia, Israel, Jordan, Panama, Peru, Singapore, and the CBERA beneficiary countries.

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On November 14, 2017, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Western District of New York in the lawsuit entitled *United States v. Beazer East, Inc. et al.*, Civil Action No. 17-1165.

The United States filed this lawsuit under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The United States’ complaint names Beazer East, Inc., CBS Corporation, Chemung County, the City of Elmira, the Elmira Water Board, Hardinge Inc., Toshiba America Inc., the Town of Horseheads, and the Village of Horseheads, as defendants. The complaint requests recovery of costs and injunctive relief related to responding to releases of hazardous substances at or from the Fourth Operable Unit (“OU4”) of the Kentucky Avenue Wellfield Superfund Site located in the Village of Elmira Heights, the Town of Horseheads, and the Village of Horseheads, New York. Under the proposed Consent Decree, the nine Settling Defendants agree to perform the remedy selected by the Environmental Protection Agency (“EPA”) for OU4 and pay the United States’ future response costs related to OU4. The Statement of Work, included as Appendix B to the Decree, provides the framework for implementation of the cleanup plan as set forth in the Record of Decision (“ROD”) signed by the Regional Administrator for Region 2 of EPA in September 2016. The State of New York concurred with respect to the selected remedy. The selected remedy calls for the construction of a nine-acre cap over the footprint of Koppers Pond, with the cap comprised of a geotextile membrane covered by a six-inch layer of soil and sand. Institutional controls will also be imposed to control activities and use at OU4 to preserve the integrity of the cap. The Remedial Design, Remedial Action, and Operations and Maintenance at OU4 are estimated to cost approximately \$1.9 million and the Settling Defendants will pay any United States Future Response Costs related to OU4. The United States has provided all of the Settling Defendants with a covenant not to sue under Sections 106 and 107(a) of CERCLA, relating to OU4, subject to certain reservations.
