SUPPLEMENTARY INFORMATION: The DHS NPPD CS&C Office of Emergency Communications (OEC), formed under Title XVIII of the Homeland Security Act of 2002, 6 U.S.C. 571 *et seq.*, is required, pursuant to 6 U.S.C. 572, to develop the National Emergency Communications Plan (NECP), which includes identification of goals, timeframes, and appropriate measures to achieve interoperable communications capabilities. The Statewide Communication Interoperability Plan (SCIP) Template and Annual SCIP Snapshot Report are designed to meet and support these statutory requirements.

OEC will use the information from the SCIP Template and Annual SCIP Snapshot to track the progress States are making in implementing milestones and demonstrating goals of the NECP, as required through the Homeland Security Act of 2002, 6 U.S.C. 572. The SCIP Template and Annual SCIP Snapshot will provide OEC with broader capability data across the lanes of the Interoperability Continuum, which are key indicators of consistent success in response-level communications.

In addition, the SCIP Template and the SCIP Snapshot will assist States in their strategic planning for interoperable and emergency communications while demonstrating each State's achievements and challenges in accomplishing optimal interoperability for emergency responders. Moreover, certain government grants may require States to update their SCIP Templates and SCIP Snapshot to include broadband efforts in order to receive funding for interoperable and emergency communications.

Statewide Interoperability Coordinators (SWICs) will be responsible for collecting this information from their respective stakeholders and governance bodies, and will complete and submit the SCIP Snapshots directly to OEC through unclassified electronic submission.

The SCIP Template and Annual SCIP Snapshot may be submitted through unclassified electronic submission to OEC by each State's SWIC in addition to being able to submit their respective SCIP Template and Annual SCIP Snapshot via email to SCIP@hq.dhs.gov.

OEC streamlined its annual SCIP reporting process to obtain standard data to understand progress and challenges in emergency communications planning. OEC replaced the lengthier Annual Progress Report with the SCIP Snapshot as a reporting mechanism for States and territories for submitting SCIP progress, achievements and challenges. The data collected is based on calendar year reporting. The SCIP Snapshot also includes sections for States and territories to report on the status of governance structures, progress towards SCIP goals and initiatives, and overall successes and challenges in advancing interoperable emergency communications.
