

functions of the National Institute of Justice, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. *Type of Information Collection:* New collection.

2. *The Title of the Form/Collection:* National Survey on Correctional Contraband (NSCC).

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* "There is no agency form number for this collection." The applicable component within the Department of Justice is the Office of Justice Programs, National Institute of Justice.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* The current project aims to develop national statistics on correctional contraband and interdiction modalities to fill these significant knowledge gaps in the field. NIJ, in collaboration with the Urban Institute, will collect the data from the department of corrections in all 50 states and a nationally representative sample of jails (n=408).

In correctional facilities, contraband items such as drugs, alcohol, cell phones, tobacco products, and makeshift weapons can be used by inmates to spread violence, engage in criminal activity, create underground economies, and perpetuate existing addictions. Contraband in correctional facilities is therefore a cause of serious concern for the safety and security of inmates and correctional staff. However, little is known about what types of contraband interdiction modalities are exercised across jurisdictions and have proven successful, let alone how much and what type of contraband is found in correctional facilities in the U.S. and how it is brought in.

5. *An estimate of the total number of respondents and the amount of time*

estimated for an average respondent to respond: The estimated range of burden for respondents completing the survey is 60 minutes. The department of corrections in all 50 states, responding for 1,821 prison facilities, and a nationally representative sample of jails (n=408) will be recruited to complete the survey.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 2,221 hours. It is estimated that 1,821 state participants and 408 jail participants will take one hour to complete the survey.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Disaster Unemployment Assistance Activities Report information collection. Robert T. Stafford Disaster Relief and Emergency Assistance Act sections 410 and 423 provide for assistance to eligible individuals who are unemployed due to a major disaster. State Workforce Agencies, through individual agreements with the Secretary of Labor, act as agents of the Federal government in providing Disaster Unemployment Assistance (DUA) to eligible applicants who are unemployed as a direct result of a major disaster. Form ETA-902 is a monthly report submitted by a State on DUA program activities once the President declares a disaster. Social Security Act section 303(a)(6) authorizes this information collection. *See* 42 U.S.C. 503(a)(6).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject

to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205–0051.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on November 30, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 23, 2017 (82 FR 23602).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205–0051.

The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
