

efforts resulting from this demonstration to advance economic mobility. With this research, HUD intends to improve and build on the demonstration, with the goal of extending the demonstration on a nationwide basis. The participating communities and cross-sector entities are expected to participate in any HUD-sponsored evaluation and other efforts designed to identify and share best practices from the demonstration with other HUD-assisted communities. In addition, participating communities and entities will be required to collaboratively develop and subsequently measure and report outputs and outcomes.

V. Solicitation of Public Comment

In accordance with section 470 of the Housing and Urban-Rural Recovery Act of 1983 (42 U.S.C. 3542), HUD is seeking comment on the demonstration. Section 470 provides that HUD may not begin a demonstration program not expressly authorized by statute until a description of the demonstration program is published in the **Federal Register** and a 60-day period expires following the date of publication, during which time HUD solicits public comment and considers the comments submitted. The public comment period provided allows HUD the opportunity to consider those comments during the 60-day period, and be in a position to commence implementation of the demonstration following the conclusion of the 60-day period.

While HUD welcomes comments on the entirety of the demonstration, it asks that commenters consider the following specific questions:

- (1) In administering and evaluating the demonstration, how should HUD define “economic mobility”?
- (2) How can HUD tailor the Economic Empowerment Pillar of the Demonstration to identify and focus on families and individuals residing in HUD-assisted housing that are able to work, and not those who are elderly or include persons with disabilities;
- (3) How can HUD and identified partners (state and local entities, private sector, philanthropic, non-profit and other entities) best maximize existing programs and efforts across agencies in a coordinated and holistic approach?
- (4) What impediments exist for achieving the four pillars, including institutional, organizational, legal or statutory, and behavioral impediments? Is it necessary to the success of the demonstration that communities link all four pillars, and if not, would it be sufficient for a community to identify in its participation plan the barriers to including a specific pillar? Are there

additional pillars that contribute to self-sufficiency and economic mobility that should be made part of the demonstration?

(5) What incentives and programs have worked in the past to achieve the four pillars?

(6) What elements and level of detail should HUD require in a community’s participation plan?

(7) How should HUD define and measure economic mobility over time and space? How should HUD measure quality of life for residents that remain in assisted housing?

(8) What data sources or data linkage is needed to develop outcome metrics such as, return on investment, involvement of local institutions of higher learning, employment and economic opportunities for Section 3 residents and businesses, and a public process for reviewing outcomes and lessons learned?

Dated: December 5, 2017.

Benjamin S. Carson, Sr.,

Secretary.

BILLING CODE 4

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS–R6–ES–2017–0057; FXES11130600000–178–FF06E00000]

Endangered and Threatened Wildlife and Plants; Draft Supplement to the Grizzly Bear Recovery Plan: Habitat-Based Recovery Criteria for the Northern Continental Divide Ecosystem

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability; request for comments; notice of public workshop.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft Supplement to the Grizzly Bear Recovery Plan: Habitat-Based Recovery Criteria for the Northern Continental Divide Ecosystem (NCDE). The draft supplement, which will be appended to the Grizzly Bear Recovery Plan upon finalization, proposes to establish habitat-based recovery criteria for the NCDE grizzly bear population. In addition, the Service hereby gives notice that a public workshop will be held to review the habitat-based recovery criteria for the grizzly bear in the NCDE. The workshop will allow scientists and the public to submit oral and written comments. The Service solicits review

and comment from the public on this draft supplement.

DATES: *Comment submission:* Comments on the draft Supplement to the Grizzly Bear Recovery Plan must be received on or before January 26, 2018.

Public meeting: The public workshop will be held from 1 p.m. to 4 p.m. and 6 p.m. to 8 p.m. on January 3, 2018, at the Double Tree Hotel, 100 Madison Street, in Missoula, Montana.

ADDRESSES: *Document availability:* An electronic copy of the draft Supplement to the Grizzly Bear Recovery Plan is available at <http://www.regulations.gov> in Docket No. FWS–R6–ES–2017–0057, and also at <http://www.fws.gov/mountain-prairie/es/grizzlybear.php>. Hard copies of the draft habitat-based recovery criteria are available by request from the Grizzly Bear Recovery Office, U.S. Fish and Wildlife Service, University Hall, Room 309, University of Montana, Missoula, MT 59812; telephone 406–243–4903.

Comment submission: Submit comments on the draft Supplement to the Grizzly Bear Recovery Plan via any one of the following methods:

(1) *Federal eRulemaking Portal:* www.regulations.gov. In the Search box, enter the docket number for this notice, which is FWS–R6–ES–2017–0057. Then click on the Search button. You may submit a comment by clicking on “Comment Now!”

(2) *U.S. mail or hand delivery:* Public Comments Processing, Attn: Docket No. FWS–R6–ES–2017–0057; U.S. Fish and Wildlife Service, MS: BPHC; 5257 Leesburg Pike; Falls Church, VA 22041–3803.

Public meeting: The public workshop will be held on at the Double Tree Hotel, 100 Madison Street, Missoula, Montana 59812.

FOR FURTHER INFORMATION CONTACT: Hilary Cooley, Grizzly Bear Recovery Office (see **ADDRESSES**), 406–243–4903.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft Supplement to the Grizzly Bear Recovery Plan: Habitat-Based Recovery Criteria for the Northern Continental Divide Ecosystem (NCDE). The draft supplement, which will be appended to the Grizzly Bear Recovery Plan upon finalization, proposes to establish habitat-based recovery criteria for the NCDE grizzly bear population. In addition, the Service hereby gives notice that a public workshop will be held to review the habitat-based recovery criteria for the grizzly bear in the NCDE. The workshop will allow scientists and the public to submit oral and written comments. The Service solicits review

and comment from the public on this draft supplement. In the lower 48 States, grizzly bears (*Ursus arctos horribilis*) are federally listed as threatened under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*; ESA), outside of the Greater Yellowstone Ecosystem.

Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service prepares recovery plans for the federally listed species native to the United States where a plan will promote the conservation of the species. Recovery plans describe site-specific actions necessary for the conservation of the species; establish objective, measurable criteria which, when met, may result in a determination that the species no longer needs the protection of the ESA; and provide estimates of the time and cost for implementing the needed recovery measures (16 U.S.C. 1533(f)(1)(B)).

We approved the first Grizzly Bear Recovery Plan for grizzly bears in the lower 48 States on January 29, 1982 (U.S. Fish and Wildlife Service 1982). In 1993, we approved a revision to the Grizzly Bear Recovery Plan (U.S. Fish and Wildlife Service 1993), which included additional tasks and new information that increased the focus and effectiveness of recovery efforts. The 1993 Recovery Plan identifies distinct Recovery Zones and unique recovery criteria for six different grizzly bear populations, including the NCDE, with the intent that these individual populations would be delisted as they each achieve recovery (U.S. Fish and Wildlife Service 1993, pp. ii, 33–34). Supplements to the Recovery Plan were approved in 1997, 1998, 2007, and 2017 (U.S. Fish and Wildlife Service 1997, 1998, 2007a, 2007b, 2017).

Under the ESA, recovery plans must include objective, measurable recovery criteria, including habitat-based recovery standards (16 U.S.C. 1533(f)(1)(B)(ii)). A Grizzly Bear Recovery Plan Task Force also recommended further consideration of this issue, stating that we should work to “establish a threshold of minimal habitat values to be maintained within each Cumulative Effects Analysis Unit in order to ensure that sufficient habitat is available to support a viable population” (U.S. Fish and Wildlife Service 1993, p. 76). The draft habitat-based recovery criteria were developed

in part by taking into account the oral and written comments received at the habitat-based recovery criteria workshop, which was held on July 7, 2016, in Missoula, Montana (81 FR 29295, May 11, 2016), and during the public comment period that followed the workshop. The Service has decided to hold a second habitat-based recovery criteria workshop.

The ESA requires the Service to provide public notice and opportunity for public review and comment on recovery plans prior to final approval (16 U.S.C. 1533(f)(4)). The Service will consider all information received during a public comment period when preparing each new or revised recovery plan for approval. The Service and other Federal agencies also will take these comments into consideration in the course of implementing approved recovery plans. It is our policy to request peer review of recovery plans. Comments received at the upcoming workshop announced in this **Federal Register** notice and during the public comment period will be used to inform the final habitat-based recovery criteria, which will be appended to the 1993 Grizzly Bear Recovery Plan for the NCDE and incorporated into the NCDE Grizzly Bear Conservation Strategy. The Recovery Plan sets out guidance for the Service, States, and other partners on methods to minimize threats to grizzly bears and criteria that may be used to measure if recovery has been achieved while the Conservation Strategy guides post-delisting management.

Workshop

As described above, the Service will hold a public workshop seeking input and ideas on objective, measurable habitat-based recovery criteria available at <https://www.fws.gov/mountain-prairie/es/grizzlyBear.php>. We seek ideas and information about characteristics of habitat necessary to support a recovered population of grizzly bears and habitat parameters that can be measured and directly related to grizzly bear population health. The Service also wants to obtain information and comments on methods for monitoring the habitat-based recovery criteria. The workshop will be held in Missoula, Montana, on the date specified in **DATES** at the location specified in **ADDRESSES**. Participants are invited to present information in oral and written form. All comments presented orally should also be submitted in writing to facilitate review of these comments. Those wishing to present information or comments orally at the workshop are asked to contact the Grizzly Bear Recovery Office (see

ADDRESSES) so that oral presentations can be scheduled in advance.

All information and comments received at the workshop or during the public comment period will be considered in finalizing the habitat-based recovery criteria for the NCDE.

Request for Public Comments

The Service solicits public comments on a draft Supplement to the Grizzly Bear Recovery Plan. Specifically, this supplement proposes to append habitat-based recovery criteria for the Northern Continental Divide Ecosystem to the Grizzly Bear Recovery Plan. All comments received by the date specified in **DATES** will be considered prior to approval of the final Supplement to the Grizzly Bear Recovery Plan. Written comments and materials regarding the plan should be submitted as specified in **ADDRESSES**.

Availability of Public Comments

If you submit information via <http://www.regulations.gov>, your entire submission—including any personal identifying information—will be posted on the website. If your submission is made via a hardcopy that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy submissions on <http://www.regulations.gov>. Comments and materials we receive will be available for public inspection on <http://www.regulations.gov>, or by appointment, during normal business hours, at the Grizzly Bear Recovery Office address specified in **ADDRESSES**.
