

ENVIRONMENTAL PROTECTION AGENCY**[EPA-HQ-OPP-2016-0630; FRL-9967-07-OEI]****Agency Information Collection Activities; Compliance Requirement for Child-Resistant Packaging; Submitted to OMB for Review and Approval; Comment Request****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: EPA has submitted the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA): "Compliance Requirement for Child-Resistant Packaging" and identified by EPA ICR No. 0616.12 and OMB Control No. 2070-0052. The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized in this document. EPA has addressed the comments received in response to the previously provided public review opportunity issued in the **Federal Register** on November 29, 2016 (81 FR 85951). With this submission, EPA is providing an additional 30 days for public review.

DATES: Additional comments may be submitted on or before January 12, 2018.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OPP-2016-0630, to both EPA and OMB as follows:

- To EPA online using <http://www.regulations.gov> (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

- To OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Docket: Supporting documents, including the ICR that explains in detail the information collection activities and the related burden and cost estimates that are summarized in this document, are available in the docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

ICR status: OMB approval for this ICR expired on July 1, 2017, due to administrative error. This action is a request to reinstate OMB approval for the information collection activities outlined in this document. Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This information collection program is designed to provide the EPA with assurances that the packaging of pesticide products sold and distributed to the general public in the United States meets standards set forth by the Agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Registrants of such pesticide products must certify to the Agency that the packaging or device meets these standards, in order to protect children and adults from serious illness or injury resulting from accidental ingestion or contact. The law requires that these standards are designed to be consistent with those under the Poison Prevention Packaging Act, administered by the Consumer Product Safety Commission (CPSC). Unless a pesticide product qualifies for an exemption, if the product meets certain criteria regarding toxicity and use, it must be sold and distributed in child-resistant packaging (CRP). The authority for this information collection is pursuant to Section 25(c)(3) of the FIFRA.

Respondents/affected entities:

Respondents include entities involved in manufacturing of pesticide

chemicals, wholesale merchandising of pesticide products, or pest management activities who submit CRP applications. The North American Industrial Classification System (NAICS) codes for respondents under this ICR include 325320 (Pesticide and other Agricultural Chemical Manufacturing), 424690 (Other Chemical and Allied Products Merchant Wholesalers), and 561710 (Exterminating and Pest Control Services). EPA recognizes that this list may not be comprehensive.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 31 (total).

Frequency of response: On occasion.

Estimated total burden: 3,535 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Estimated total cost: \$249,292 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 1,972 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects EPA's updating of burden estimates for this collection, including an increase in the estimated burden per response, and a decrease in the number of responses per year. This change is an adjustment.

Abstract: Section 4 of the Toxic Substances Control Act (TSCA) is designed to assure that chemicals that may pose serious risks to human health or the environment undergo testing by manufacturers or processors, and that the results of such testing are made available to EPA. EPA uses the information collected under the authority of TSCA section 4 to assess risks associated with the manufacture, processing, distribution, use or disposal of a chemical, and to support any necessary regulatory action with respect to that chemical.

EPA must assure that appropriate tests are performed on a chemical if it decides: (1) That a chemical being considered under TSCA section 4(a) may pose an “unreasonable risk” or is produced in “substantial” quantities that may result in substantial or significant human exposure or substantial environmental release of the chemical; (2) that additional data are needed to determine or predict the impacts of the chemical’s manufacture, processing, distribution, use or disposal; and (3) that testing is needed to develop such data. Rules and consent orders under TSCA section 4 require that one manufacturer or processor of a subject chemical perform the specified testing and report the results of that testing to EPA. TSCA section 4 also allows a manufacturer or processor of a subject chemical to apply for an exemption from the testing requirement if that testing will be or has been performed by another party. This information collection applies to reporting and recordkeeping activities associated with the information that EPA requires industry to provide in response to TSCA section 4 test rules, consent orders, test rule exemptions and other data submissions.

Respondents/affected entities: Entities potentially affected by this ICR are manufacturers, processors, importers, users, distributors or disposers of one or more specified chemical substances.

Respondent’s obligation to respond: Mandatory (see 40 CFR part 790).

Estimated number of respondents: 15 (total).

Frequency of response: On occasion.

Total estimated burden: 3,127 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$9,232,952 (per year), includes \$9,010,065 annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is a decrease of 626,766 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects EPA’s corrections to the previous renewal of this collection, plus reduced levels of activity in test rules, methodological corrections and updates, and requirements for electronic reporting of information. This change is both the result of a program change (electronic reporting) and an adjustment (all other factors).

Integrated Science Assessment for Sulfur Oxides—Health Criteria

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: EPA is announcing the availability of a final document titled, “Integrated Science Assessment for Sulfur Oxides—Health Criteria” (EPA/600/R–17/451). The document was prepared by the National Center for Environmental Assessment (NCEA) within EPA’s Office of Research and Development (ORD) as part of the review of the primary (health-based) National Ambient Air Quality Standards (NAAQS) for sulfur oxides (SO_x). This Integrated Science Assessment (ISA) provides a comprehensive review, synthesis, and evaluation of the most policy-relevant science to serve as the scientific foundation for EPA’s review of the current primary NAAQS for SO_x.¹ EPA is developing a separate ISA as part of an independent review for the

¹ Sulfur dioxide (SO₂) is the indicator for the current primary NAAQS, so it is also commonly referred to as the primary SO₂ NAAQS.
