

accordance with section 210.13 of the Commission's Rules of Practice and Procedure, 19 CFR 210.13. Pursuant to 19 CFR 201.16(e) and 210.13(a), such responses will be considered by the Commission if received not later than 20 days after the date of service by the Commission of the complaint and the notice of investigation. Extensions of time for submitting responses to the complaint and the notice of investigation will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the administrative law judge and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter an initial determination and a final determination containing such findings, and may result in the issuance of an exclusion order or a cease and desist order or both directed against the respondent.

By order of the Commission.

Issued: December 14, 2017.

Lisa R. Barton,

Secretary to the Commission.

BILLING CODE 4410-12-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decrees Under the Comprehensive Environmental Response, Compensation, and Liability Act and Notice of Availability and Request for Comments on Draft Restoration Plan and Environmental Assessment

On December 12, 2017, the Department of Justice lodged three proposed Consent Decrees with the United States District Court for the Eastern District of Wisconsin in the lawsuit entitled *United States and Wisconsin v. Tecumseh Products Co.; Thomas Industries, Inc.; and Wisconsin Public Service Corp.*, Civil Action No. 2:17-cv-01728. The Draft Restoration Plan/Environmental Assessment (“RP/EA”) is attached to each proposed Consent Decree.

The proposed Consent Decrees will resolve claims for natural resource damages at the Sheboygan River & Harbor Superfund Site (“Sheboygan River Site”) brought by the governments under the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”), 42 U.S.C. 9607. The Sheboygan River Site consists of the lower 14 river miles of the Sheboygan River and adjacent floodplain areas. The filed complaint alleges that the three Defendants are liable under CERCLA for historical industrial discharges of polychlorinated biphenyl (“PCB”) and/or polycyclic aromatic hydrocarbon (“PAH”) compounds at the Sheboygan River Site. PCBs and PAHs were identified in river sediments throughout the Site in sufficient concentrations to cause injury to many types of natural resources, including invertebrates, fish, amphibians, birds, and mammals. In addition, PCB and PAH-contaminated natural resources resulted in the loss of recreational fishing services.

Under CERCLA, federal and state natural resource trustees have authority

to seek compensation for natural resources harmed by hazardous industrial waste and by-products discharged into the Sheboygan River. The natural resource trustees here include the U.S. Department of the Interior, acting through the U.S. Fish and Wildlife Service; the U.S. Department of Commerce, acting through the National Oceanic and Atmospheric Administration; and the Wisconsin Department of Natural Resources (collectively, the “Trustees”).

Under the proposed Consent Decrees, the Defendants will pay a combined \$4,523,000, of which \$2,532,500 will fund Trustee-sponsored natural resource restoration projects in accordance with the RP/EA, \$1,295,500 will be paid to Sheboygan County as partial reimbursement for costs it incurred in acquiring the Amsterdam Dunes restoration project area, and \$695,000 will provide reimbursement for costs incurred by the Trustees in assessing the scope of natural resource damages incurred. The RP/EA presents the restoration projects proposed by the Trustees to restore natural resources and services injured by hazardous substances released in and around the Sheboygan River site.

Consistent with the CERCLA natural resource damages assessment and restoration (“NRDAR”) regulations, 43 CFR part 11, and the National Environmental Policy Act of 1969 (“NEPA”), as amended, 42 U.S.C. 4321 *et seq.*, and its implementing regulations at 40 CFR parts 1500–1508, the Trustees evaluated a suite of three alternatives for conducting the type and scale of restoration sufficient to compensate the public for natural resource injuries and service losses. Based on selection factors including location, technical feasibility, cost effectiveness, provision of natural resource services similar to those lost due to contamination, and net environmental consequences, the Trustees identified a preferred alternative.

Under the preferred alternative, the Trustees envision conducting wetland and riparian restoration; wetland, riparian, and ecologically-associated upland preservation; and recreational enhancement projects within the Sheboygan River Basin within Sheboygan County. This would include preservation and potential restoration of Amsterdam Dunes and Willow Creek.

The publication of this notice opens a period for public comment on the Consent Decree and RP/EA.

Comments on the Consent Decrees should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should
