SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry entitled “Formal Meetings Between the FDA and Sponsors or Applicants of PDUFA Products.” This draft guidance provides recommendations to industry on formal meetings between FDA and sponsors or applicants relating to the development and review of products regulated by the Center for Drug Evaluation and Research and the Center for Biologics Evaluation and Research. This draft guidance does not apply to abbreviated new drug applications, applications for biosimilar biological products, or submissions for medical devices. For the purposes of this guidance, formal meeting includes any meeting that is requested by a sponsor or applicant following the request procedures provided in this guidance and includes meetings conducted in any format (*i.e.*, face to face, teleconference/videoconference, or written response only).

This guidance discusses the principles of good meeting management practices and describes standardized procedures for requesting, preparing for, scheduling, conducting, and documenting such formal meetings. The general principles in this guidance may be extended to other nonapplication-related meetings with external constituents, insofar as this is possible.

The previous guidance for industry “Formal Meetings Between the FDA and Sponsors or Applicants” published May 19, 2009, and the draft guidance for industry “Formal Meetings Between the FDA and Sponsors or Applicants of

PDUFA Products” published March 11, 2015, have been withdrawn.

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on formal meetings between FDA and sponsors or applicants of PDUFA products. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

II. The Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information referred to in the guidance entitled “Formal Meetings Between the FDA and Sponsors or Applicants” have been approved under OMB control number 0910–0429. The collections of information for Form FDA 1571 and end-of-phase 2 meetings have been approved under OMB control number 0910–0014 and collections of information for Form FDA 356h have been approved under OMB control number 0910–0338.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a guidance for industry and review staff entitled “Best Practices for Communication Between IND Sponsors and FDA During Drug Development.” As part of the Prescription Drug User Fee Amendments of 2012 (PDUFA V), described in PDUFA Reauthorization Performance Goals and Procedures

Fiscal Years 2013 through 2017, the Center for Drug Evaluation and Research (CDER) and the Center for Biologics Evaluation and Research (CBER) agreed to publish a joint guidance for industry and review staff on best practices for communication between IND sponsors and FDA during drug development.

To establish the best practices described in this guidance, CDER and CBER gathered the experiences of review staff and incorporated input from interested parties who responded to a notice published in the **Federal Register** of October 29, 2014 (79 FR 64397), or who provided input directly to CDER’s Enhanced Communication Team. This guidance was published as a draft guidance on December 9, 2015. The following changes were made to the guidance:

- Biosimilar biological product development information was expanded and Biosimilar User Fee Act (BsUFA) meeting types were added.

- Roles and responsibilities for regulatory project managers were clarified.

- Language describing the formal communication plan for applications in PDUFA Program for Enhanced Review Transparency and Communication for NME NDAs¹ and Original BLAs² (also known as *the Program*) and for biologic biosimilar applications reviewed under BsUFA was added.

- Meeting request parameters were revised in alignment with PDUFA VI.

- Additional information was added to the Resources for Sponsors and Additional Contacts sections.

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on best practices for communication between IND sponsors and FDA during drug development. It does not establish any rights for any person and is not binding on FDA or the public.
