Section 215 of Division G, Title II of Public Law 108–199, enacted January 23, 2004 (HUD's 2004 Appropriations Act) amended Section 224 of the Act, to change the debenture interest rate for purposes of calculating certain insurance claim payments made in cash. Therefore, for all claims paid in cash on mortgages insured under Section 203 or 234 of the National Housing Act and endorsed for insurance after January 23, 2004, the debenture interest rate will be the monthly average yield, for the month in which the default on the mortgage occurred, on United States Treasury Securities adjusted to a constant maturity of 10 years, as found in Federal Reserve Statistical Release H–15. The Federal Housing Administration has codified this provision in HUD regulations at 24 CFR 203.405(b) and 24 CFR 203.479(b).

Section 221(g)(4) of the Act provides that debentures issued pursuant to that paragraph (with respect to the assignment of an insured mortgage to the Secretary) will bear interest at the “going Federal rate” in effect at the time the debentures are issued. The term “going Federal rate” is defined to mean the interest rate that the Secretary of the Treasury determines, pursuant to a statutory formula based on the average yield on all outstanding marketable Treasury obligations of 8 to 12 year maturities, for the 6-month periods of January through June and July through December of each year. Section 221(g)(4) is implemented in the HUD regulations at 24 CFR 221.255 and 24 CFR 221.790.

The Secretary of the Treasury has determined that the interest rate to be borne by debentures issued pursuant to Section 221(g)(4) during the 6-month period beginning January 1, 2017, is 2¹/₈ percent.

The subject matter of this Notice falls within the categorical exemption from

HUD's environmental clearance procedures set forth in 24 CFR 50.19(c)(6). For that reason, no environmental finding has been prepared for this notice.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Survey of Market Absorption of New Multifamily Units.

OMB Approval Number: 2528–0013 (Expires March 31, 2017).

Type of Request: Extension of currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: The Survey of Market Absorption (SOMA) provides the data necessary to measure the rate at which new rental apartments and new condominium apartments are absorbed; that is, taken off the market, usually by being rented or sold, over the course of the first twelve months following completion of a building. The data are collected at quarterly intervals until the twelve months conclude, or until the units in a building are completely absorbed. The survey also provides estimates of certain characteristics, including asking rent/price, number of units, and number of bedrooms. The survey provides a basis for analyzing the degree to which new apartment construction is meeting the present and future needs of the public.

Members of affected public: Rental Agents/Builders.

Estimated Number of Respondents: 12,000 yearly (maximum).

Estimated Time per Response: 15 minutes/initial interview and 5 minutes for any subsequent interviews (up to three additional, if necessary).

Frequency of Response: Four times (maximum).

Estimated Total Annual Burden Hours: 6,000 (12,000 buildings × 30 minutes).

Estimated Total Annual Cost: The only cost to respondents is that of their time. The total estimated cost to HUD in FY 2017 is \$1,120,000.

Respondent's Obligation: Voluntary.

Legal Authority: The survey is conducted under Title 12, United States Code, Section 1701Z.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Cost
SOMA	12,000	4	48,000	.125 (30 minutes total divided by 4 interviews).	6000	\$0	\$0
Total	12,000	4	48,000	.125	6000	0	0

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: January 10, 2017.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the Comprehensive Conservation Planning (CCP) process for the Little Sandy NWR. We started this process through a notice in the **Federal Register** (72 FR 46095; August 16, 2007).

The primary purpose of Little Sandy NWR is to protect a remnant of the bottomland hardwood forest ecosystem along the Sabine River in East Texas. The Little Sandy NWR was established

in December 1986 as a permanent non-development easement with the Little Sandy Hunting and Fishing Club (LSHFC). It is managed as a unit of the National Wildlife Refuge System (NWRS) out of the Little River NWR Complex headquarters in Broken Bow Oklahoma.

Background

The CCP Process

The National Wildlife Refuge System Improvement Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15 year plan for achieving refuge purposes and contributing toward the mission of the NWRS, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and FWS policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Refuge Administration Act.

Public Outreach

Formal scoping began when we published a notice of intent to prepare a CCP and EA in the **Federal Register** on August 16, 2007, and formally invited the Texas Parks and Wildlife Department (TPWD) to participate in the development of the document. TPWD has provided constant input and the Service has continued to involve them throughout the planning process. Information sheets were sent to the public, and news releases were sent to a variety of media outlets. A public open house meeting was held on September 9, 2009, at Jarvis Christian College in Hawkins, Texas. Additional written comments were received prior to the open house. A variety of stakeholders contributed feedback at the open house meeting and via written
