

- Evidence of ongoing client need and how you intend to make the project part of your core legal services.

- The level of engagement of pro bono volunteers/private bar and the best practices in pro bono delivery that can be replicated by others.

- How ongoing program evaluation and data collection will be incorporated into the project.

b. *Project Staff and Management Support.* Please briefly identify and describe the project team and project partners. In your response, please include the following:

- The project staff that will be responsible for the sustainability phase of the project. Please include any additional staff, descriptions of new responsibilities for existing project staff and/or organizational changes that will be made.

- The role of your organization's executive management in the decision to seek this Sustainability Grant and recent examples of your organization's track record turning "new" or special projects into core legal services.

c. *Budget and Match Requirement.* Please describe what you would like the *Sustainability Grant* to fund. In your response, please be sure to provide the following information:

- Estimated total project cost. This includes the estimate for the Pro Bono Innovation Fund requested amount and other in-kind or cash contributions to support the project. Your narrative should provide a breakdown of the major project expenses including, but not limited to, personnel, project expenses, etc., and how each expense supports the project design.

- A narrative proposing an ambitious match requirement that reduces the Pro Bono Innovation Fund contribution to the project for the grant term. LSC is not setting a specific percentage of required match for Sustainability grant applicants but will assess the two-year budget from the applicant's previously funded project with the grant amount proposed in the Sustainability LOI. LSC's expectation is that applicants will propose a meaningful shift from Pro Bono Innovation Fund support to other sources of support during the grant term.

- A narrative discussing the potential sources of funding that have been or will be cultivated. If the project has already received new financial support, please provide the source and amount committed and further describe the plans for ensuring continued financial support.

Dated: January 17, 2017.

Mark F. Freedman,

Senior Associate General Counsel.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-1050; NRC-2016-0231]

Waste Control Specialists LLC's Consolidated Interim Spent Fuel Storage Facility Project

AGENCY: Nuclear Regulatory Commission.

ACTION: Public scoping period end date; public meetings and request for comments.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) received a license application from Waste Control Specialists LLC (WCS) by letter dated April 28, 2016, as supplemented on July 20, August 19, August 31, September 27, October 7, November 16, December 16, and December 22, 2016, respectively. By this application, WCS is requesting authorization to construct and operate a Consolidated Interim Storage Facility (CISF) for spent nuclear fuel at WCS's facility in Andrews County, Texas. The NRC is preparing an environmental impact statement (EIS) to document the potential environmental impacts from the proposed action. As part of the EIS development process, the NRC is seeking comments on the scope of its environmental review and is holding public meetings to aid in this effort.

DATES: The scoping period began on November 14, 2016, and ends on March 13, 2017. Comments received after these dates will be considered if it is practical to do so but assurance of consideration cannot be given to comments received after this date.

ADDRESSES: Please refer to Docket ID NRC-2016-0231 when providing scoping comments or contacting the NRC about the availability of information regarding this document. You may submit scoping comments by the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2016-0231. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Cindy Bladey, Office of Administration, Mail Stop: OWFN-12-H08, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Comments must be submitted by March 13, 2017, to ensure consideration. For additional direction on accessing information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

James Park, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington DC, 20555-0001; telephone: 301-415-6954; email: James.Park@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2016-0231 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this action by the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2016-0231.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to: pdr.resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in a table in the section of this notice entitled "Availability of Documents."

- *NRC'S PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike Rockville, Maryland 20852.

- *Project Web page:* Information related to the WCS CISF project can be accessed on the NRC's WCS CISF Web page at: <https://www.nrc.gov/waste/spent-fuel-storage/cis/waste-control-specialist.html>.

B. Submitting Comments

Please include Docket ID NRC-2016-0231 in your comment submission. Written comments may be submitted

during the scoping period as described in the **ADDRESSES** section of the document.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <http://www.regulations.gov> as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Background

In a letter dated April 28, 2016, WCS submitted an application to the NRC for a specific license, pursuant to part 72 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater Than Class C Waste." The WCS is seeking to construct and operate a consolidated interim storage facility (CISF) for spent nuclear fuel at WCS' facility in Andrews County, Texas. If approved and licensed by NRC, the CISF would store up to 5,000 metric tons uranium (MTU) for a 40-year license period. In its application, WCS has expressed its intent eventually to store up to 40,000 MTU in the CISF. The WCS site is located on Texas Highway 176 West, approximately 32 miles west of Andrews, Texas and 5 miles east of Eunice, New Mexico.

In a letter dated July 21, 2016, WCS also requested that the NRC initiate its environmental impact statement (EIS) process for the WCS application as soon as practicable. The NRC informed WCS, in a letter dated October 7, 2016, that the NRC would begin its EIS process in advance of an NRC decision regarding the acceptance of the WCS application and noted that doing so would help fulfill the purposes of the NRC's National Environmental Policy Act (NEPA) review of the application. On November 14, 2016, the NRC published a notice in the **Federal Register** (81 FR 79531) announcing its intent to prepare
