

groups of stone samples, three biface fragments, one ceramic sherd, and one stone scrapper.

At an unknown date, human remains representing, at minimum, one individual were removed from Neeffe Mounds (47–RI–0059) in Richland County, WI. The site was first reported to the Wisconsin Historical Society by T. Orion in 1907, who observed two conical mounds that were under cultivation. Human remains representing one adult male from an unknown location within the site were donated to the Wisconsin Historical Society by a Mr. Sheldon Bartel at an unknown date. No known individuals were identified. The one associated funerary object is a group of daub fragments.

In 1977, human remains representing, at minimum, seven individuals were removed from the Rehbein I Site (47–RI–0081) in Richland County, WI. Excavations took place at the site in 1977 and included investigation of Mounds 1–6. The majority of the human remains recovered were reinterred under the reconstructed mounds. For an unknown reason, human remains representing six adults of indeterminate sex and one infant were excluded from reburial and are in the possession of the Wisconsin Historical Society. No known individuals were identified. The seven associated funerary objects are one ceramic vessel, two groups of ceramic sherds, three mussel shells, and one group of bark fragments.

In 1960, human remains representing, at minimum, three individuals were removed from Sobek Mounds (47–RI–0001) in Richland County, WI. The site was investigated by the Wisconsin Historical Society in cooperation with the Department of Transportation. Three of the mounds (Mounds 1–3) were located in the right-of-way for the relocation of Highway 60 and would be destroyed. The Wisconsin Historical Society placed a center-line trench through each mound and recovered human remains representing an adult female and an adult male from Mound 1 and an adult female from Mound 3. During an inventory of the collections from the site in 2007, additional human remains were found from a plowzone context. The human remains from the plowzone are too fragmentary to affect the MNI for the site. No known individuals were identified. The 23 associated funerary objects are one quartzite hammerstone, one fragment of hematite, twelve groups of chert debitage, one chert biface, three charcoal fragments, two ceramic sherds, and three groups of sandstone fragments.

In 1955 and 1957, human remains representing, at minimum, one individual were removed from Raddatz Rockshelter (47–SK–0005) in Sauk County, WI. The site was investigated by Warren Wittry of the Wisconsin Historical Society in 1955 and 1957 in order to gain a better understanding of the chronological depth of prehistoric occupation in Wisconsin. His excavations covered a 675 square foot area that he estimated represented 75 percent of the rockshelter. In 2012, all of the artifacts from the site were reinventoried by the Wisconsin Historical Society and human remains were identified. Skeletal analysis in 2016 determined the human remains represent a juvenile of indeterminate sex. No known individuals were identified. No associated funerary objects are present.

Determinations Made by the Wisconsin Historical Society

Officials of the Wisconsin Historical Society have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice are Native American based on Wisconsin Historical Society records, burial location, archeological context, oral histories, and skeletal analysis.
- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 145 individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the 62 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and associated funerary objects and any present-day Indian Tribe.
- According to final judgments of the Indian Claims Commission or the Court of Federal Claims, the land from which the Native American human remains and associated funerary objects were removed is the aboriginal land of the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska.
- Treaties, Acts of Congress, or Executive Orders, indicate that the land from which the Native American human remains and associated funerary objects were removed is the aboriginal land of the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska.
- Pursuant to 43 CFR 10.11(c)(1), the disposition of the human remains and associated funerary objects may be to the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska.

Additional Requestors and Disposition

Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Jennifer Kolb, Wisconsin Historical Society, 816 State Street, Madison, WI 53706, telephone (608) 264–6434, email Jennifer.Kolb@wisconsinhistory.org, by May 21, 2018. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska may proceed.

The Wisconsin Historical Society is responsible for notifying the Forest County Potawatomi Community, Wisconsin; Ho-Chunk Nation of Wisconsin; Lac du Flambeau Band of Lake Superior Chippewa Indians of the Lac du Flambeau Reservation of Wisconsin; Menominee Indian Tribe of Wisconsin; Upper Sioux Community, Minnesota; and the Winnebago Tribe of Nebraska that this notice has been published.

Dated: March 22, 2018.

Notice of Inventory Completion: Thomas Burke Memorial Washington State Museum, University of Washington, Seattle, WA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Thomas Burke Memorial Washington State Museum (Burke Museum) has completed an inventory of human remains, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and present-day Indian Tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit

a written request to the Burke Museum. If no additional requestors come forward, transfer of control of the human remains to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to the Burke Museum at the address in this notice by May 21, 2018.

ADDRESSES: Peter Lape, Burke Museum, University of Washington, Box 353010, Seattle, WA 98195, telephone (206) 685-3849, email plape@uw.edu.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of the Burke Museum, University of Washington, Seattle, WA. The human remains were removed from the Aleutian Islands, AK.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by Burke Museum professional staff in consultation with representatives of the Agdaagux Tribe of King Cove; Native Village of Akutan; Native Village of Atka; Native Village of Belkofski; Native Village of False Pass; Native Village of Nelson Lagoon; Native Village of Nikolski; Native Village of Unga; Pauloff Harbor Village; Qagan Tayagungin Tribe of Sand Point Village; Qawalangin Tribe of Unalaska; and Pribilof Islands Aleut Communities of St. Paul and St. George Islands, hereafter known as "The Tribes and Native Villages of the Aleutian Islands."

History and Description of the Remains

At an unknown date prior to 1973, human remains representing, at minimum, one individual were removed from an unknown location in the Aleutian Islands, AK. The human remains were found in collections at the Burke Museum in 1973 (Burke Accn. #1973-58) in a box labeled "Aleutian

Skull, R.C. Barnard." While the label on the box indicates the contents were donated by R. C. Barnard, no donor record exists at the Burke Museum's records for that name. No known individuals were identified. No funerary objects are present.

This individual has been determined to be Native American based on geographical and biological information. Archeological and biological information suggest continuity between past populations and modern Native populations in the Aleutian Islands. The archeological record indicates over 4,500 years of cultural continuity on the Aleutian Islands with unbroken sequences in midden sites (McCartney, 1984). During the 1700s, after contact with the Russians, Unangax/Aleut populations began to decline and by the late 1700s and early 1800s most Unangax/Aleut had relocated, or been removed, to the modern Native Villages. A relationship of shared group identity can reasonably be traced between the human remains and the modern day descendants of the Unangax/Aleut, who are represented by The Tribes and Native Villages of the Aleutian Islands.

Determinations Made by the Burke Museum

Officials of the Burke Museum have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and The Tribes and Native Villages of the Aleutian Islands.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Peter Lape, Burke Museum, University of Washington, Box 353010, Seattle, WA 98195, telephone (206) 685-3849 Ext 2, email plape@uw.edu, by May 21, 2018. After that date, if no additional requestors have come forward, transfer of control of the human remains to The Tribes and Native Villages of the Aleutian Islands may proceed.

The Burke Museum is responsible for notifying The Tribes and Native Villages of the Aleutian Islands that this notice has been published.

Dated: April 2, 2018.
