

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Advanced Qualification Program (AQP)**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on February 6, 2018. The Advanced Qualification Program uses data driven quality control processes for validating and maintaining the effectiveness of air carrier training program curriculum content.

DATES: Written comments should be submitted by May 31, 2018.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oir_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

FOR FURTHER INFORMATION CONTACT: Barbara Hall at (940) 594-5913, or by email at Barbara.L.Hall@faa.gov.

SUPPLEMENTARY INFORMATION:
OMB Control Number: 2120-0701.
Title: Advanced Qualification Program (AQP).

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on February 6, 2018 (83 FR 5292). Under Special Federal Aviation Regulation No. 58, Advanced Qualification Program (AQP), the FAA provides certificated air carriers, as well as training centers they employ, with a regulatory alternative for training, checking, qualifying, and certifying aircrew personnel subject to the requirements of 14 CFR parts 121 and 135. Data collection and analysis processes ensure that the certificate holder provides performance information on its crewmembers, flight instructors, and evaluators that will enable them and the FAA to determine whether the form and content of training and evaluation activities are satisfactorily accomplishing the overall objectives of the curriculum. There were no comments received.

Respondents: 25 respondents with approved Advanced Qualification Programs.

Frequency: Data are collected monthly.

Estimated Average Burden per Response: 2 hours.

Estimated Total Annual Burden: 600 hours.

Issued in Fort Worth, TX, on April 24, 2018.

Barbara Hall,

FAA Information Collection Clearance Officer, IT Enterprises Business Services Division, ASP-110.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration**

[Docket Number FRA-2018-0034]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on March 14, 2018, BNSF Logistics (BNSF-L) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 231, Railroad Safety Appliance Standards, and Association of American Railroads (AAR) Standard S-2044, Appendix D1, which governs the Safety Appliances for Flatcars with Full Decks.

FRA assigned the petition Docket Number FRA-2018-0034.

BNSF-L seeks relief to allow the transport of wind towers and wind turbine blades by removing tall hand grabs at the corners of flatcars that can foul the loaded cars with the towers and blades. Specifically, BNSF-L proposes to:

- Remove any tall handgrabs that could be damaged by lading during the initial loading.
- Provide formal, engineered storage on each car for the removed tall handgrabs.
- Add a handgrab to the side sill that extends at least 6" above the deck and is between 27" to 34" above the sill step.
- Apply decals stating that "This location not suitable for riding" to mark these locations.
- Disable the coupler on both cars where the overhang is located to prevent uncoupling. Note that in many cases this location is equipped with a drawbar instead of couplers.

• Reapply standard safety appliances and remove the decals only when car is released from unit wind service.

BNSF-L believes this proposal will avoid damage to safety appliances and cargo.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing about these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Website:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590.

- *Hand Delivery*: 1200 New Jersey Avenue SE, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by June 15, 2018, will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacyNotice> for the privacy notice of www.regulations.gov.

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2013–0081]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on April 4, 2018, the Association of American Railroads (AAR) petitioned the Federal Railroad Administration (FRA) for a Special Approval of certain industry standards in accordance with the Federal railroad safety regulations contained at 49 CFR 231.33, *Procedure for special approval of existing industry safety appliance standards*, and 49 CFR 231.35, *Procedure for modification of an approved industry safety appliance standard for new railcar construction*. FRA assigned the petition Docket Number FRA–2013–0081.

AAR, on behalf of itself and its member railroads, submitted a petition for special approval of existing industry safety appliance standards contained in 49 CFR part 231, Railroad Safety Appliance Standards, and minor edits to

AAR Standard S–2044 and its appendices that have been previously approved by the FRA. Specifically, AAR requests approval of the standards and specifications delineated in AAR Standard S–2044, Appendices F4, Safety Appliances for Side-Dump Cars, and J1, Safety Appliances for Rail-Compatible Vehicles. Appendices F4 and J1 were not included in the version of AAR Standard S–2044 approved March 29, 2016, and are entirely new. AAR also seeks approval of minor clarifying edits to previously-approved AAR Standard S–2044 and its appendices. AAR Standard S–2044 and its appendices have been developed to serve as requirements for safety appliance arrangements. The revised standard and its appendices are to be applied to new railroad freight cars, if approved by FRA.

AAR Standard S–2044 was established by the AAR Safety Appliance Task Force (Task Force), which was created by AAR's Equipment Engineering Committee (EEC) to develop industry standards for safety appliance arrangements on modern railcar types not explicitly covered by 49 CFR part 231. The Task Force consists of representatives from Class I railroads, labor unions, car builders, private car owners, and shippers, along with ergonomics experts and government representatives from FRA and Transport Canada who participate as non-voting members. The Task Force drafted a base safety appliance standard for all car types, plus industry safety appliance standards for specific car types. These industry standards have been adopted by AAR's Engineering Equipment Committee and, with FRA's approval, will serve as the core criteria for safety appliance arrangements on railcars that are more specialized in design.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA,

in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Website*: <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax*: 202–493–2251.
- *Mail*: Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE, W12–140, Washington, DC 20590.
- *Hand Delivery*: 1200 New Jersey Avenue SE, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by June 15, 2018 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>.
