

are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

### Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Request for Certification of Military or Naval Service.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* N-426; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* *Primary:* Individuals or households. The Form N-426 is used by naturalization applicants to document honorable service in the U.S. Armed Forces. The form is filed with U.S. Citizenship and Immigration Services (USCIS) when the respondent applies for naturalization with USCIS Form N-400, Application for Naturalization (OMB Control Number 1615-0052). The Department of Defense (DOD) record centers or personnel offices verify and certify the applicant's military or naval service information provided on Form N-426. USCIS reviews the form as part of the process to determine the applicant's eligibility for naturalization. USCIS also collects biometric information from respondents to verify their identity and check or update their background information.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection N-426 is 10,000 and the estimated hour burden per response is .75 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 7,500 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$245,000.

Dated: May 22, 2018.

**Samantha L. Deshommes**,  
Chief, Regulatory Coordination Division,  
Office of Policy and Strategy, U.S. Citizenship  
and Immigration Services, Department of  
Homeland Security.

### Endangered and Threatened Wildlife and Plants; Enhancement of Survival Permit Application; Centennial Valley Arctic Grayling Candidate Conservation Agreement With Assurances, and Draft Environmental Assessment

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), are announcing the availability of the following documents for review and comment by the public and Federal, Tribal, State, and local governments:

- Candidate Conservation Agreement with Assurances for Arctic Grayling in the Centennial Valley, Montana (Centennial Valley CCAA), and
- Draft Environment Assessment of the Centennial Valley CCAA (EA).

The Service, Montana Fish, Wildlife and Parks (MFWP), and local partners prepared the draft Centennial Valley CCAA to give non-Federal landowners the opportunity to voluntarily conserve Arctic grayling (a fish species) and its habitat in the Centennial Valley, Montana. The MFWP is applying for an enhancement of survival permit under the ESA to enroll landowners in the Centennial Valley CCAA. To comply with the National Environmental Policy Act, the Service prepared the draft EA.

**DATES:** Written comments must be submitted by June 28, 2018.

**ADDRESSES:** To request further information or send written comments, please use one of the following methods, and note that your information request or comments are in reference to the Centennial Valley CCAA.

○ *Internet:* Documents may be viewed on the internet at <https://www.fws.gov/mountain-prairie/ea/newsAndReleases.php>.

○ *U.S. Mail:* James Boyd, Fish and Wildlife Biologist, Montana Ecological Services Field Office, U.S. Fish and Wildlife Service, 585 Shepard Way, Suite 1, Helena, MT 59601.

○ *Email:* [james\\_boyd@fws.gov](mailto:james_boyd@fws.gov). Include "Centennial Valley CCAA" in the subject line of the message.

○ *In-Person Viewing or Pickup:* Documents will be available for public inspection by appointment (406-547-5225, ext. 216) during normal business hours at the U.S. Fish and Wildlife

Service, Montana Field Office, 585 Shepard Way, Suite 1, Helena, MT 59601.

### FOR FURTHER INFORMATION CONTACT:

James Boyd, Montana Ecological Services Field Office (see **ADDRESSES**), telephone: 406-547-6008; or email: [james\\_boyd@fws.gov](mailto:james_boyd@fws.gov). If you use a telecommunications device for the deaf, please call the Federal Relay Service at 800-877-8339.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service (Service), are announcing the availability of the following documents for review and comment by the public and Federal, Tribal, State, and local governments:

- Candidate Conservation Agreement with Assurances for Arctic Grayling in the Centennial Valley, Montana (Centennial Valley CCAA), and
- Draft Environment Assessment of the Centennial Valley CCAA (EA).

The Service, Montana Fish, Wildlife and Parks (MFWP), and local partners prepared the Centennial Valley CCAA to give non-Federal landowners the opportunity to voluntarily conserve Arctic grayling (a fish species) and its habitat in the Centennial Valley, Montana. Participating landowners would implement certain conservation measures to reduce or eliminate threats to the Arctic grayling on their property related to ranching activities and associated water uses. In return, the Service would give participating landowners regulatory assurances that it will not impose land or water use restrictions or conservation requirements beyond those in the CCAA, if the Arctic grayling becomes listed under the Endangered Species Act (ESA). MFWP is applying for an enhancement of survival permit under the ESA, to enroll landowners in the Centennial Valley CCAA with certificates of inclusion. To comply with the National Environmental Policy Act (NEPA), we prepared a draft EA that analyzes potential impacts to the human environment from the proposed Centennial Valley CCAA and a no-action alternative.

We determined that the Upper Missouri River Distinct Population Segment of the Arctic grayling was not warranted for listing under the ESA, and announced that finding in the **Federal Register** on August 20, 2014 (79 FR 49384). However, Federal and State resource agencies, nongovernmental conservation organizations, and private landowners are continuing conservation efforts for the Arctic grayling in Montana. Although the Arctic grayling is not currently a candidate species, our regulations at 50 CFR 17.22(d)(1) and

our CCAA policy (December 27, 2016; 81 FR 95169) encourage the conservation of at-risk species.

The population of Arctic grayling in the Centennial Valley in Beaverhead County, Montana, is increasing in distribution in and around Red Rock Lakes National Wildlife Refuge (Refuge). However, reduced stream flows, degraded and non-functioning instream and riparian habitats, barriers to Arctic grayling movement, and entrainment of Arctic grayling in irrigation ditches on non-Federal lands surrounding the Refuge are likely inhibiting further increases in distribution and abundance in the Centennial Valley. Thus, the Service and MFWP developed the programmatic Candidate Conservation Agreement with Assurances (CCAA) for Arctic Grayling in the Centennial Valley, to encourage landowners to voluntarily implement conservation measures to alleviate these limiting factors on their properties.

A CCAA is an agreement between the Service, partners, and landowners for voluntary management of non-Federal lands to remove or reduce threats to species that may become listed under the ESA. In return for implementing conservation measures in a CCAA, the Service gives participants assurances that, should the covered species become listed, the Service would not impose land, water, or resource use restrictions or conservation requirements beyond those agreed to in the CCAA.

Under the Centennial Valley CCAA, the Service would issue MFWP an Enhancement of Survival Permit (permit) under section 10(a)(1)(A) of the ESA effective for 20 years. MFWP would enroll interested non-Federal landowners under the permit with Certificates of Inclusion (CI) contingent on development of a site-specific conservation plan for the enrolled property. The CI would convey to the enrolled landowner a specified level of authorized take of Arctic grayling that may result from implementation of the conservation measures in the site-specific plan, if and when the species becomes listed.

#### National Environmental Policy Act Compliance

The proposed issuance of a permit with its associated CCAA is a Federal action that requires us to comply with the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). Therefore, we prepared a draft environmental assessment that evaluates the potential impacts of issuing the permit and implementing the Centennial Valley CCAA on the human environment. We are requesting

a 30-day public review and comment on drafts of the EA and CCAA (see **DATES** and **ADDRESSES**).

#### Public Comments

You may submit your comments and materials by one of the methods listed in the **ADDRESSES** section. We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party on our proposed Federal action.

#### Public Availability of Comments

All comments and materials we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comments, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so. Comments and materials we receive, as well as supporting documentation we use in preparing the EA, will be available for public inspection by appointment, during normal business hours, at our Montana Field Office (see **ADDRESSES**).

#### Next Steps

After reviewing public comments, we will evaluate whether the proposed action in the draft EA is adequate to support a finding of no significant impact under NEPA or we should prepare an environmental impact statement. As part of the basis for that determination, we will conduct an intra-Service consultation under section 7(a)(2) of the ESA to determine whether the proposed permit action and CCAA would jeopardize the continued existence of the Arctic grayling or any other candidate, proposed, or listed species that may be affected. We will then determine whether implementation of the proposed CCAA would meet the requirements for issuance of a section 10(a)(1)(A) permit (50 CFR 17.22(d)(2)). We will not make our final decision until after the end of the 30-day public comment period, and we will fully consider all comments we receive during the public comment period.

#### Authority

We provide this notice in accordance with the requirements of section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*), and NEPA (42 U.S.C. 4321 *et seq.*) and their implementing regulations (50 CFR 17.22

and 17.32; 40 CFR 1506.6 and 43 CFR 46, respectively).

**Marjorie Nelson,**

*Chief—Ecological Services, Mountain-Prairie Region, U.S. Fish and Wildlife Service, Lakewood, Colorado.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[17X.LLAZA01000.L54400000.EQ0000.  
LVCLA17ZNA0; AZA–024176]

#### Notice of Realty Action: Proposed Mesquite, Nevada Airport Lease Renewal/Amendment

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of realty action.

**SUMMARY:** The Bureau of Land Management (BLM) has examined and found suitable for lease to the City of Mesquite, Nevada, for airport purposes under the Act of May 24, 1928, as amended, a parcel of public land located in Mohave County, Arizona, totaling approximately 6.005 acres. The City of Mesquite has applied for a renewal lease and to amend its lease to bring it into Federal Aviation Administration (FAA) safety compliance standards.

**DATES:** Interested parties may submit written comments regarding the proposed lease renewal and amendment to the existing lease on or before July 13, 2018.

**ADDRESSES:** Comments concerning this notice should be addressed to Lorraine M. Christian, Field Manager, BLM Arizona Strip Field Office, 345 East Riverside Dr., St. George, UT 84790.

**FOR FURTHER INFORMATION CONTACT:** Amanda Harrington, Assistant Field Office Manager, at the above address; phone 435–688–3271; or by email at [asharrin@blm.gov](mailto:asharrin@blm.gov). Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question for the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** The BLM has examined and found the following described public land in Mohave County, Arizona, suitable for lease under the Act of May 24, 1928, as amended (49 U.S.C. Appendix 211–213), and 43 CFR 2911:
