Emerging Technologies and Trends: NTIA also advocates for policies that enable entrepreneurs and innovators to take risks and to find global markets for new digital products and services. This advocacy often draws NTIA into discussions about access to broadband internet service, digital literacy, intellectual property, and technological standardization. Over the last decade, these discussions have intensified, as many countries have invested greater resources into developing national innovation strategies, and have increasingly brought those ideas into international forums, such as APEC and the OECD. Over the coming years, these discussions will increasingly focus on issues such as the economic and social impacts of artificial intelligence, the workforce changes brought on by automation and new internet-enabled business models, and the growth of blockchain applications, to name a few. NTIA welcomes comments on how OIA should participate in international discussions of these issues, as well as other issues related to emerging technologies and trends.

Request for Comments

Instructions for Commenters: NTIA invites comments on the full range of questions presented by this Notice, including issues that are not specifically raised. Commenters are encouraged to address any or all of the following questions. Comments that contain references to specific court cases, studies, and/or research should include copies of the referenced materials with the submitted comments. Commenters should include the name of the person or organization filing the comment, as well as a page number on each page of their submissions. All comments received are a part of the public record and will generally be posted on the NTIA website, <http://www.ntia.doc.gov/>, without change. All personal identifying information (for example, name or address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

D. What are the challenges to freedom of expression online?

E. What should be the role of all stakeholders globally—governments, companies, technical experts, civil society and end users—in ensuring free expression online?

F. What role can NTIA play in helping to reduce restrictions on the free flow of information over the internet and ensuring free expression online?

G. In which international organizations or venues might NTIA most effectively advocate for the free flow of information and freedom of expression? What specific actions should NTIA and the U.S. Government take?

H. How might NTIA better assist with jurisdictional challenges on the internet?

II. Multistakeholder Approach to Internet Governance

A. Does the multistakeholder approach continue to support an environment for the internet to grow and thrive? If so, why? If not, why not?

B. Are there public policy areas in which the multistakeholder approach works best? If yes, what are those areas and why? Are there areas in which the multistakeholder approach does not work effectively? If there are, what are those areas and why?

C. Are the existing accountability structures within multistakeholder internet governance sufficient? If not, why not? What improvements can be made?

D. Should the IANA Stewardship Transition be unwound? If yes, why and how? If not, why not?

E. What should be NTIA's priorities within ICANN and the GAC?

F. Are there any other DNS related activities NTIA should pursue? If yes, please describe.

G. Are there barriers to engagement at the IGF? If so, how can we lower these barriers?

H. Are there improvements that can be made to the IGF's structure,

organization, planning processes, or intercessional work programs? If so, what are they?

I. What, if any, action can NTIA take to help raise awareness about the IGF and foster stakeholder engagement?

J. What role should multilateral organizations play in internet governance?

III. Privacy and Security

A. In what ways are cybersecurity threats harming international commerce? In what ways are the responses to those threats harming international commerce?

B. Which international venues are the most appropriate to address questions of digital privacy? What privacy issues should NTIA prioritize in those international venues?

IV. Emerging Technologies and Trends

A. What emerging technologies and trends should be the focus of international policy discussions? Please provide specific examples.

B. In which international venues should conversations about emerging technology and trends take place? Which international venues are the most effective? Which are the least effective?

C. What are the current best practices for promoting innovation and investment for emerging technologies? Are these best practices universal, or are they dependent upon a country's level of economic development? How should NTIA promote these best practices?

For any response, commenters may wish to consider describing specific goals and actions that NTIA, the Department, or the U.S. Government in general, might take (on its own or in conjunction with the private sector) to achieve those goals; the benefits and costs associated with the action; whether the proposal is agency-specific or interagency; the rationale and evidence to support it; and the roles of other stakeholders.
