

SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** on April 20, 2018, pages 17558–17559 (83 FR 77) and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institute of Mental Health (NIMH), National Institutes of Health, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

In compliance with Section 3507(a)(1)(D) of the Paperwork

Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

Proposed Collection: NIH NeuroBioBank Tissue Access Request Form, 0925–0723, Expiration Date 07/31/2018, EXTENSION, National Institute of Mental Health (NIMH), National Institutes of Health (NIH).

Need and Use of Information Collection: This request serves as notice that the National Institute of Mental Health plans to continue supporting the research community studying neurological, developmental, and psychiatric disorders by coordinating access to human post-mortem brain tissue and related biospecimens stored

by our federation of networked brain and tissue repositories known as the NIH NeuroBioBank. To facilitate this process, researchers wishing to obtain brain tissue and biospecimens stored by the NIH NeuroBioBank must continue completing the NIH NeuroBioBank Tissue Access Request Form. The primary use of the information collected by this instrument is to document, track, monitor, and evaluate the appropriate use of the NIH NeuroBioBank resources, as well as to notify stakeholders of updates, corrections or changes to the system.

OMB approval is requested for 3 years. There are no costs to respondents' other than their time. The total estimated annualized burden hours are 56.

Transportation Security Administration

Intent To Request Extension From OMB of One Current Public Collection of Information: TSA Airspace Waiver Program

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652–0033, abstracted below that we will submit to OMB for an extension in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection of information allows TSA to conduct security threat assessments on individuals on board aircraft operating

in restricted airspace pursuant to an airspace waiver or flight authorization.

DATES: Send your comments by September 4, 2018.

ADDRESSES: Comments may be emailed to TSAPRA@tsa.dhs.gov or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA–11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598–6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227–2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Consistent with the requirements of Executive Order (E.O.) 13771, Reducing Regulation and Controlling Regulatory Costs, and E.O. 13777, Enforcing the Regulatory Reform Agenda, TSA is also requesting comments on the extent to which this request for information could be modified to reduce the burden on respondents.

Information Collection Requirement

OMB Control Number 1652–0033; TSA Airspace Waiver Program. TSA is seeking approval to extend this collection of information. The airspace waiver program allows U.S. and foreign general aviation aircraft operators to apply for approval to operate in U.S. restricted airspace, including over flying the United States and its territories. This program includes both processing of applications for airspace waivers and flight authorizations for the DCA Access Standard Security Program flights,

which requires name-based security threat assessments for all passengers, flight crews and armed security officers on board each flight. TSA uses the information to conduct security threat assessments of persons on these flights to protect against and mitigate threats to transportation security.

TSA collects information from applicants applying for a waiver or flight authorization either online via <https://waivers.faa.gov>, or by completing a waiver or flight authorization form requested via facsimile. It is recommended that applicants submit the request electronically within five business days prior to the start date of the flight. To obtain a waiver, the aircraft operator must submit information about the flight and provide certain information about all passengers and crew on board the flight for TSA to perform a security threat assessment on each individual. To obtain a flight authorization, the aircraft operator must submit information about all passengers, flight crews, and armed security officers on board each flight for TSA to perform a name-based security threat assessment on each individual. Specifically, waiver and flight authorization requests must include the purpose of the flight, the aircraft type and registration number, including aircraft operator's company name and address, and the proposed itinerary. Additionally, aircraft operators must provide the names, dates and places of birth, and Social Security or passport numbers of all passengers and crew, and, in the case of flight authorizations, armed security officers. The current estimated annual reporting burden is 7,078 hours.

Dated: June 28, 2018.

TSA Paperwork Reduction Act Officer, Office of Information Technology.

be modified to reduce the burden on respondents.

Information Collection Requirement

OMB Control Number 1652-0044; Department of Homeland Security (DHS) Traveler Redress Inquiry Program (DHS TRIP). DHS TRIP is a single point of contact for individuals who have inquiries or seek resolution regarding difficulties they have experienced during their travel screening. These difficulties could include: (1) Denied or delayed boarding; (2) denied or delayed entry into or departure from the United States at a port of entry; or (3) identified for additional (secondary) screening at our Nation's transportation facilities, including airports, seaports, train stations and land borders. The TSA manages the DHS TRIP office on behalf of DHS. To request redress, individuals are asked to provide identifying information, as well as details of their travel experience in two surveys.

The DHS TRIP office serves as a centralized intake office for traveler requests for redress and uses the online Traveler Inquiry Form (TIF) to collect requests for redress. DHS TRIP then passes the information to the relevant DHS TRIP practitioner office(s), including components of DHS, the U.S. Department of State, and the U.S. Department of Justice, to process the request, as appropriate. Participating DHS components include TSA, U.S. Customs and Border Protection, U.S. Immigration and Customs Enforcement, U.S. Citizenship and Immigration Services, the National Protection and Programs Directorate's Office of Biometric Information Management, Office of Civil Rights and Civil Liberties, and the Privacy Office, along with the U.S. Department of State, Bureau of Consular Affairs, and the U.S. Department of Justice, Terrorist Screening Center. This collection serves to distinguish misidentified individuals from an individual actually on any watch list that DHS uses, to initiate the correction of erroneous information about an individual contained in government-held records, which are leading to travel difficulties, and, where appropriate, to help streamline and expedite future check-in or border crossing experiences. It also serves to obtain information about the redress applicants' level of satisfaction with the DHS TRIP application process with the aim of using this information to identify areas for improvement.

DHS estimates completing the form, and gathering and submitting the information will take approximately one hour. The annual respondent population was derived from data
