[GX18DK20GUV0300; OMB Control Number 1028–0114]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; National Ground-Water Monitoring Network Cooperative Funding Application

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before August 23, 2018.

ADDRESSES: Send written comments on this information collection request (ICR) to the Office of Management and Budget's Desk Officer for the Department of the Interior by email at OIRA_Submission@omb.eop.gov; or via facsimile to (202) 395–5806. Please provide a copy of your comments to USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–0114 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Daryll Pope by email at dpope@usgs.gov or by telephone at (609) 771–3933. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: We, the USGS, in accordance with the Paperwork Reduction Act of 1995, provide the general public and other Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on March 5th, 2018 at 83 FR 9336. No comments were received.

We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The USGS is working with the Federal Advisory Committee on Water Information (ACWI) and its Subcommittee on Ground Water (SOGW) to develop and administer a National Ground-Water Monitoring Network (NGWMN). This network is required as part of Public Law 111–11, Subtitle F—Secure Water: Section 9507, 42 U.S.C. 10367, “Water Data Enhancement by United States Geological Survey.” The NGWMN will consist of an aggregation of wells from existing Federal, State, Tribal, and local groundwater monitoring networks. To support data providers for the NGWMN, the USGS will be providing funding through cooperative agreements to water-resource agencies that collect groundwater data. The USGS will be soliciting applications for funding that will request information from the Agency collecting the data. Elements will include contact information (phone number and email address), and a proposal describing their proposed work in support of the NGWMN. The proposal will describe the groundwater networks to be included in the NGWMN, the purpose of the networks, and the Principal aquifers that are monitored. Proposals may include work to become a new data provider to the NGWMN, support for maintaining connections to agency databases, and work to enhance NGWMN sites (updating metadata, performing well maintenance, and well drilling). The

proposal would also require estimates of costs to complete the above tasks and a timeline for planned completion. The proposal will be reviewed by the USGS and the NGWMN Program Board who will make funding recommendations.
