Lirio Liu,

Executive Director, Office of Rulemaking.

Petition for Exemption

Docket No.: FAA-2018-0175.

Petitioner: Headquarters Air Force Junior Reserve Officer Training Corps.

Section(s) of 14 CFR Affected: 61.103(a).

Description of Relief Sought: The United States Air Force (USAF) is seeking an exemption to allow 16-year-old Junior Reserve Officer Training Corps (JROTC) cadets to qualify for a private pilot certificate under the HQ Air Force JROTC Flight Academy scholarship program. The USAF states that it is petitioning the FAA for an exemption because the selection board can only qualify a limited number of high school sophomores due to the 17-year-old minimum age requirement for private pilot applicants. The USAF further states that the 7- to 9-week flight academy private pilot training program is accomplished between the sophomore and junior years of high school. According to the USAF, allowing 16-year-olds to qualify would increase the cadet candidate pool by 75%, thereby improving the quality of the candidates who could be selected.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Rescission of Notice of Intent (NOI) To Prepare an Environmental Impact Statement (EIS)

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: The FHWA is issuing this notice to advise the public that we are rescinding the September 26, 2013, NOI to prepare an EIS for a proposed project, the I-90 Tolling Project, to manage congestion and traffic flow on I-90 between I-5 and I-405, and contribute revenue to the sustainable, long-term funding for timely completion of the SR 520 Bridge Replacement and HOV Program and maintenance and future transportation improvements on I-90.

FOR FURTHER INFORMATION CONTACT: Lindsey Handel, Urban Transportation Engineer, Federal Highway Administration, Washington Division, 711 S. Capitol Way, Suite 501, Olympia, WA 98501; telephone: 360-753-9550; and email: lindsey.handel@dot.gov.

SUPPLEMENTARY INFORMATION: On September 26, 2013, FHWA published a Notice of Intent to prepare an EIS for the I-90 Tolling Project to manage congestion and traffic flow on I-90 between I-5 and I-405, and contribute revenue to the sustainable, long-term funding for timely completion of the SR 520 Bridge Replacement and HOV

Program and maintenance and future transportation improvements on I-90. The passage of the Connecting Washington state funding package in 2015 provided sufficient funding to complete the SR 520 Bridge Replacement, eliminating part of the purpose for this project. Any future I-90 tolling projects will progress under

a separate environmental review process in accordance with all applicable laws and regulations.

Issued on: August 13, 2018.

Daniel M. Mathis,

FHWA Division Administrator, Olympia, WA.
