DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Intent To Seek Approval To Collect Information

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget regulations, this notice announces the request of the Agricultural Research Service, permission to collect information from North Dakota landowners in nine counties, to gain their *perspective on their grasslands in the Northern Great Plains*. A mail survey composed of 42 questions will be mailed to landowners. Topics for which information will be collected from respondents include farm/ranch characteristics, land management style, land use practices, opinions about new grass species, opinions about Kentucky bluegrass and what producers are doing about it, Kentucky bluegrass management, and personal characteristics.

DATES: Comments on this notice must be received by October 23, 2018 to be assured of consideration.

ADDRESSES: Address all comments concerning this notice to David Toledo, Research Rangeland Management Specialist, USDA, ARS, 1701 10th Avenue SW, P.O. Box 459, Mandan North, Dakota 58554. Submit electronic comments to: david.toledo@ars.usda.gov.

FOR FURTHER INFORMATION CONTACT: David Toledo, Research Rangeland Management Specialist. Phone: 701-667-3063 or Fax: 701-667-3054.

SUPPLEMENTARY INFORMATION:

Title: Your Perspective on Your Grasslands in the Northern Great Plains.

OMB Number: 0518-XXXX.

Expiration Date:

Type of Request: To administer survey for data collection.

Abstract: A survey questionnaire will be mailed via U.S. Postal Service. The Survey consists of 42 questions about farm/ranch characteristics, land management style, land use practices, opinions about new grass species, opinions about Kentucky bluegrass and what producers are doing about it, Kentucky bluegrass management, and personal characteristics.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 15 minutes per response.

Respondents: A subset of landowners in each of the following North Dakota counties: Barnes County, Billings County, Burleigh County, Cass County, Golden Valley County, Kidder County, Morton County, Stark County, Stutsman County. Using 2012 Agricultural Census data it was determined that if landowners with farms greater than 1,000 acres are included as part of the sample, the population of potential respondents will be 2,191.

Estimated Number of Respondents: 718 with a margin of error 3 percent.

Estimated Total Annual Burden on Respondents: 179.5 hours.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who respond, including the use of appropriate automated, electronic, mechanical, or other technology. Comments should be sent to the address listed in the preamble. All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record.

Dated: August 15, 2018.

Simon Y. Liu,

Associate Administrator, Agricultural Research Service.

SUPPLEMENTARY INFORMATION:

Title: Contract Pilot and Aircraft Acceptance.

OMB Control Number: 0579-0298.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture, either independently or in cooperation with States, to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests and noxious weeds that are new to or not widely distributed within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS).

As part of this mission, APHIS' Plant Protection and Quarantine (PPQ) program responds to introductions of plant pests with eradication, suppression, or containment through various programs in cooperation with State departments of agriculture and other government agencies. These programs may include the aerial application of treatments to control plant pests.

APHIS contracts for these services and, prior to any aerial applications, requests certain information from the contractors and/or contract pilots to ensure that the work will be done according to specifications. Among other things, APHIS asks to see the aircraft registration, the aircraft's airworthiness certificate, the pilot's license, the pilot's medical certification, the pilot's proof of flight review, the pilot's pesticide applicator's license, and the aircraft logbook. Information from these documents and aircraft inspection results are consolidated by APHIS for signature by the APHIS official and the contractor or contract pilot, indicating acceptance of the pilot and aircraft for the job.

APHIS is revising the title of this information collection from PPQ Form 816, Contract Pilot and Aircraft Acceptance to Contract Pilot and Aircraft Acceptance to better represent this information collection.

We are asking the Office of Management and Budget (OMB) to

approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.25 hours per response.

Respondents: Contractors and/or contract pilots of aircraft.

Estimated annual number of respondents: 20.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 20.

Estimated total annual burden on respondents: 5 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 21st day of August 2018.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
