

Abstract: Natural Gas STAR is a voluntary program sponsored by the U.S. Environmental Protection Agency (EPA) that encourages oil and natural gas companies to adopt cost effective technologies and practice that improve operational efficiency and reduce methane emissions. Methane is the primary component of natural gas and a potent greenhouse gas. The Program works with oil and natural gas companies in the production, gathering & processing, transmission, and distribution sectors to remove barriers that inhibit the implementation of technologies and practices that reduce methane emissions. The Program effectively promotes the adoption of emission reduction technologies and practices by helping Natural Gas Star partners evaluate Best Management Practices (BMPs) and Partner Reported Opportunities (PROs) in the context of their current operations, and implement them where cost effective. Implementation of the Program's BMPs and PROs saves participants money, improves operational efficiency, and enhances the protection of the environment.

Form Numbers: Companies that wish to become Natural Gas STAR partners sign and submit an one-page Memorandum of Understanding (MOU) to EPA that describes the terms of participation in the Program. The MOU forms covered under this ICR include:

- Production Partners: EPA Form No. 5900–105
- Transmission Partners: EPA Form No. 5900–96
- Distribution Partners: EPA Form No. 5900–98
- Gathering and Processing Partners: EPA Form No. 5900–101

Partners agree to complete and submit a Natural Gas STAR Implementation Plan within six to twelve months of signing the MOU. The Implementation Plan forms covered under this ICR include:

- Production Partners: EPA Form No. 5900–103
- Transmission Partners: EPA Form No. 5900–109
- Distribution Partners: EPA Form No. 5900–97
- Gathering and Processing Partners: EPA Form No. 5900–100

After one full year of participation in the Program, partners submit an annual report documenting the previous year's methane emission reduction activities. The annual reporting forms covered under this ICR include:

- Production Partners: EPA Form No. 5900–104

- Transmission Partners: EPA Form No. 5900–95
- Distribution Partners: EPA Form No. 5900–99
- Gathering and Processing Partners: EPA Form No. 5900–102

Respondents/affected entities: The gathering and processing, production, transmission, and distribution sectors of the natural gas industry.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 92 (total).

Frequency of response: Annual and semi-annual.

Total estimated burden: 1,991 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$184,242 (per year), there are no capital/start-up costs or O&M costs associated with this information collection.

Changes in Estimates: EPA expects that the burden associated with the final ICR submission will decrease slightly due to the Program's maturity and participation of companies in the new Methane Challenge Program.

Dated: August 29, 2018.

Director, Climate Change Division.
