SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau is requesting generic clearance to conduct customer satisfaction research which may be in the form of mailed or electronic questionnaires and/or focus groups, telephone interviews, or web-based interviews.

The Census Bureau has ranked a customer-focused environment as one of its most important strategic planning objectives. The Census Bureau routinely needs to collect and analyze customer feedback about its products and services to better align them to its customers' needs and preferences. Several programs, products, and distribution channels have been designed and/or redesigned based on feedback from its various customer satisfaction research efforts.

Each research design is reviewed for content, utility, and user-friendliness by a variety of appropriate staff (including research design and subject-matter experts). The concept and design are tested by internal staff and a select sample of respondents to confirm its appropriateness, user-friendliness, and to estimate burden (including hours and cost) of the proposed collection of information. Collection techniques are discussed and included in the research, concept, and design discussion to define the most time-, cost-efficient and accurate collection media.

The clearance operates in the following manner: A block of burden hours is reserved at the beginning of the clearance period. The particular activities that will be conducted under the clearance are not specified in advance because they would not be known at the beginning of the clearance period. The Census Bureau provides detailed information to the Office of Management and Budget (OMB) about the specific activities a minimum of two weeks prior to the planned start date of the collection. OMB provides any comments it may have prior to the start date of the planned activity. At the end of each year, a report is submitted to OMB that summarizes the number of hours used as well as the nature and results of the activities completed under the clearance.

II. Method of Collection

This research may be in the form of mailed or electronic questionnaires and/or focus groups, telephone or web-based interviews.

III. Data

Foreign-Trade Zones Board

[B–55–2018]

Foreign-Trade Zone (FTZ) 207— Richmond, Virginia; Notification of Proposed Production Activity; Kaiser Aluminum Fabricated Products, LLC (Aluminum Extrusions); Richmond, Virginia

Kaiser Aluminum Fabricated Products, LLC (Kaiser) submitted a

notification of proposed production activity to the FTZ Board for its facility in Richmond, Virginia. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on August 29, 2018.

The applicant indicates that it will be submitting a separate application for FTZ designation at the Kaiser facility under FTZ 207. The facility is used for the production of aluminum extrusions for the automotive industry. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Kaiser from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status materials/components noted below, Kaiser would be able to choose the duty rates during customs entry procedures that apply to: Hollow profile tubes of aluminum alloys; bars and rods of aluminum alloys; rounded bars and rods of aluminum alloys; non-rounded bars and rods of aluminum alloys; and, tube pipe of aluminum alloys (duty rate ranges from 1.5% to 5.7%). Kaiser would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include alloyed aluminum logs and billets (duty-free). The request indicates that the materials/components are subject to special duties under Section 232 of the Trade Expansion Act of 1962 (Section 232), depending on the country of origin. The applicable Section 232 decision requires subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 17, 2018.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482-0473.

Dated: September 4, 2018.

Andrew McGilvray,
Executive Secretary.

Submission for OMB Review; Comment Request; Licensing Responsibilities and Enforcement

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of Industry and Security.

Title: Licensing Responsibilities and Enforcement.

Form Number(s): N/A.

OMB Control Number: 0694-0122.

Type of Review: Regular submission.

Estimated Total Annual Burden

Hours: 78,576.

Estimated Number of Respondents: 1,821,891.

Estimated Time per Response: 5 seconds to 2 hours.

Needs and Uses: This collection of information involves nine miscellaneous activities described in section 758 of the Export Administration Regulation (EAR) that are associated with the export of items controlled by the Department of Commerce. Most of these activities do not involve submission of documents to BIS but instead involve exchange of documents among parties in the export transaction to insure that each party understands its obligations under U.S. law. Others involve writing certain export control statements on shipping documents or reporting unforeseen changes in shipping and disposition of exported commodities. These activities are needed by the Office of Export Enforcement and the U.S. Customs Service to document export transactions, enforce the EAR and protect the National Security of the United States.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at [reginfo.gov](http://www.reginfo.gov) <http://www.reginfo.gov/public/> Follow the instructions to view Department of

Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov

SUPPLEMENTARY INFORMATION:

I. Background and Authority

The CINTAC was established on September 17, 2008, pursuant to the Department of Commerce authority under 15 U.S.C. 1512 and the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. The CINTAC functions solely as an advisory committee in accordance with the provisions of FACA. As noted in the **SUMMARY**, CINTAC provides advice to the Secretary of Commerce regarding the development and administration of programs to expand U.S. exports of civil nuclear goods and services which will be used by the Department in its role as a member of the Civil Nuclear Trade Working Group of the Trade Promotion Coordinating Committee and as a member of the Atoms for Prosperity interagency group to promote U.S. civil nuclear trade. In particular, the Committee advises on matters including, but not limited to:

(1) Matters concerning trade policy development and negotiations relating to U.S. civil nuclear exports;

(2) The effect of U.S. Government policies, regulations, programs, and foreign government policies and practices on the export of U.S. civil nuclear goods and services;

(3) The competitiveness of U.S. industry and its ability to compete for civil nuclear products and services opportunities in international markets, including specific problems in exporting, and provide specific recommendations regarding U.S. Government and public/private actions to assist civil nuclear companies in expanding their exports;

(4) The identification of priority civil nuclear products and services markets with the potential for high immediate returns for U.S. exports, as well as emerging markets with a longer-term potential for U.S. exports;

(5) Strategies to increase private sector awareness and effective use of U.S. Government export promotion programs, and recommendations on how U.S. Government programs may be more efficiently designed and coordinated;

(6) The development of complementary industry and trade association export promotion programs, including ways for greater and more effective coordination of U.S. Government efforts with private sector
