SUPPLEMENTARY INFORMATION:

A. Purpose

This information collection requirement, OMB Control No. 9000-0079, currently titled "Corporate Aircraft Costs," is proposed to be retitled "Travel Costs," due to consolidation with currently approved information collection requirement OMB Control No. 9000-0088, Travel Costs.

This information collection requirement pertains to information that a contractor must submit in response to the requirements in FAR 31.205-46:

1. FAR 31.205-46(a)(3)—In special or unusual situations, costs incurred by a contractor for lodging, meals, and incidental expenses, may exceed on a daily basis the per diem rates in effect as set forth in the Federal Travel Regulation (FTR) for travel in the conterminous 48 United States. The actual costs may be allowed only if the contractor provides the following:

a. FAR 31.205-46(a)(3)(ii)—A written justification for use of the higher amounts approved by an officer of the contractor's organization or designee to ensure that the authority is properly administered and controlled to prevent abuse.

b. FAR 31.205-46(a)(3)(iii)—Advance approval from the contracting officer if it becomes necessary to exercise the authority to use the higher actual expense method repetitively or on a continuing basis in a particular area.

c. FAR 31.205-46(a)(3)(iv)—Documentation to support actual costs incurred including a receipt for each expenditure of \$75.00 or more.

2. FAR 31.205-46(c) requires firms to maintain and make available manifest/logs for all flights on company aircraft. As a minimum, the manifest/log must indicate:

a. Date, time, and points of departure;
b. Destination, date, and time of arrival;

c. Name of each passenger and relationship to the contractor;

d. Authorization for trip; and

e. Purpose of trip.

The information required by (a) and (b) and the name of each passenger (required by (c)) are recordkeeping requirements already established by Federal Aviation Administration regulations. This information, plus the additional required information, is needed to ensure that costs of owned, chartered, or leased aircraft are properly charged against Government contracts and that directly associated costs of unallowable activities are not charged to Government contracts.

SUPPLEMENTARY INFORMATION:

A. Purpose

In accordance with FAR 16.4, incentive contracts are normally used when a firm fixed-price contract is not appropriate and the required supplies or services can be acquired at lower costs, and sometimes with improved delivery or technical performance, by relating the amount of profit or fee payable under the contract to the contractor's performance.

The information required periodically from the contractor, such as cost of work already performed, estimated costs of further performance necessary to complete all work, total contract price for supplies or services accepted by the Government for which final prices have been established, and estimated costs allocable to supplies or services accepted by the Government and for which final prices have not been established, is needed to negotiate the final prices of incentive-related items and services. Contractors are required to submit the information in accordance with several incentive fee FAR clauses: FAR 52.216–16, Incentive Price Revision—Firm Target; FAR 52.216–17, Incentive Price Revision—Successive Targets; and FAR 52.216–10, Incentive Fee.

The contracting officer evaluates the information received to determine the contractor's performance in meeting the incentive target and the appropriate price revision, if any, for the items or services.

SUPPLEMENTARY INFORMATION:

A. Purpose

The policies implemented at FAR 37.115, Uncompensated Overtime, are based on Section 834 of Public Law 101–510 (10 U.S.C. 2331). The policies require insertion of FAR provision 52.237–10, Identification of Uncompensated Overtime, in all solicitations valued at or above the simplified acquisition threshold, for professional or technical services to be acquired on the basis of the number of hours to be provided.

The provision requires that offerors identify uncompensated overtime hours, in excess of 40 hours per week, and the uncompensated overtime rate for direct charge Fair Labor Standards Act—exempt personnel. This permits Government contracting officers to ascertain cost realism of proposed labor rates for professional employees and discourages the use of uncompensated overtime.

B. Annual Reporting Burden

The burden placed on offerors is the time required to identify and support any hours in excess of 40 hours per week included in their proposal or subcontractor's proposal. It is estimated that there will be 27,546 service contracts awarded annually at \$150,000 or more, of which 65 percent, or 17,905, contracts will be competitively awarded. About seven proposals will be received for each contract award. Of the total 125,335 (17,905 × 7) proposals received, only 25 percent, or 31,334, proposals are expected to include uncompensated overtime hours. It is estimated that offerors will take about
