

database searches for the agencies in Component 1 and Component 2 and that these searches will take an average of 3 hours ($31 \times 4 \text{ hours} = 124 \text{ hours}$). OJJDP estimates that all 5 agencies selected for telephone debriefing in Component 1 will participate and the interviews will take an average of 20 minutes to complete ($5 \times 20 \text{ minutes} = 1.67 \text{ hours}$). OJJDP expects that all 10 of the law enforcement investigators selected to complete the Component 3 case detail telephone survey will participate and that the interview will take 30 minutes ($10 \times 30 \text{ minutes} = 5 \text{ hours}$). OJJDP estimates that 18 of the 20 investigators selected to complete the Component 3 case detail online survey will comply and that the instrument will take an average of 15 minutes ($18 \times 15 \text{ minutes} = 4.5 \text{ hours}$), 2 will decline ($2 \times 3 \text{ minutes} = 6 \text{ minutes}$). OJJDP expects that all 18 investigators who complete the online survey will agree to participate in the 20 minute debriefing telephone interview ($18 \times 20 \text{ minutes} = 6 \text{ hours}$). The total amount of time for the LES-FA pilot is 225.4 hours.

Burden Hours for Law Enforcement Survey—Missing Children (LES-MC) Pilot: The sample size for Components 1 and 2 of the pilot is 30 law enforcement investigators who will be asked to search for case of missing children occurring in a 1-month period. OJJDP estimates the search will take an average of 3 hours and that 28 will comply ($28 \times 3 \text{ hours} = 84 \text{ hours}$), 2 will decline ($2 \times 3 \text{ minutes} = 6 \text{ minutes}$). OJJDP estimates that database administrators for NCMEC and the MCCs associated with states in the sample will all agree to conduct database searches and that these searches will take an average of 4 hours ($31 \times 4 \text{ hours} = 124 \text{ hours}$). OJJDP estimates that all five agencies selected for telephone debriefing in Component 1 will participate and the interviews will take an average of 20 minutes to complete ($5 \times 20 \text{ minutes} = 1.67 \text{ hours}$). OJJDP expects that all 10 of the law enforcement investigators selected to complete the Component 3 case detail telephone survey will participate and that the interview will take 30 minutes ($10 \times 30 \text{ minutes} = 5 \text{ hours}$). OJJDP estimates that 18 of the 20 investigators selected to complete the Component 3 case detail online survey will comply and that the instrument will take an average of 15 minutes ($18 \times 15 \text{ minutes} = 4.5 \text{ hours}$), 2 will decline ($2 \times 3 \text{ minutes} = 6 \text{ minutes}$). OJJDP expects that all 18 investigators who complete the online survey will agree to participate in the 20 minute debriefing telephone interview ($18 \times 20 \text{ minutes} =$

6 hours). The total amount of time for the LES-MC pilot is 225.4 hours.

Burden Hours for National Law Enforcement Survey—Stereotypical Kidnappings (LES-SK): A total of 4,727 law enforcement agencies are included in the national stratified cluster sample of 400 PSUs (Primary Sampling Units). All of these agencies will receive the mail screener. OJJDP estimates that 2,836 (60 percent) of the law enforcement agencies will complete the screener by mail, based on the response rate for the mail screener obtained for NISMART-3. The great majority of these will have no stereotypical kidnapping cases during the 1-year timeframe of the survey and OJJDP estimates the average time to complete the mail screener to be 15 minutes ($2,836 \times 15 \text{ minutes} = 709.05 \text{ hours}$), 1,891 will not respond by mail ($1,891 \times 3 \text{ minutes} = 94.54 \text{ hours}$). OJJDP estimates that 1,229 (26 percent) of the law enforcement agencies will complete the mail screener by telephone, based on the percentage of mail screeners completed by telephone in NISMART-3. OJJDP estimates that the time to complete the screener by telephone will be 4 minutes ($1,229 \times 4 \text{ minutes} = 81.9 \text{ hours}$), and 662 will not respond ($662 \times 3 \text{ minutes} = 33.1 \text{ hours}$). OJJDP estimates that 204 cases will be identified that appear to meet the definition of a qualifying stereotypical kidnapping case. The estimate is based on the number of cases identified in NISMART-3 for telephone followup from the mail screener and searches of other databases. Investigators of these cases will be asked to complete the online survey about case details. OJJDP estimates that 161 (79 percent) of the law enforcement officers will complete the case detail online instrument (estimate again based on the percentage of investigators who completed this component for NISMART-3) with 145 (90 percent) completing online. OJJDP estimates that the instrument will take an average of 40 minutes to complete ($145 \times 40 \text{ minutes} = 96.6 \text{ hours}$), 59 will not respond online ($59 \times 3 \text{ minutes} = 2.95 \text{ hours}$). OJJDP estimates that 16 (10 percent) of the 161 law enforcement officers who complete the detailed case survey will do it via telephone interview and that the interview will take 60 minutes ($16 \times 60 \text{ minutes} = 16 \text{ hours}$), and that 43 will not respond ($43 \times 3 \text{ minutes} = 2.15 \text{ hours}$). OJJDP estimates the time for NCMEC and state MCCs database administrators to conduct a database search of any stereotypical kidnapping cases in their states to be 4 hours and expect that all NCMEC and the state MCCs in the 49 states where the sampled PSUs are

located will participate ($50 \times 4 \text{ hour} = 200 \text{ hours}$). The total amount of time for the National LES-SK study is 1,236.5 hours.

6. *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 1,712 total burden hours (1,259 hours for law enforcement investigators and 453 hours for NCMEC and MCC database administrators) associated with the three pilot studies and the national LES-SK study.

SUPPLEMENTARY INFORMATION:

Background

Section 4204 of the Employee Retirement Income Security Act of 1974, as amended by the Multiemployer Pension Plan Amendments Act of 1980 ("ERISA" or "the Act"), provides that a bona fide arm's-length sale of assets of a contributing employer to an unrelated party will not be considered a withdrawal if three conditions are met. These conditions, enumerated in section 4204(a)(1)(A)–(C), are that:

(A) The purchaser has an obligation to contribute to the plan with respect to the operations for substantially the same number of contribution base units for which the seller was obligated to contribute;

(B) the purchaser obtains a bond or places an amount in escrow, for a period of five plan years after the sale, in an amount equal to the greater of the seller's average required annual contribution to the plan for the three plan years preceding the year in which the sale occurred or the seller's required annual contribution for the plan year
