Appendix I—Scope of the Investigation

The merchandise covered by this investigation is aluminum common alloy sheet (common alloy sheet), which is a flat-rolled aluminum product having a thickness of 6.3 mm or less, but greater than 0.2 mm, in coils or cut-to-length, regardless of width. Common alloy sheet within the scope of this investigation includes both not clad aluminum sheet, as well as multi-alloy, clad aluminum sheet. With respect to not clad aluminum sheet, common alloy sheet is manufactured from a 1XXX-, 3XXX-, or 5XXX-series alloy as designated by the Aluminum Association. With respect to multi-alloy, clad aluminum sheet, common alloy sheet is produced from a 3XXX-series core, to which cladding layers are applied to either one or both sides of the core.

Common alloy sheet may be made to ASTM specification B209–14, but can also be made to other specifications. Regardless of specification, however, all common alloy sheet meeting the scope description is included in the scope. Subject merchandise includes common alloy sheet that has been further processed in a third country, including but not limited to annealing, tempering, painting, varnishing, trimming, cutting, punching, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the common alloy sheet.

Excluded from the scope of this investigation is aluminum can stock, which is suitable for use in the manufacture of aluminum beverage cans, lids of such cans, or tabs used to open such cans. Aluminum can stock is produced to gauges that range from 0.200 mm to 0.292 mm, and has an H–19, H–41, H–48, or H–391 temper. In addition, aluminum can stock has a lubricant applied to the flat surfaces of the can stock to facilitate its movement through machines used in the manufacture of beverage cans. Aluminum can stock is properly classified under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7606.12.3045 and 7606.12.3055.

Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set for the above.

Common alloy sheet is currently classifiable under HTSUS subheadings

7606.11.3060, 7606.11.6000, 7606.12.3090, 7606.12.6000, 7606.91.3090, 7606.91.6080, 7606.92.3090, and 7606.92.6080. Further, merchandise that falls within the scope of this investigation may also be entered into the United States under HTSUS subheadings 7606.11.3030, 7606.12.3030, 7606.91.3060, 7606.91.6040, 7606.92.3060, 7606.92.6040, 7607.11.9090. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Diamond Sawblades and Parts Thereof From the People's Republic of China: Preliminary Affirmative Determination of Circumvention

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that Diamond Tools Technology (Thailand) Co., Ltd. (Diamond Tools) is circumventing the antidumping duty order on diamond sawblades and parts thereof (diamond sawblades) from the People's Republic of China (China).

DATES: Applicable November 15, 2018.

FOR FURTHER INFORMATION CONTACT: Yang Jin Chun, AD/CVD Operations Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-5760.

SUPPLEMENTARY INFORMATION:

Background

On December 7, 2017, in response to a request from Diamond Sawblades Manufacturers' Coalition (the petitioner), Commerce published the initiation of the anti-circumvention inquiry to determine whether certain imports of diamond sawblades comprised of cores and segments produced in China and joined into diamond sawblades in, and exported from, Thailand by Diamond Tools are circumventing the antidumping duty order on diamond sawblades from China.¹

Scope of the Order

The merchandise subject to the order is diamond sawblades. The diamond sawblades subject to the order are currently classifiable under subheadings 8202 to 8206 of the Harmonized Tariff Schedule of the United States (HTSUS), and may also enter under subheading 6804.21.00. The HTSUS subheadings are provided for convenience and customs purposes. A full description of the scope of the order is contained in the Preliminary Decision Memorandum.² The written description is dispositive.

Scope of the Anti-Circumvention Inquiry

We initiated this anti-circumvention inquiry to cover diamond sawblades produced in Thailand by Diamond Tools with cores and segments produced in China and subsequently exported from Thailand to the United States.³ During the conduct of this anti-circumvention inquiry, Diamond Tools reported that, in addition to diamond sawblades produced in Thailand with cores and segments produced in China, it also produced diamond sawblades with either Chinese cores and Thai segments or Thai cores and Chinese segments.⁴ Based on the additional information we received from Diamond Tools, and as further discussed in the Preliminary Analysis Memorandum,⁵ we are also examining whether diamond sawblades produced in Thailand by Diamond Tools with either cores or segments produced in China are circumventing the order.

Methodology

Commerce is conducting this anti-circumvention inquiry in accordance with section 781(b) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.225(h). Because China is a non-market economy country within the meaning of section 771(18) of the Act, Commerce relied on surrogate values to value the purchases of Chinese cores and Chinese segments, as discussed in section 773(c) of the Act. For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a
