

Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subjected to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," prior to any FAA final regulatory action.

I. Introduction

On November 16, 2018, the Postal Service filed a request for the Commission to consider the application of the market dominant price cap to rates for Inbound Letter Post and certain other inbound international market dominant products.¹ The Postal Service requests that the Commission replace the price cap treatment with an "evaluation of whether price changes for these services promote the objectives in [39 U.S.C.] [s]ection 3622(b), taking into account the factors in [s]ection 3622(c)." Petition at 2. The Commission initiates this rulemaking to seek comments and facilitate the Commission's examination into ratemaking procedures for Inbound Letter Post and related international services.

II. Background

At the same time it filed the instant Petition, the Postal Service filed a concurrent request seeking to transfer a portion of Inbound Letter Post (and inbound registered services associated with those items) to the competitive product list.² The Postal Service states that it intends for the instant Petition to cover only the related products

remaining on the market dominant product list upon resolution of the Transfer Request. Petition at 2, n.4.

The Postal Service states that the recommendation to adopt self-declared rates for terminal dues,³ made by the Department of State and endorsed by the President, creates uncertainty regarding the rates going forward. See Petition at 1, nn.1, 2; 2-3. The Postal Service further notes that the Department of State's negotiations could result in a decision to rescind withdrawal from the Universal Postal Union (UPU), but it is impossible to predict to what extent terminal dues would be self-declared or set by the UPU. Petition at 2-3. The Postal Service suggests that although the Commission's review of the market dominant ratemaking system is pending, to the extent that a market dominant price cap currently applies or is maintained in some form, there should be an exception for generally applicable rates set by the Postal Service that are paid by foreign postal operators. *Id.* at 4. The Postal Service states that its requested treatment of Inbound Letter Post rates should apply whether the rates are self-declared or not. *Id.* at 5.

III. Petition

The Postal Service requests that the Commission reconsider its decision in Order No. 43, in which it held that Inbound Letter Post must be classified as a market dominant product.⁴ The Postal Service states that changes in circumstances, including "a significant shift in U.S. Government policy toward Inbound Letter Post," warrant a reconsideration of the decision to apply the market dominant price cap to inbound international products. See Petition at 5-9. The Postal Service states that the Postal Accountability and Enhancement Act's intent was to protect individual domestic customers, rather than foreign postal operators.⁵

The Postal Service proposes a regulatory system for Inbound Letter Post wherein the Commission would apply the objectives and factors listed in 39 U.S.C. 3622(b) and 3622(c) as standards for review of inbound international rate adjustments. Petition at 2, 9. The Postal Service suggests that this review can occur after-the-fact,

³ Terminal dues refer to payments by foreign postal operators to the Postal Service for delivery of Inbound Letter Post in the United States.
