Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Metal Coil Surface Coating Plants (40 CFR part 63, subpart SSSS) apply to existing facilities and new facilities that are major sources of hazardous air pollutants (HAP) at which a coil coating line is operated. A coil coating line is a process in which special equipment is used to apply an organic coating to the surface of metal coils; the affected source at each plant site is the collection of all coil coating lines at the site. The provisions of this Subpart do not apply to coil coating lines that are part of research or laboratory equipment or coil coating lines on which at least 85 percent of the metal coil coated, based on surface area, is less than 0.15 millimeters (0.006 inches) thick, unless the coating line is controlled by a common control device. New facilities include those that commenced construction or reconstruction after the date of proposal.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart SSSS.

Form Numbers: None.

Respondents/affected entities:

Facilities engaged in metal coil surface coating.

Respondent's obligation to respond: Mandatory (40 CFR 63, Subpart SSSS).

Estimated number of respondents: 48 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 16,100 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,820,000 (per year), which includes \$57,600 in annualized capital/setup and/or operation & maintenance costs.

Changes in the estimates: There is a decrease in the total estimated burden and the number of responses as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The decrease is a result of an adjustment made to the estimated number of respondents based on data from internal Agency experts. The total number of respondents is significantly reduced since the last ICR renewal based on the delisting of methyl ethyl ketone as a HAP.

Synopsis

1. On March 23, 2018, the President signed into law the Consolidated Appropriations Act of 2018, which included the Reimbursement Expansion Act (REA) of 2018. In Title V of REA of 2018, Congress provided funding for and expanded the list of entities eligible to receive reimbursement for costs reasonably incurred resulting from the incentive auction to include LPTV, television translator and FM stations. To implement the REA, the Commission released a *Notice of Proposed Rulemaking* (MB Docket No. 18-214, GN Docket No. 12-268, Notice of Proposed Rulemaking and Order, FCC 18-113) that, among other things, seeks comment on the types of costs these entities are likely to incur and instructs the Media Bureau to develop a revised Catalog of Eligible Expenses. Accordingly, this *Public Notice* seeks comment on a proposed LPTV/Translator/FM Cost Catalog (Appendix A to this *Public Notice*), which was developed by a third-party contractor engaged by the Media Bureau to identify price ranges for potential services and equipment based on a market survey of industry vendors.

2. The LPTV/Translator/FM Cost Catalog will facilitate the reimbursement process. The LPTV/Translator/FM Cost Catalog provides predetermined costs or cost ranges for use as estimates when stations do not have vendor quotes, and establishes acceptable price ranges, thereby necessitating additional cost justification documentation only for expenses that are higher than the range in the Catalog or that are for equipment or services not covered by the LPTV/Translator/FM Cost Catalog. This *Public Notice* seeks comment on whether the Catalog is missing any types of expenses LPTV, translator and FM stations are likely to incur and on the price ranges in the Catalog.
