

involved in emergency response operations without regard to location. This ICR renews existing mandatory record keeping collection of ongoing activities including monitoring of any potential employee exposure at uncontrolled hazardous waste sites, maintaining records of employee training, refresher training, medical exams and reviewing emergency response plans.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those State and local employees engaged in hazardous waste operations and emergency response in the 27 States that do not have Occupational Health & Safety Administration (OSHA) approved State plans.

Respondent's obligation to respond: 40 CFR 311 has no reporting requirements. There are record keeping requirements by inference in Section (e) and by statute in Section (f)[8] of OSHA's 29 CFR 1910.120.

Estimated total number of respondents: 24,000.

Frequency of response: Annually recordkeeping. No response required to Agency.

Estimated total annual burden hours: 255,427 hours.

Estimated total annual costs: \$3,528,888, which is entirely for labor. There are no capital investment or maintenance and operational costs.

Changes in estimates: These burden estimates reflect what is currently approved by OMB, without change. EPA will provide revised burden estimates when the second comment period for this ICR is opened. However, as the universe and regulations have not changed, EPA does not anticipate any substantive changes to the burden figures.

Dated: November 15, 2018.

James E. Woolford,

Director, Office of Superfund Remediation and Technology Innovation.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Technical Assistance Needs Assessments (TANAs) at Superfund Remedial or Removal Sites (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Technical Assistance Needs Assessments (TANAs) at Superfund Remedial or Removal Sites (EPA ICR No. 2470.02, OMB Control No. 2050-0211), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2018. Public comments were previously requested via the **Federal Register** on September 19, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 27, 2018.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-SFUND-2012-0578, to (1) EPA online using www.regulations.gov (our preferred method), by email to shewack.robert@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Robert Shewack, Office of Site Remediation and Restoration, (OSRR01-5), Environmental Protection Agency, Region 1, 5 Post Office Square, Suite 100, Boston, MA 02109-3912; telephone number: (617) 918-1428; fax number: (617) 918-0428; email address: shewack.robert@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at

www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR covers the usage of TANAs with members of the impacted community in order to determine how the community is receiving technical information about a Superfund remedial or removal site; whether the community needs additional assistance in order to understand and respond to site-related technical information; and whether there are organizations in the community that are interested or involved in site-related issues and capable of acting as an appropriate conduit for technical assistance services to the affected community. Given the specific nature of the TANA, 8 to 10 persons are expected be interviewed per site, with an estimated total of 250 persons being interviewed per year (25 sites). Responses to the collection of information are voluntary and the names of respondents will be protected by the Privacy Act. The TANA will help ensure the community's needs for technical assistance are defined as early in the remedial/removal process as possible and enable meaningful community involvement in the Superfund decision-making process. Additionally, the TANA process produces a blueprint for designing a coordinated effort to meet the community's needs for additional technical assistance while minimizing the overlap of services provided.

Form numbers: None.

Respondents/affected entities: Local/state government officials and individual community members who may be impacted by a Superfund site or a removal action lasting 120 days or longer. These community members voluntarily participate in community involvement activities throughout the remedial phase of the Superfund process.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 250 (total).

Frequency of response: Once during the remediation of the Site. Each TANA interview is expected to last approximately one hour in duration.

Total estimated burden: 250 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$5,812 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: No change in the total estimated respondent burden is expected when compared with the ICR currently approved by OMB.

Courtney Kerwin,

Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Other Solid Waste Incineration Units (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Other Solid Waste Incineration Units (EPA ICR Number 2163.06, OMB Control Number 2060-0563), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2018. Public comments were previously requested, via the **Federal Register** on June 29, 2017, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 27, 2018.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0094, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to doCKET.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for Other Solid Waste Incineration (OSWI) Units (40 CFR part 60, subpart EEEE) apply to very small municipal waste combustion units and institutional waste incineration units. A new incineration unit subject to this subpart should meet either one of two criteria: (1) Commenced construction after December 9, 2004; or (2) commenced reconstruction or modification either on or after June 16, 2006. A very small municipal waste combustion unit is any municipal waste combustion unit that has the capacity to combust less than 35 tons per day of municipal solid waste or refuse-derived fuel. An institutional waste incineration unit is any combustion unit that combusts institutional waste and is a distinct operating unit of the institutional facility that generated the waste. Institutional waste is solid waste that is combusted at any institutional facility using controlled flame combustion in an enclosed, distinct operating unit: Whose design does not provide for energy recovery; operated without energy recovery; or operated with only waste heat recovery. Institutional waste also means solid waste combusted on site in an air curtain incinerator that is a distinct operating unit of any institutional facility. In general, all NSPS standards require initial

notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 60, subpart EEEE.

Form numbers: None.

Respondents/affected entities: OSWI units, which include two subcategories: VSMWC units that combust less than 35 tons per day of waste and IWI units.

Respondent's obligation to respond: Mandatory (40 CFR part 60 Subpart EEEE).

Estimated number of respondents: 110 (total).

Frequency of response: Initially, semiannually and annually.

Total estimated burden: 80,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$11,900,000 (per year), which includes \$2,720,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an increase in the labor hours or cost in this ICR compared to the previous ICR. The adjustment increase in burden from the most-recently approved ICR is due to an increase in the number of new or modified sources anticipated to be subject to the standard over the three-year period. The adjustment increase in burden is due to more accurate estimates of anticipated new sources: Based on Agency review, knowledge, and experience with the NSPS program and source category, and the growth rate for the industry should account for conservative growth and minimal burden. The overall result is an increase in burden hours and costs.

Courtney Kerwin,

Director, Regulatory Support Division.
