SUPPLEMENTARY INFORMATION:

I. Background

Each operator of a surface coal mine is required under 30 CFR 77.1000 to establish and follow a ground control plan for highwalls, pits, and spoil banks that is consistent with prudent engineering design and which will ensure safe working conditions. The mine operator is required by section 77.1000–1 to file the ground control plan with the appropriate District Manager. The mining methods employed by the operator are selected to ensure highwall, pit, and spoil bank stability. In the event of a highwall failure or material dislodgment, there may be very little time to escape possible injury; therefore, preventive measures must be taken. Each plan is based on the type of strata expected to be encountered, the height and angle of highwalls and spoil banks, and the equipment to be used at the mine. The plan is used to show how the mine operator will maintain safe working conditions around the highwalls, pits,

and spoil banks. Each plan is reviewed by MSHA to ensure that highwalls, pits, and spoil banks are maintained in a safe condition through the use of sound engineering design.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Ground Control for Surface Coal Mines and Surface Work Areas of Underground Coal Mines. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at USDOL—Mine Safety and Health Administration, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Sign in at the receptionist's desk on the 4th floor via the East elevator.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Ground Control for Surface Coal Mines and Surface Work Areas of Underground Coal Mines. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

BILLING CODE P

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Privacy Act of 1974; System of Records

AGENCY: Office of the Director of
 National Intelligence (ODNI).

ACTION: Notice of a new system of
 records.

SUMMARY: ODNI provides notice that it
 is establishing one new Privacy Act
 system of records at the National
 Counterintelligence and Security Center
 (NCSC). This new system of records is
 titled the NCSC Continuous Evaluation
 System, also identified as ODNI/NCSC–
 003. This notice is necessary to inform
 the public of the existence and character
 of records that the agency maintains.

Continuous Evaluation (CE) is a
 personnel security investigative process
 used to review the continued eligibility
 of individuals who have been
 determined eligible for access to
 classified information or to hold a
 sensitive position. Individuals subject to
 CE include current Executive Branch
 employees, detailees, contractors, and
 other sponsored individuals who are
 cleared for access to classified
 information or to hold a sensitive
 position. The Departments and Agencies
 (D/As) that sponsor these individuals
 for access to classified information or to
 hold a sensitive position “enroll” the
 individuals (enrollees) for CE by
 electronically entering their identifying
 information into a technical system that
 carries out the CE capability.

All D/As are required to submit their
 qualifying populations to CE. D/As may
 choose to develop a technical CE system
 of their own, or subscribe to CE services
 provided by another agency. The ODNI/
 NCSC will provide CE services to
 subscribing agencies. The NCSC CE
 System leverages electronic checks of

government and commercial databases
 and, based on automated business rules,
 transmits alerts and reports to the
 enrolling D/A. Datasets queried in the
 CE process are those that contain
 security-relevant information, *e.g.*,
 government-owned financial, law
 enforcement, terrorism, foreign travel,
 and current clearance status
 information. Credit data and
 commercially-obtained aggregated data
 also is utilized. On receipt of the
 electronic prompt, the personnel
 security function at the enrolling agency
 verifies that the alert or report received
 pertains to the enrollee (the subject of
 the electronic queries). Where the
 agency verifies that the alert or report
 pertains to the enrollee, appropriate
 personnel security officials review the
 nature of the alert or report to determine
 the need for further investigation, as
 dictated by Federal Investigative
 Standards requirements. Information
 obtained through the follow-on
 investigation is considered in
 adjudicating the enrollee’s continued
 eligibility for access to classified
 information or to hold a sensitive
 position.

The NCSC CE System retains the
 enrollment information (personal
 identifiers as provided by the enrolling
 D/A) in order to facilitate ongoing CE
 checks. The system does not retain the
 records returned from the electronic
 database queries beyond the time
 needed to ensure proper electronic
 delivery to the enrolling agency. Data
 necessary to implement CE business
 rules, to perform program assessments,
 and to satisfy auditing requirements will
 be retained.

D/As conducting CE will adhere to
 the principles articulated in the Security
 Executive Agent Directive (SEAD)
 relating to CE (*i.e.*, SEAD 6). A SEAD
 provides high level guidance and
 instruction for the conduct of a
 personnel security process. SEAD 6
 establishes policy and requirements
 specifically related to CE.

DATES: This System of Records will go
 into effect on December 31, 2018, unless
 comments are received that result in a
 contrary determination.

ADDRESSES: You may submit comments
 by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>.

Email: transparency@dni.gov.

Mail: Director, Information
 Management Division, Strategy &
 Engagement, ODNI, Washington, DC
 20511.

FOR FURTHER INFORMATION CONTACT:

Director, Information Management
 Division, Strategy & Engagement, Office

of the Director of National Intelligence,
 at the addresses provided above.

SUPPLEMENTARY INFORMATION: The NCSC
 CE System implements the requirements
 of Executive Orders 12968, as amended
 (Access to Classified Information) and
 13467, as amended, (Reforming
 Processes Related to Suitability for
 Government Employment, Fitness for
 Contractor Employees, and Eligibility
 for Access to Classified National
 Security Information).

To protect classified and sensitive
 personnel or law enforcement
 information covered by this new system
 of records, the Director of National
 Intelligence (DNI) is proposing to
 exempt this system from certain
 requirements of the Privacy Act where
 necessary, as permitted by law.
 Accordingly, as required by the Privacy
 Act, a proposed rule is being published
 concurrently with this notice seeking
 public comment regarding exemptions
 claimed for this system. By previously
 established rule, the DNI may exercise
 derivative exemption authority by
 preserving the exempt status of records
 received from providing agencies when
 the reason for the exemption remains
 valid. See 32 CFR part 1701.20 (a)(2) (73
 FR 16531, 16537).
