

manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

II. Summary of Petition

J.K. Technologies, LLC (JK), of Baltimore, Maryland (Registered Importer R-90-006) has petitioned NHTSA to decide whether nonconforming MY 2011 Mercedes-Benz GL550 CMVSS-certified MPVs are eligible for importation into the United States. The vehicles which JK believes are substantially similar are MY 2011 Mercedes-Benz GL550 MPVs sold in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared the CMVSS-certified MY 2011 Mercedes-Benz GL550 CMVSS certified MPVs to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

The petitioner submitted information with its petition intended to demonstrate that the subject non-U.S.-certified vehicles as, originally manufactured, conform to many applicable FMVSS in the same manner as their U.S.-certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that the non-U.S.-certified MY 2011 Mercedes-Benz GL550 CMVSS certified MPVs, as originally manufactured, conform to: Standard Nos. 102 *Transmission Shift Position Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104

Windshield Wiping and Washing Systems, 106 *Brake Hoses*, 108 *Lamps, Reflective Devices and Associated Equipment*, 110 *Tire Selection and Rims and Motor Home/Recreation Vehicle Trailer Load Carrying Capacity Information for Motor Vehicles with a GVWR of 4,536 Kilograms (10,000 pounds) or Less*, 111 *Rearview Mirrors*, 113 *Hood Latch System*, 114 *Theft Protection and Rollaway Prevention*, 116 *Motor Vehicle Brake Fluids*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 124 *Accelerator Control Systems*, 126 *Electronic Stability Control Systems*, 135 *Light Vehicle Brake Systems*, 201 *Occupant Protection in Interior Impact*, 202a *Head Restraints; Mandatory Applicability Begins on September 1, 2009*, 203 *Impact Protection for the Driver from the Steering Control System*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 208 *Occupant Crash Protection*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance; Applicable unless a Vehicle is Certified to § 571.216a*, 219 *Windshield Zone Intrusion*, 225 *Child Restraint Anchorage Systems*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

The petitioner also contends that the subject non-U.S.-certified passenger cars are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: Replacement of the instrument cluster with the U.S.-model component and reprogramming of its software as described in the petition. In addition, replacement of the engine start control push button switch with the U.S.-model component to correct the labeling to meet the requirements of the standard.

Standard No. 138 *Tire Pressure Monitoring Systems*: Replacement or addition of U.S.-model TPMS components and the wiring harness, and then reprogramming of the vehicle ECUs as necessary to meet the requirements of the standard as described in the petition and shown in its attachments. The certifying manufacturer, Mercedes Benz, stated in a letter provided by the petitioner that they do not provide a retrofit or conversion to render this vehicle compliant with this specific standard. NHTSA is, therefore, specifically seeking public comment on whether the petitioner's proposed approach to conforming the subject vehicles to FMVSS No. 138 is capable of achieving conformity.

The petitioner further states that labels will be affixed to conform the vehicle to the requirements of 49 CFR parts 565 and 567, *VIN Content and Certification*, respectively.

SUPPLEMENTARY INFORMATION:

I. History: Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

II. Summary of Petition: Wallace Environmental Testing Laboratories (WETL), of Houston, Texas (Registered Importer R-90-005) has petitioned NHTSA to decide whether nonconforming MY 2016 Mercedes-Benz GL500 MPVs are eligible for importation into the United States. The vehicles which WETL believes are substantially similar are MY 2016 Mercedes-Benz GL550 MPV sold in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared non-U.S.-certified MY 2016 Mercedes-Benz GL500 MPVs to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

The petitioner submitted information with its petition intended to demonstrate that the subject non-U.S.-certified vehicles, as originally manufactured, conform to many applicable FMVSS in the same manner as their U.S.-certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that the non-U.S.-certified MY 2016

Mercedes-Benz GL500 MPVs, as originally manufactured, conforms to: Standard Nos. 102 *Transmission Shift Position Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 110 *Tire Selection and Rims and Motor Home/Recreation Vehicle Trailer Load Carrying Capacity Information for Motor Vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or Less*, 113 *Hood Latch System*, 116 *Motor Vehicle Brake Fluids*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 124 *Accelerator Control Systems*, 126 *Electronic Stability Control Systems for Light Vehicles*, 135 *Light Vehicle Brake Systems*, 138 *Tire Pressure Monitoring Systems*, 201 *Occupant Protection in Interior Impact*, 202a *Head Restraints; Mandatory Applicability Begins on September 1, 2009*, 203 *Impact Protection for the Driver from the Steering Control System*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance, Applicable unless a Vehicle is Certified to § 571.216a*, 219 *Windshield Zone Intrusion*, 225 *Child Restraint Anchorage Systems*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

The petitioner also contends that the subject non-U.S.-certified MPVs are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays:* The brake warning telltale must be modified to show the word "BRAKE" when activated.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:* The headlamps and front side marker lamps must be removed and replaced with conforming lamps.

Standard No. 111 *Rearview Mirrors:* The passenger side mirror must be replaced with a U.S.-model that includes the required warning label.

Standard No. 114 *Theft Protection and Rollaway Prevention:* Installation of the U.S.-model anti-theft system to activate the key warning, audible alarm.

Standard No. 208 *Occupant Crash Protection:* Inspection to ascertain if the software and firmware installed in the vehicle are the same as the most up-to-date versions installed in the U.S.-conforming version of the vehicle. Replacement of any software or

firmware found not to be the most recent version.

The petitioner further states that labels will be affixed to conform the vehicle to the requirements of 49 CFR parts 565 and 567, *VIN Content and Certification*, respectively.

III. Comments: All comments and supporting materials received before the close of business on the closing date indicated above will be filed in the docket and considered. Comments filed after the closing date will also be considered to the fullest extent possible and available for examination in the docket at the above **ADDRESSES**.

Once the petition is granted or denied, notice of the decision will be published in the **Federal Register** pursuant to the authority indicated at the end of this notice.

This notice of receipt of the subject petition does not represent any agency decision or other exercise of judgment concerning the merits of the petition. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.
