#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

This information collection requirement, OMB Control No. 9000-0149, currently titled "Subcontract Consent," is proposed to be retitled "Subcontract Consent and Contractors' Purchasing System Review," due to consolidation with currently approved information collection requirement OMB Control No. 9000-0132, Contractors' Purchasing System Review.

This clearance covers the information that a contractor must submit to comply with the requirements in Federal Acquisition Regulation (FAR) 52.244-2, Subcontracts, regarding consent to subcontract, advance notification, and Contractors' purchasing system review as follows:

1. *Consent to subcontract.* This is the contracting officer's written consent for the prime contractor to enter into a particular subcontract. In order for the contracting officer responsible for consent to make an informed decision, the prime contractor must submit adequate information to ensure that the

proposed subcontract is appropriate for the risks involved and consistent with current policy and sound business judgment. The review allows the Government to determine whether the contractor's purchasing policies and practices are efficient and adequately protect the Government's interests.

If the contractor has an approved purchasing system, consent is required for subcontracts specifically identified by the contracting officer in the subcontracts clause of the contract. The contracting officer may require consent to subcontract if the contracting officer has determined that an individual consent action is required to protect the Government adequately because of the subcontract type, complexity, or value, or because the subcontract needs special surveillance. These can be subcontracts for critical systems, subsystems, components, or services.

If the contractor does not have an approved purchasing system, consent to subcontract is required for cost-reimbursement, time-and-materials, labor-hour, or letter contracts, and also for unpriced actions under fixed-price contracts that exceed the simplified acquisition threshold.

2. *Advance notification.* Prime contractors must provide contracting officers notification before the award of any cost-plus-fixed-fee subcontract, or certain fixed-price subcontracts. This requirement for advance notification is driven by statutory requirements in 10 U.S.C. 2306 and 41 U.S.C. 3905.

3. *Contractors' Purchasing System Review.* The objective of a contractor purchasing system review (CPSR), is to evaluate the efficiency and effectiveness with which a contractor spends Government funds and complies with Government policy when subcontracting.

Paragraph (i) of FAR clause 52.244-2 specifies that the Government reserves the right to review the contractor's purchasing system as set forth in FAR subpart 44.3. FAR 44.302 requires the administrative contracting officer (ACO) to determine the need for a CPSR based on, but not limited to, the past performance of the contractor, and the volume, complexity and dollar value of subcontracts. If a contractor's sales to the Government (excluding competitively awarded firm-fixed-price and competitively awarded fixed-price with economic price adjustment contracts and sales of commercial items pursuant to Part 12) are expected to exceed \$25 million during the next 12 months, the ACO will perform a review to determine if a CPSR is needed. Sales include those represented by prime contracts, subcontracts under
