SUPPLEMENTARY INFORMATION:

A. Purpose

It is the Government's policy to try to resolve all contractual issues by mutual agreement at the contracting officer's level without litigation. Reasonable efforts should be made to resolve controversies prior to submission of a contractor's claim. The Contract Disputes Act of 1978 (41 U.S.C. 7103) requires that claims exceeding \$100,000 must be accompanied by a certification that (1) the claim is made in good faith; (2) supporting data are accurate and complete; and (3) the amount requested accurately reflects the contract adjustment for which the contractor believes the Government is liable. The information, as required by FAR clause 52.233–1, Disputes, is used by a contracting officer to decide or resolve the claim. Contractors may appeal the contracting officer's decision by submitting written appeals to the appropriate officials.

Agency Information Collection Request; 60-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

Title of the Collection: Implementation of an Electronic Spreadsheet-Based Uniform Data Set for OMH-funded Activities.

Type of Collection: Revision.

OMB No.: 0990–0275; Office of the Secretary, Office of Minority Health.

Abstract: The Office of Minority Health is seeking an approval on a

revision to a currently approved collection OMB # 0990–0275. The revised data collection activities seeks to further streamline the current questions grantees are asked by reducing the number of questions, and reduce the cost of the data collection system by using a more cost efficient alternative to the Performance Data System, (PDS) web-based portal. The overall reduction in questions will reduce the number of burden hours on grantees. The movement from a customized web-based portal to reporting using commercial, off-the shelf software (*i.e.*, a spreadsheet)

significantly reduces the cost of performance data collection and reporting. To collect program management and performance data for all OMH-funded projects, grantee data collection via the Uniform Data Set, UDS (original data collection system) was first approved by OMB on June 7, 2004 (OMB No. 0990–275).

Need and Proposed Use of the Information: The clearance is needed to continue performance data collection to enable OMH to comply with Federal reporting requirements, monitor, and evaluate performance by enabling the efficient collection of performance-oriented data tied to OMH-wide

performance reporting needs. The ability to monitor and evaluate performance in this manner, and to work towards continuous program improvement are basic functions that OMH must be able to accomplish in order to carry out its mandate with the most effective and appropriate use of resources.

Likely Respondents: Respondents for this data collection include the project directors for OMH-funded projects and/or the data entry persons for each OMH-funded project. Affected public includes non-profit institutions, State, Local, or Tribal Governments.
